fermentation enthusiast and self-described Appalachian Yeti Viking Jereme Zimmerman summons the bryggjemaður of the ancient Norse to demonstrate how homebrewing mead arguably the world's oldest fermented alcoholic beverage can be not only uncomplicated but fun. Armed with wild yeast-bearing totem sticks, readers will learn techniques for brewing sweet, semi-sweet, and dry meads, melomels, fruit meads, metheglins, spiced meads, Ethiopian tej, flower and herbal meads, braggots, honey beers, country wines, and even Viking grog, opening the Mead Hall doors to further experimentation in fermentation and flavor. In addition, aspiring Vikings will explore the importance of local and unpasteurized honey for both flavor and health benefits. Why modern homebrewing practices materials and chemicals work but aren't necessary. How to grow and harvest herbs and collect wild botanicals for use in healing, nutritious, and magical meads, beers, and wines. Hops' recent monopoly as a primary brewing ingredient and how to use botanicals other than hops for flavoring and preserving mead, ancient ales, and gruits. The rituals, mysticism, and communion with nature that were integral components of ancient brewing and can be for modern homebrewers as well. Recommendations for starting a mead circle to share your wild meads with other brewers as part of the growing mead movement subculture and more. Whether you've been intimidated by modern homebrewing's cost or seeming complexity in the past and its focus on the use of unnatural chemicals or are boldly looking to expand your current brewing and fermentation practices, Zimmerman's welcoming style and spirit will usher you into exciting new territory. Grounded in history and mythology but like Odin's ever-seeking eye focusing continually on the future of self-sufficient food culture, *Make Mead Like a Viking* is a practical and entertaining guide for the ages. — **The Brewer's Apprentice** Greg Koch, 2011

This book details the wide array of processes and ingredients in American sour beer production with actionable advice for each stage of the process. Inspiration, education, and practical applications for brewers of all levels are provided by some of the country's best-known sour beer brewers. [The Art of Fermentation](#) Sandor Ellix Katz, 2012-05-14

Katz presents the concepts and processes behind fermentation in ways that are simple enough to guide a reader through their first experience making sauerkraut or yogurt and in-depth enough to provide greater understanding and insight for experienced practitioners. [True Beer](#) Timothy Sprinkle, 2016-08-02

In the 1970s and 80s, the brewing industry shifted from large corporate suppliers to smaller independent microbrewers typified by producers such as the Boston Beer Company and Sierra Nevada Brewing Company. Today, the market is going even smaller, with tiny independent brewers setting up shop in neighborhood brew houses nationwide, focusing on crafting unique, flavorful brews specifically for their extremely local clientele. The reality is that beer is in the midst of a renaissance in this country, driven by a new class of these dedicated craft nanobrewers and growing communities of drinkers looking for something more from their daily brew: something higher quality, more unique, more local. These microbrewers rent out small spaces or buy industrial equipment to install in their garages. They're accountants, middle school teachers, and plumbers who are passionate about beer and who dedicate their free time to producing three or so barrels of their own brew at a time. They sell their bottles to close friends and gift it to family members for birthdays and holidays. They enjoy what they do, and they're proud of their product. What's it like inside these small-time brewing operations? What happens behind the scenes? What goes into making high-end craft beer on a small scale? [True Beer](#) takes an on-the-ground look at the ultra-small side of the craft brewing movement from the inside out by profiling a number of independent American breweries in detail and using that as a jumping-off point to examine the art and science of brewing, the local farmers and providers behind the scenes, the market itself, as well as national trends in nanobrewing and modern craft beer production.
