Winds Of Change The End Of The Empire Of Africa:

The Wind of Change L. Butler, S. Stockwell, 2013-06-27 Harold Macmillan's Wind of Change speech delivered to the South African parliament in Cape Town at the end of a landmark six week African tour presaged the end of the British Empire in Africa This book the first to focus on Macmillan's Wind of Change comprises a series of essays by leading historians in the field Winds of Change Peter Hennessy, 2019-09-05 Following Never Again and Having It So Good the third part of Peter Hennessy's celebrated Post War Trilogy By far the best study of early Sixties Britain so much fun yet still shrewd and important The Times Books of the Year Harold Macmillan famously said in 1960 that the wind of change was blowing over Africa and the remaining British Empire But it was blowing over Britain too its society its relationship with Europe its nuclear and defence policy And where it was not blowing hard enough the United Kingdom's economy great efforts were made to sweep away the cobwebs of old industrial practices and poor labour relations Life was lived in the knowledge that it could end in a single afternoon of thermonuclear exchange if the uneasy armed peace of the Cold War tipped into a Third World War In Winds of Change we see Macmillan gradually working out his grand design how to be part of both a tight transatlantic alliance and Europe dealing with his fellow geostrategists Kennedy and de Gaulle The centre of the book is 1963 the year of the Profumo Crisis the Great Train Robbery the satire boom de Gaulle's veto of Britain's first application to join the EEC the fall of Macmillan and the unexpected succession to the premiership of Alec Douglas Home Then in 1964 the battle of what Hennessy calls the tweedy aristocrat and the tweedy meritocrat Harold Wilson who would end 13 years of Conservative rule and usher in a new era As in his acclaimed histories of British life in the two previous decades Never Again and Having it so Good Peter Hennessy explains the political economic cultural and social aspects of a nation with inimitable wit and empathy No historian knows the by ways as well the highways of the archives so well and no one conveys the flavour of the period so engagingly The early sixties live again in these pages **Transactions of the Royal Historical Society: Volume 16** Ian W. Archer, 2007-03-12 The Transactions of the Royal Historical Society publish an annual collection of major articles representing some of the best historical research by some of the world's most distinguished historians The volume includes the following articles Potential Address Britain and Globalisation since 1850 I Creating a Global Order 1850 1914 Land Freedom and the Making of the Medieval West The Origins of the English Hospital The Alexander Prize Essay Trust and Distrust A Suitable Theme for Historians Witchcraft and the Western Imagination Africa and the Birth of the Modern World The Break Up of Britain Scotland and the End of the Empire The Prothero Lecture Report of Council for 2005 2006 **Negotiating the End of the British Empire in Africa, 1959-1964** Peter Docking, 2021-12-02 This book examines conferences and commissions held for British colonial territories in East and Central Africa in the early 1960s Until 1960 the British and colonial governments regularly employed hard methods of colonial management in East and Central Africa such as instituting states of emergency and imprisoning political leaders A series of events at the end of the

1950s made hard measures no longer feasible including criticism from the United Nations As a result softer measures became more prevalent and the use of constitutional conferences and commissions became an increasingly important tool for the British government in seeking to manage colonial affairs During the period 1960-64 a staggering sixteen conferences and ten constitutional commissions were held for British colonies in East and Central Africa This book is the first of its kind to provide a detailed overview of how the British sought to make use of these events to control and manage the pace of change The author also demonstrates how commissions and conferences helped shape politics and African popular opinion in the early 1960s Whilst giving the British government temporary respite conferences and commissions ultimately accelerated the decolonisation process by transferring more power to African political parties and engendering softer perceptions on both sides Presenting both British and African perspectives this book offers an innovative exploration into the way that these episodes played an important part in the decolonisation of Africa It shows that far from being dry and technical events conferences and commissions were occasions of drama that tell us much about how the British government and those in Africa engaged with the last days of empire

The Politics and Economics of Decolonization in Africa Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material *The Politics and Economics of Decolonization* offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent

Postcolonial People Christoph Kalter, 2022-05-26 Having built much of their wealth power and identities on imperial expansion how did the Portuguese and by extension Europeans deal with the end of empire *Postcolonial People* explores the processes and consequences of decolonization through the histories of over half a million Portuguese settlers who returned following the 1974 Carnation Revolution from Angola Mozambique and other parts of Portugal's crumbling empire to their country of origin and citizenship itself undergoing significant upheaval Looking comprehensively at the returnees history and memory for the first time this book contributes to debates about colonial racism and its afterlives It studies migration refugeeness and integration to expose an apparent paradox The end of empire and the return migrations it triggered belong to a global history of the twentieth century and are shaped by transnational dynamics However they have done nothing to dethrone the primacy of the nation state If anything they have reinforced it

Protection, Patronage, or

Plunder? British Machinations and (B)uganda's Struggle for Independence Apollo N. Makubuya, 2019-01-17 In the scramble for Africa Britain took a lion's share of the continent. It occupied and controlled vast territories including the Uganda Protectorate which it ruled for 68 years. Early administrators in the region encountered the progressive kingdom of Buganda which they incorporated into the British Empire. Under the guise of protection, indirect rule and patronage, Britain overran, plundered and disempowered the kingdom's traditional institutions. On liquidation of the Empire, Buganda was coaxed into a problematic political order largely dictated from London. Today, 56 years after independence, the kingdom struggles to rediscover itself within Uganda's fragile politics. Based on newly declassified records, this book reconstructs a history of the machinations underpinning British imperial interests in Buganda and the personalities who embodied colonial rule. It addresses Anglo-Uganda relations, demonstrating how Uganda's politics reflects its colonial past and the forces shaping its future. It is a far-reaching examination of British rule in Buganda, questioning whether it was designed for protection, for patronage or for plunder.

The Cold War Priscilla Roberts, 2018-12-07 This detailed two-volume set tells the story of the Cold War, the dominant international event of the second half of the 20th century, through a diverse selection of primary source documents. One of the most extensive to date, this set of primary source documents studies the Cold War comprehensively from its beginning with the emergence of the world's first communist government in Russia in late 1917 to its end in 1991. All of the key events, including the Berlin Blockade, the Korean War, the Cuban Missile Crisis, the Vietnam War, and the nuclear arms race, are discussed in detail. The primary sources provide insight into the thinking of all participants, drawing on Western, Soviet, Asian, and Latin American perspectives. In *The Cold War: Interpreting Conflict through Primary Documents*, primary documents are organized chronologically, allowing readers to appreciate the ramifications of the Cold War within a clear time frame. Extensive interpretive commentary provides in-depth background and context for each document. This work is an indispensable reference for all readers seeking to become deeply knowledgeable about the Cold War.

The Wind of Change in Africa Patrick Rooke, 1968 **Routledge Library Editions: World Empires** Various, 2021-07-09 The 16 volumes in this set, originally published between 1919 and 1998, draw together research by leading academics in the area of World Empires and provide an examination of related key issues. The Department of State Bulletin, 1975-07 *Algerian Independence and the British Left* Mélanie Torrent, 2024-11-14 Based on archives from governments, parties, organisations, and individuals, this book investigates the relationship between the British left and Algerian liberation movements during the Algerian War of Independence, 1954-1962. It explores the presence of representatives of the Mouvement national algérien (MNA) and the Front de libération nationale (FLN) in London, where they actively sought support for peace, independence from France, and the global end of European domination. By surveying their interactions with individuals and groups in the

anticolonial left including prominent Labour MPs and Trotskyist groups Asian and African associations and students unions

Torrent shows how and why solidarity was interpreted differently across the left and in relation to Britain's own end of empire conflicts

Tracing connections across Europe and beyond this book demonstrates how the war influenced conceptions of socialism communism and internationalism in Britain what being European meant and what place the Commonwealth should have in a world where armed struggle and liberation diplomacy disrupted boundaries

The Dissolution of the Colonial Empires Franz Ansprenger, 2018-05-01 First published in 1989 On the eve of the First World War almost 72 million square kilometres of territory and more than 560 million people were under colonial rule By 1980 the European colonial empires had disappeared from the map Concentrating in particular on the British Commonwealth and the French colonial empire the author shows how economic and political changes in the mother countries the awakening national consciousness of the African and Asian peoples and the effects of two World Wars had all compelled Europe to decolonize He argues that although a satisfactory new order in world politics and the global economy has not been achieved in the process the dissolution of the empires came about with remarkably little bloodshed thereby laying a solid foundation for the future The author concludes by looking at the legacy of the decolonized world in the late 1980s He examines the last bastion of European colonial domination South Africa and discusses the emerging new North South relations

The Illusion of the Post-Colonial State W. Alade Fawole, 2018-06-01 This book challenges the long held conventional wisdom that Africa is a post colonial society of sovereign nation states despite the outward attributes of statehood demarcated territories permanent populations governments national currencies police and armed forces While it is true that African nation states have been gifted flag independence by their respective colonial masters few have reached fully developed status as a secure nation state Most African nation states have since independence been grappling with the crisis of state building nation building governance and myriad security challenges which have been chronically exacerbated by the dynamics of the post Cold War era To focus merely on the agency of the African political elite and their inability to sustain functional modern nation states misses the point The central argument of the book is that an understanding of Africa's contemporary governance and security challenges requires us to historicize the discourse surrounding nation building and state building throughout Africa

The Globalization of World Politics John Baylis, Steve Smith, Patricia Owens, 2011 Now in its fifth edition this title has been fully revised and updated in the light of recent developments in world politics with new chapters on the changing nature of war human security and international ethics

Decolonisation and the British Empire, 1775-1997 George Boyce, 1999-09-20 This book combines an analysis of the ideas and policies that governed the British experience of decolonization It shows how the British perhaps more correctly the English political tradition with its emphasis on experience over abstract theory was integral to the way in which the empire was regarded as being transformed rather than lost This was a significant aspect of the relatively painless British loss of empire It places the process of decolonization in its wider context tracing the twentieth century domestic and international conditions that hastened decolonization and through a close analysis of not only the policy choices but also the language of British imperialism it throws new light on the British way of managing both the expansion and contraction of empire

Britain, France and the Decolonization of Africa Andrew W.M. Smith, Chris Jeppesen, 2017-03-01 Looking at decolonization in the conditional tense this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of late colonial shift after 1945 Rather than view decolonization as an inevitable process the contributors together explore the crucial historical moments in which change was negotiated compromises were made and debates were staged Three core themes guide the analysis development contingency and entanglement The chapters

consider the ways in which decolonization was governed and moderated by concerns about development and profit A complementary focus on contingency allows deeper consideration of how colonial powers planned for colonial futures and how divergent voices greeted the end of empire Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa and those that endured beyond the formal transfer of power
