in settling the affairs of his realm he resigned his dukedom into the hands of his son that he might spend the remainder of his days in rest and peace He died in 922 five years after his resignation He was only ten years old when his father was assassinated He became involved in long and arduous wars with the King of France which compelled him to call in the aid of more Northmen from the Baltic His new allies in the end gave him as much trouble as the old enemy with whom they came to help William contend and he found it very hard to get them away He wanted at length to make peace with the French king and to have them leave his dominions but they said That was not what they came for Richard had a beautiful daughter named Emma who afterward became a very important political personage as will be seen more fully in a subsequent chapter Richard died in 996 after reigning fifty four years
