Living with Spinal Cord Injury Dr. Adrian Cristian, 2004-07-01 About 40% of all people with spinal cord injuries are now over the age of forty five and 25% have had their injury for twenty years or more We now live at a time when medical advances have made it possible for those with spinal cord injuries to live an essentially normal life span and to lead full meaningful and productive lives As is true for their friends and colleagues they work raise families and compete in sports The wear and tear associated with aging and SCI means that these individuals must deal with the fact that the effects of normal aging are superimposed on those of the spinal cord injury and activities that once might have been easy in many cases become increasingly difficult Perhaps pushing a wheelchair up a hill or transferring in and out of a car is more challenging than it once was Heart disease pneumonia urinary tract infections and pressure sores are common health ailments specific to those with SCI declining financial resources and aging caregivers are common social problems This is the definitive guide to dealing with the major challenges faced by those with spinal cord injuries as related to health finances and their social

support system It is primarily designed to identify medical and nonmedical problems that individuals may face as they live with SCI for a number of years Medical issues are considered by body system and include discussions of the cardiovascular system the respiratory system the gastrointestinal system the urinary system the musculoskeletal system the skin and psychological issues Following these discussions of common medical issues related to SCI is a section that deals with mobility and transportation issues including wheelchairs the selection of vans and minivans and the usefulness of a fresh look at rehabilitation issues A section on managing finances includes a chapter on dealing with home health attendants while appendices provide information for caregivers a glossary of commonly used terms in SCI and a helpful list of resources A wealth of practical advice by other people with spinal cord injuries as well as experts in the field has also been provided to help tackle the daily challenges faced by those with SCI This book will bring a better quality of life to the reader living with SCI Through vigilance and planning a person with spinal cord injury can age gracefully and have a good quality of life for many years

Tying the Ribbon Haley Stark, 2018-11-07 A percentage of the total proceeds made by Tying the Ribbon will go to the National Spinal Cord Injury Association Haley Stark is a sixteen year old high school student who suffered a life threatening spinal cord stroke in May of 2014 Written as a diary to log her experiences Tying the Ribbon is the honest personal and unapologetic story from her perspective Inspired by the support of her community and the love she received along the road to her recovery she decided to compile her writings and publish The book contains a purposeful mix of positivity and raw painful emotion She addresses the physical sensation of paralysis and the feeling of regaining nerve function as well as the mental battles and triumphs associated with overcoming obstacles Her unsophisticated story telling voice allows the reader to get to know and relate to her right off As the book progresses you will laugh at her peaks and ache for her lows you may even discover a new sense of gratitude Sarcastic serious and sometimes brutally truthful this book is an absolute necessity for anyone facing health related challenges or anyone who knows Haley and the Stark family

Looking Upward Ronald C. Schultz, 2006-03 Imagine being at a point in life where a euphoric feeling of well being sweeps you along on an idyllic journey toward only good things ahead You are young healthy and have seemingly endless potential within you Then imagine all of that ending in an instant throwing life into complete turmoil and plunging you into the depths of despair Such an experience happened to me on a dark wintry night leaving me to ponder how to continue on and reclaim life as dreams and goals Answers did not come easily and not without a total restructuring of my previously established self worth and identity This memoir tells of becoming spinal cord injured at age 22 struggling to deal with this dramatic life change physically psychologically and socially and eventually overcoming through faith determination and personal growth obstacles and challenges faced It is my story but you may find somewhere in it similarities to your own life experience

Spinal Cord Injury and the Family Michelle J. ALPERT, Saul Wisnia, Michelle J Alpert, 2009-06-30 Spinal cord injury or SCI is frequently sudden and unexpected through accident disease or violence patients temporarily lose control of their bodies and it seems

their lives With rehabilitation they can learn to navigate their world once more retraining muscles and mind to compensate for paralyzed limbs and diminished strength But as Dr Michelle Alpert shows here there is far more to recapturing full independent lives than regaining movement Central to long term success is mending the family unit Combining Dr Alpert's clinical experience with patients own stories *Spinal Cord Injury and the Family* is for individuals and their families who must climb back from injury for the young quad couple both quadriplegic who wish to conceive and raise a child for the paraplegic dad who wants to teach his daughter to drive for the couple wondering how they can regain the sexual spark in their relationship The authors cover the causes of and prognosis for SCI through case studies review common courses of rehabilitation and answer the what now questions from daily routines to larger issues concerning sex education and employment childbearing and parenting with SCI Rich in clinical information and practical advice the book shows how real patients and their families are living full lives after spinal cord injury

Wheeling and Dealing Esther I. Wilder, 2006 Before his motorcycle accident Travis saw himself becoming a pro football player Now paralyzed from the nipple down he says At times it's a pain in the ass literally and figuratively But it allows me to not be as threatening to some people the way I was when I was still an athlete Because a lot of times male interaction is done on the basis of pissing contests I'm bigger I'm tougher I'm stronger I'm smarter When you're in a chair they don't look at you like that At the same time Travis complains that many people are uncomfortable interacting with him because of his disability I would rather you make a mistake and deal with me than not deal with me at all Meghan is a high level quadriplegic living alone who uses a power wheelchair and requires daily attendant care She laments There are so many people who think we're asexual we're not pretty and we're creeps and weirdoes To dispel this myth she envisions a fashion show of women in wheelchairs parading down a runway Meghan has been involved in a number of sexual relationships since sustaining her injury While she doesn't think her disability has diminished her sexual pleasure she feels that it has affected her sexual performance Well you can't move it You can't like bump and grind In 32 unusually frank in depth interviews like these the men and women in this book freely discuss their sex lives their beliefs about God how they want others to treat them and whether they want to walk again In each chapter the author presents their complex voices and comprehensive research about different facets of spinal cord injury

SCI Wheeling and Dealing explores the extent to which people with spinal cord injury locate their challenges in their physical impairments or in the social environment Some disagree with those disability activists who focus almost exclusively on the latter but the author examines this issue in depth Topics include Physical health from degrees of loss of function to problems like pressure sores temperature regulation and bladder control The stages of psychological adjustment and rehabilitation Obstacles to sexual intimacy treatment of erectile dysfunction and new sources of sexual pleasure and emotional intimacy Religion and spirituality Social and political beliefs with those with SCI weighing in on everything from welfare services to embryonic stem cell research Dating marriage and parenting Friendship networks and social supports concerns about

transportation and accessibility stigma Education employment and economic consequences This book is the recipient of the 2004 Norman L and Roselea J Goldberg Prize from Vanderbilt University Press for the best project in the area of medicine

You're Going to Walk Laurie Perlongo Zappulla, 2018-10-08 All this time 39 years Ever since the beginning people would say to me Wow you should write a book They would engage me with questions about what happened They wanted to know and they still do So BECAUSE SOMEONE WILL ALWAYS ASK I began one night to write this story that I have known so well They say that everyone has a book in them They have a story to tell I never dreamed that my life story would be able to give hope to someone else I knew it was amazing that I came back from a horrific injury and thought it ended there I have been wrong People find it inspiring They say that someone needs to hear this **Take It Lying Down** Jim

Linnell, 2019-08-15 A stunning account Kirkus starred review This profoundly literate memoir of courage stuns and moves and in its ferocious honesty delights Mark Medoff Oscar nominated screenwriter of Children of a Lesser God A powerful look at what goes through the mind of someone whose life changes in the blink of an eye Booklist Take It Lying Down is a movingly intricate weave a detailed and poetic chronicle of healing against all odds an intense love story a narrative of a young man's journey from Maine to New Mexico and adulthood and a book of literary inspiration and wisdom this is not a medical book not a self help book it's a literate occasionally theatrical surprisingly buoyant always philosophical and compelling journey through one man's life From the Foreword by Len Jenkin Jim Linnell is a writer teacher and director He is Professor Emeritus in the Department of Theatre together they have three children and six grandchildren **Genesis**

Stephen Thompson, 2001 No long after Indiana University had won the NCAA championship in 1981 a young man of twenty was hurriedly riding his bicycle in order to make it on time for a tennis tournament He had plans for returning to the game after having been sidetracked with the college life Although he expected to attend graduate school he was hoping to play professional tennis one day He never made it to that tournament A head on collision with an automobile had crushed his dreams and also his neck resulting in a cervical spinal cord injury As he lay in the intensive care unit unable to move he listened to music on his Walkman to distract him from his terrible predicament His favorite tape The Lamb by Genesis seemed to help keep his attitude positive and hopeful The following months are torturous and frustrating and he prays for a miracle near death experiences that seem too mysterious to comprehend show him that there is life beyond human existence Then after finally making it to the rehabilitation unit he meets other young men in similar situations and they all struggle together to increase their functional abilities In this rare and candid memoir Stephen Thompson shares his many tribulations as he experiences new beginnings both physical and spiritual and strives for the ultimate goal of any spinal cord injury victim to walk again *Tying the Ribbon* Haley M. Stark, 2018 Spinal cord strokes are a rarity Having one at a young age is relatively unheard of Therefore the only thing less likely than having a stroke at age twelve is perhaps surviving it Throughout my recovery I cataloged my experiences in a series of personal journal entries In search of closure I decided to

compile the entries into a single document which would eventually become this memoir Over four years of contemplating sharing my story I have reached the conclusion that my family friends and community should hear my perspective This is my unapologetic unsophisticated completely honest and sometimes sarcastic story of my stroke and how I m living now Page 4 of cover

Living with Spinal Cord Injury Adrian Cristian,2010-11 The definitive guide for dealing with the major challenges those with spinal cord injuries face Medical advances have made it possible for those with spinal cord injuries to live an essentially normal life span and to lead full meaningful and productive lives Inevitably however spinal injury superimposes special considerations on the routine activities and passages of life and activities that might once have been easy can in many cases become increasingly difficult This book identifies medical and nonmedical problems that individuals with SCI face as they get older while providing practical advice on how to tackle these challenges Includes information on health finances social support system the effects of aging
