Wildwood Middle Grade:

The Middle-Class City John Henry Hepp, IV, 2018-06-29 The classic historical interpretation of the late nineteenth and early twentieth centuries in America sees this period as a political search for order by the middle class culminating in Progressive Era reforms In The Middle Class City John Hepp examines transformations in everyday middle class life in Philadelphia between 1876 and 1926 to discover the cultural roots of this search for order By looking at complex relationships among members of that city's middle class and three largely bourgeois commercial institutions newspapers department stores and railroads Hepp finds that the men and women of the middle class consistently reordered their world along rational lines According to Hepp this period was rife with evidence of creative reorganization that served to mold middle class life The department store was more than just an expanded dry goods emporium it was a middle class haven of order in the heart of a frenetic city an entirely new way of organizing merchandise for sale Redesigned newspapers brought well ordered news and entertainment to middle class homes and also carried retail advertisements to entice consumers downtown via train and streetcar The complex interiors of urban railroad stations reflected a rationalization of space and rail schedules embodied the modernized specialization of standard time In his fascinating investigation of similar patterns of behavior among commercial institutions Hepp exposes an important intersection between the histories of the city and the middle class In his careful reconstruction of this now vanished culture Hepp examines a wide variety of sources including diaries and memoirs left by middle class women and men of the region Following Philadelphians as they rode trains and trolleys read newspapers and shopped at department stores he uses their accounts as individualized guidebooks to middle class life in the metropolis And through a creative use of photographs floor plans maps and material culture The Middle Class City helps to reconstruct the physical settings of these enterprises and recreate everyday middle class life shedding new light on an underanalyzed historical group and the cultural history of twentieth century America

Cityscapes in History

Heléna Tóth, 2016-05-23 Cityscapes in History Creating the Urban Experience explores the ways in which scholars from a variety of disciplines history history of art geography and architecture think about and study the urban environment The concept cityscapes refers to three different dynamics that shape the development of the urban environment the interplay between conscious planning and organic development the tension between social control and its unintended consequences and the relationship between projection and self presentation as articulated through civic ceremony and ritual The book is structured around three sections each covering a particular aspect of the urban experience The City Planned looks at issues related to agency self perception the transfer of knowledge and the construction of space The City Lived explores the experience of urbanity and the construction of space as a means of social control And finally The City as a Stage examines the ways in which cultural practices and power relations shape and are in turn shaped by the construction of space Each section combines the work of scholars from different fields who examine these dynamics through both theoretical essays and

empirical research and provides a coherent framework in which to assess a wide range of chronological and geographical subjects Taken together the essays in this volume provide a truly interdisciplinary investigation of the urban phenomenon By making fascinating connections between such seemingly diverse topics as 15th century France and modern America the collection raises valuable questions about scholarly approaches to urban studies Resorts & Recreation ,1995 **Data Book, Operating Banks and Branches** ,1986 **The Making of the Chinese Middle Class** Jean-Louis Rocca,2016-11-07 This book analyses the making of the Chinese middle class that started in the 1990s using a constructivist approach With the development of the Chinese economy a new group of middle wage earners appeared Chinese social scientists and state institutions promoted the idea that China needs a middle class to achieve modernization Middle class members are defined and define themselves as good consumers educated people politically engaged but reasonable citizens As such the making of the middle class is the result of three convergent phenomena an attempt to define the middle class a process of civilization and the development of protest movements The making of the Chinese middle class Rocca argues is a way to end the stalemate that modern Chinese society is facing in particular the necessity to democratize without introducing an election system How Do K-12 School Districts Build Data-driven Systems and Utilize Those Systems to Enhance Student Achievement Rebecca Jolene Blink,2005 Report New Jersey. The Curse of Caste; or The Slave Bride Julia C. Collins, 2006-10-16 In 1865 The Christian Recorder the national newspaper of the African Methodist Episcopal Church serialized The Curse of Caste or The Slave Bride a novel written by Mrs Julia C Collins an African American woman living in the small town of Williamsport Pennsylvania The first novel ever published by a black American woman it is set in antebellum Louisiana and Connecticut and focuses on the lives of a beautiful mixed race mother and daughter whose opportunities for fulfillment through love and marriage are threatened by slavery and caste prejudice The text shares much with popular nineteenth century women's fiction while its dominant themes of interracial romance hidden African ancestry and ambiguous racial identity have parallels in the writings of both black and white authors from the period Begun in the waning months of the Civil War the novel was near its conclusion when Julia Collins died of tuberculosis in November of 1865 In this first ever book publication of The Curse of Caste or The Slave Bride the editors have composed a hopeful and a tragic ending reflecting two alternatives Collins almost certainly would have considered for the closing of her unprecedented novel In their introduction the editors offer the most complete and current research on the life and community of an author who left few traces in the historical record and provide extensive discussion of her novel's literary and historical significance Collins's published essays which provide intriguing glimpses into the mind of this gifted but overlooked writer are included in what will prove to be the definitive edition of a major new discovery in African American literature Its publication contributes immensely to our understanding of black American literature religion women's history community life and race relations during the era of United States emancipation **Chicago Teachers Union, Local No. 1, American Federation of Teachers V. A Sanctuary of Trees Gene Logsdon, 2012 Whether as an adolescent studying at a seminary or as a journalist living just outside Philadelphia's city limits Gene has always lived and worked close to the woods and his curiosity and keen sense of observation have taught him valuable lessons about a wide variety of trees their distinct characteristics and the multiple benefits and uses they have In addition to imparting many fascinating practical details of woods wisdom A Sanctuary of Trees is infused with a philosophy and descriptive lyricism that is born from the author's passionate and lifelong relationship with nature There is a point at which the tree shudders before it begins its descent Then slowly it tips picks up speed often with a kind of wailing death cry from rending wood fibers and hits the ground with a whump that literally shakes the earth underfoot The air in the aftermath seems to shimmy and shiver as if saturated with static electricity
