A photograph of a white Wilderness travel trailer with red and brown stripes, parked on a grassy field. The trailer has "wilderness" written on its side and a graphic of mountains. Two propane tanks are visible at the rear. In the background, there are snow-capped mountains under a clear blue sky. To the left, a wooden fence and a few people are visible.

Wilderness Travel Trailer Owners Manual 1998:

On Holiday Orvar Löfgren, 1999-10-27 Löfgren takes us on a tour of the Western holiday world and shows how two centuries of learning to be a tourist have shaped our own ways of vacationing. We see how fashions in destinations have changed through the years with popular images written, drawn, painted, and later photographed, teaching the tourist what to look for and how to experience it. Travelers present and future will never see their cruises, treks, ecotours, round the world journeys, or trips to the vacation cottage or condo in quite the same way again. All our land, sea, and mindscapes will be the richer for Löfgren's insights. **Trailer Life**, 1975. Subject Guide to Books in Print, 1991. **Making Camp** Martin Hogue, 2023-05-09. A visual exploration and history of one of America's favorite pastimes. Car camping, hike-in tent camping, bivouacking, mountaineering, RV camping, glamping, back yard camping, whatever your style, outdoor adventure awaits. For camping enthusiasts, this fascinating and packable volume holds a comprehensive look at the origins of the practice and the ways that bring all these enthusiasts together. From the early days of recreational camping in the late nineteenth century through the multitude of modern camping options available today, *Making Camp* explores the history and evolution of the popular activity through the lens of its most important and familiar components: the campsite, the campfire, the picnic table, the map, the tent, the sleeping bag, as well as the oft-invisible systems for delivering water and managing trash. Find out how early nineteenth-century German peasants fashioned rudimentary sleeping bags by burrowing into bags full of leaves for the night. Look back over several millennia to learn about the progression of tents from animal skins, goat's hair, and heavy canvas to featherweight nylon. Learn about the ways in which the skills to build and maintain a campfire have been displaced by the portable gas stove. Pinpoint the details of the essential campground map and its unique place in the camping imagination. Each chapter includes a broad range of visuals to help illustrate the rich history of camping and our collective devotion to it, including drawings, patents, diagrams, sketches, paintings, advertisements, and historical photographs. A must-have for avid campers, nature lovers, and all who seek to connect with the universe by sleeping under the stars. *Backpacker*, 2004-03. *Backpacker* brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often.
