Voices From The Edge Narratives About The Americans With Disabilities Act:

Voices from the Edge : Narratives about the Americans with Disabilities Act Ruth O'Brien Professor of Government John Jay College of Criminal Justice, 2004-01-15 Fear rage courage discrimination These are facts of everyday life for many Americans with disabilities The Americans with Disabilities Act ADA has made working traveling and communicating easier for many individuals But what recourse do individuals have when enforcement of the law is ambiguous or virtually nonexistent And how will its changing definition affect individuals lives as well as their legal actions in the future What is life like in post ADA America *Voices from the Edge* seeks to challenge the mindset of those who would deny equal protection to the disabled while providing informative analysis of the intent and application of the ADA for those who wish to learn more about disability rights Giving voice to the many types of discrimination the disabled face at a small Southern College in the Library of Congress on a New York City sidewalk while illustrating the personal stakes underlying legal disputes over the ADA this collection offers unparalleled insight into the lives behind the law Contributors Joan Aleshire on disability and the eye of the beholder Achim Nowak on disclosing HIV C G K Atkins on being an academic liability Stephen Kuusisto on hope without the tenure lifeboat Leonard Kriegel on wheelchairs vs NYC sidewalks John Hockenberry on trying one's luck at public transit Joan Tollifson on a license to drive disabled Shawn Casey O'Brien on the blue beacon of accessibility Jean Stewart on sign language in the ER Ruth O'Brien on everything you wanted to know about the ADA **Voices from the Edge** Ruth O'Brien, 2023 The Americans with Disabilities Act ADA has made working travelling and communicating easier for many individuals But has this significant piece of civil rights legislation helped those with disabilities become fully accepted members of society This text addresses this issue Exploring Disability Identity and Disability Rights through Narratives Ravi Malhotra, Morgan Rowe, 2013-10-30 Building on David M Engel and Frank W Munger's work analyzing the narratives of people with physical and learning disabilities this book examines the life stories of twelve physically disabled Canadian adults through the prism of the social model of disablement Using a grounded theory approach and with extensive reporting of the thoughts of the participants in their own words the book uses narratives to explore whether an advocacy identity helps or hinders dealings with systemic barriers for disabled people in education employment and transportation The book underscores how both physical and attitudinal barriers by educators employers and service providers complicate the lives of disabled people The book places a particular focus on the importance of political economy and the changes to the labour market for understanding the marginalization and oppression of people with disabilities By melding socio legal approaches with insights from feminist critical race and queer legal theory Ravi Malhotra and Morgan Rowe ask if we need to reconsider the social model of disablement and proposes avenues for inclusive legal reform **Arts and Humanities** Brenda Jo Brueggemann, 2012-08-23 One of eight volumes in the cross disciplinary and issues based SAGE Reference Series on Disability this volume explores the arts and humanities within the lives of people with disabilities **Telling Stories Out of**

Court Ruth O'Brien,2018-09-05 Few of the countless real life stories of workplace discrimination suffered by men and women every day are ever told publicly This book boldly and eloquently rights that wrong going where no plaintiff testimony could ever dare because these stories are often too raw honest ambiguous and nuanced to be told in court or reported in a newspaper from the Foreword Telling Stories Out of Court reaches readers on both an intellectual and an emotional level helping them to think about feel and share the experiences of women who have faced sexism and discrimination at work It focuses on how the federal courts interpreted Title VII of the Civil Rights Act of 1964 Offering insights that law texts alone cannot the short stories collected here all but two written for this volume help readers concentrate on the emotional content of the experience with less emphasis on the particulars of the law Grouped into thematic parts titled In Their Proper Place Unfair Treatment Sexual Harassment and Hidden Obstacles the narratives are combined with interpretive commentary and legal analysis that anchor the book by revealing the impact this revolutionary law had on women in the workplace At the same time the stories succeed on their own terms as compelling works of fiction from LaKeesha's Job Interview in which a woman's ambition to move from welfare to work faces an ironic obstacle to Plato Again in which a woman undergoing treatment for cancer finds her career crumble under her to Vacation Days which takes the reader inside the daily routine of a nanny who works at the whim of her employer

Care at the End of the World Jina B. Kim,2025-03-21 In Care at the End of the World Jina B Kim develops what she calls crip of color critique bringing a disability lens to bear on feminist and queer of color literature in the aftermath of 1996 US welfare reform and the subsequent evisceration of social safety nets She examines literature by contemporary feminist queer and disabled writers of color such as Jesmyn Ward Octavia Butler Karen Tei Yamashita Samuel Delany and Aurora Levins Morales who each bring disability and dependency to the forefront of their literary freedom dreaming Kim shows that in their writing liberation does not take the shape of the unfettered individual or hinge on achieving independence Instead liberation emerges by recuperating dependency cultivating radical interdependency and recognizing the numerous support systems upon which survival depends At the same time Kim demonstrates how theories and narratives of disability can intervene into state authored myths of resource parasitism such as the welfare queen In so doing she highlights the alternate structures of care these writers envision and their dreams of life organized around reciprocity and mutual support Duke University Press Scholars of Color First Book Award

Disability as a Fluid State Sharon N. Barnartt,2010-11-10 Disability is often described in a way that suggests it is a permanent relatively stable state This volume argues that the relationship between impairment physical state and disability is neither fixed nor permanent but is fluid and not easily predicted

Disabling Interpretations Susan Gluck Mezey,2005-07-24 The Americans with Disabilities Act ADA of 1990 was intended to send a clear message to society that discrimination on the basis of disability is unacceptable As with most civil rights laws the courts were given primary responsibility for implementing disability rights policy Mezey argues that the act has not fulfilled its potential primarily because of the judiciary s disabling interpretations in adjudicating ADA claims In the decade of litigation following the enactment of the ADA judicial interpretation of the law has largely constricted the parameters of disability rights and excluded large numbers of claimants from the reach of the law The Supreme Court has not interpreted the act broadly as was intended by Congress and this method of decision making was for the most part mirrored by the courts below The high court s rulings to expand state sovereign immunity and insulate states from liability in damage suits has also caused claimants to become enmeshed in litigation and has encouraged defendants to challenge other laws affecting disability rights Despite the law s strong civil rights rhetoric disability rights remain an imperfectly realized goal

Disability Politics in a Global Economy Ravi Malhotra,2016-07-15 While the visibility of disability studies has increased in recent years few have thoroughly examined the marginalization of people with disabilities through the lens of political economy This was the great contribution of Marta Russell 1951 2013 an activist and prominent scholar in the United States and best known for her analyses of the issues faced by people with disabilities This book examines the legacy of Marta Russell bringing together distinguished scholars and activists such as Anne Finger Nirmala Erevelles and Mark Weber to explicate current issues relevant to the empowerment of people with disabilities Drawing from various fields including Law Political Economy Education and History the book takes a truly interdisciplinary approach offering a body of work that develops a dextrous understanding of the marginalization of people with disabilities The book will be of great use and interest to specialists and students in the fields of Political Economy Law and Society Labour Studies Disability Studies Women s Studies and Political Science

Bodies in Revolt Ruth O'Brien,2013-08-21 Bodies in Revolt argues that the Americans with Disabilities Act ADA could humanize capitalism by turning employers into care givers creating an ethic of care in the workplace Unlike other feminists Ruth O'Brien bases her ethics not on benevolence but rather on self preservation She relies on Deleuze s and Guattari s interpretation of Spinoza and Foucault s conception of corporeal resistance to show how a workplace ethic that is neither communitarian nor individualistic can be based upon the rallying cry one for all and all for one

Making and Unmaking Disability Julie E. Maybee, 2019-09-16 If the future is accessible as Alisa Grishman one of 55 million Americans categorized as having a disability writes in this book's cover image then we must stop making or constructing people as disabled and impaired In this brave new theoretical approach to human physicality Julie E Maybee traces societal constructions of disability and impairment through Western history along three dimensions of embodiment the personal body the interpersonal body and the institutional body Each dimension has played a part in defining people as disabled and impaired in terms of employment healthcare education and social and political roles Because impairment and disability have

been constructed along all three of these bodies unmaking disability and making the future accessible will require restructuring Western institutions including capitalism changing how social roles are assigned and transforming our deepest beliefs about impairment and disability to reconstruct people as capable Ultimately Maybee suggests unmaking disability will require remaking our world
