East African Wildlife Guide - a Fun Introduction to the Animals of Kenya, Tanzania, Rwanda, Uganda and Burundi Birgit Hendry,2024-05-27 Many great safari guides are often very detailed and written for adults while most wildlife books for children only talk about well known animals such as

elephants giraffes and lions This book is something in between while it covers all mammals that can be found in East Africa Tanzania Kenya Rwanda Uganda and Burundi plus a few iconic reptiles and birds it is meant to be easy to read and does not require a degree in zoology to understand after all we can only protect what we understand This book is written for children teenagers and adults of all ages and a perfect introduction to the wildlife of East Africa it is equally suitable to be read at home while dreaming of Africa or for the lucky ones to be used as a guide book on a safari A portion of the proceeds of this book support conservation education programmes by <https://www.africanpeoplewildlife.org> in Tanzania Hundreds of colour photos illustrations and drawings of every mammal found in East Africa A section covering common reptiles and birds in East Africa Show off words section explaining important terms Swahili translation of every animal name Distribution maps for all animals

Against Extinction William Mark Adams, 2013 Conservation in the 21st century needs to be different and this book is a good indicator of why Bulletin of British Ecological Society Against Extinction tells the history of wildlife conservation from its roots in the 19th century through the foundation of the Society for the Preservation of the Wild Fauna of the Empire in London in 1903 to the huge and diverse international movement of the present day It vividly portrays conservation's legacy of big game hunting the battles for the establishment of national parks the global importance of species conservation and debates over the sustainable use of and trade in wildlife Bill Adams addresses the big questions and ideas that have driven conservation for the last 100 years How can the diversity of life be maintained as human demands on the Earth expand seemingly without limit How can preservation be reconciled with human rights and the development needs of the poor Is conservation something that can be imposed by a knowledgeable elite or is it something that should emerge naturally from people's free choices These have never been easy questions and they are as important in the 21st century as at any time in the past The author takes us on a lively historical journey in search of the answers
