From sandwiches to salmagundi you'll find detailed instructions on nearly every variation on the turkey. Historians will enjoy a look back at the varied appetites of their ancestors and seasoned cooks will have an opportunity to reintroduce a familiar food in forgotten ways.

Ray Eye's Turkey Hunting Bible Ray Eye, 2014-04-01 Legendary turkey hunter Ray Eye provides all of the information you need to know to successfully hunt wild turkeys across the country: how to scout, how and when to call, special tactics for the early season, how to hunt pressured turkeys, how to hunt heavy timber or open fields, and much, much more. Told in Ray's down-home, folksy manner, the book not only informs but entertains as well. There's also a bonus storytelling section that will have you laughing in stitches as you read of some of Ray's more ponderous exploits.

On the Wild Edge David Petersen, 2015-09-22 Opinionated and iconoclastic Petersen writes with humor and a well-honed craft that will delight fans of *Edward Abbey*. Library Journal starred review. Twenty-five years ago, David Petersen and his wife Caroline pulled up stakes, trading Laguna Beach, California, for a snug, hand-built cabin in the wilderness. Today he knows that mountain land as intimately as anyone can know his home. Petersen conflates a quarter-century into the adventures of four high-country seasons, tracking the rigors of survival from the snowmelt that announces the arrival of spring to the decline and death of autumn and winter that will establish the fertile ground needed for next year's rebirth. In the past, we listened to Henry David Thoreau or Aldo Leopold; today, it is Petersen's turn. His observations are lyrical, scientific, and from the heart. He reinforces Thoreau's dictum: in wildness is the preservation of the earth. In prose rich with mystery and soul, his words are a plea for the survival of the remnant wilderness. Many of us would like to live a life of greater intention and simplicity, but few can, and even fewer do. David Petersen is one of those rare human beings among us who lives a wild life with a cultured mind. He has created a map all of us can follow. Terry Tempest
