To Hear Only Thunder Again Americas World War Ii Veterans Come Home:

To Hear Only Thunder Again Mark David Van Ells, 2001-01-01 The paucity of scholarly literature on World War II veteran readjustment might lead one to believe these nearly sixteen million men and women simply took off their uniforms after the War and reintegrated into society with ease Mark D Van Ells path breaking work is the first serious analysis of the immense effort that was required to avoid the potential social decay so often associated with veteran reintegration To Hear Only Thunder Again explores the topical issues of educational health employment housing medical and personal readjustment faced by veterans while continuously situating these issues against the backdrop of society's political response Never before or since had Americans taken such a keen interest in veterans affairs While post World War II America was spared the problem of veteran unemployment and while veterans were not associated with crime and political disorder as had often been the case after World War I the package of readjustment benefits devised that allowed for such a smooth transition was extremely expensive Veterans of later wars never received as much assistance and consequently experienced more difficulty returning to civilian life Van Ells work ensures that these lessons of the Second World War are not entirely lost To Hear Only Thunder Again provides an unprecedented exploration of a period largely neglected by military historians

The Politics of Veteran Benefits in the Twentieth Century Martin Crotty, Neil J. Diamant, Mark Edele, 2020-10-15 What happened to veterans of the nations involved in the world wars How did they fare when they returned home and needed benefits How were they recognized or not by their governments and fellow citizens Where and under what circumstances did they obtain an elevated postwar status In this sophisticated comparative history of government policies regarding veterans Martin Crotty Neil J Diamant and Mark Edele examine veterans struggles for entitlements and benefits in the United States the United Kingdom

Japan Taiwan the Soviet Union China Germany and Australia after both global conflicts They illuminate how veterans success or failure in winning benefits were affected by a range of factors that shaped their ability to exert political influence Some veterans groups fought politicians for improvements to their postwar lives this lobbying the authors show could set the foundation for beneficial veteran treatment regimes or weaken the political forces proposing unfavorable policies The authors highlight cases of veterans who secured and in some cases failed to secure benefits and status after wars both won and lost within both democratic and authoritarian polities under liberal conservative and even Leninist governments after wars fought by volunteers or conscripts at home or abroad and for legitimate or subsequently discredited causes Veterans who succeeded did so for the most part by forcing their agendas through lobbying protesting and mobilizing public support The Politics of Veteran Benefits in the Twentieth Century provides a large scale map for a research field with a future comparative veteran studies

Failing Our Veterans Mark Boulton, 2014 Returning Vietnam veterans had every reason to expect that the government would take care of their readjustment needs in the same way it had done for veterans of both World War II and Korea But the Vietnam generation soon discovered that their G I Bills fell well short of what many of them believed they had earned Mark Boulton's groundbreaking study provides the first analysis of the legislative debates surrounding the education benefits offered under the Vietnam era G I Bills Specifically the book explores why legislators from both ends of the political spectrum failed to provide Vietnam veterans the same generous compensation offered to veterans of previous wars Failing Our Veterans should be essential reading to scholars of the Vietnam War political history or of social policy Contemporary lawmakers should heed its historical lessons on how we ought to treat our returning veterans Indeed veterans wishing to fully understand their own homecoming experience will find great interest in the book's conclusions

Contesting the Postwar City Eric Fure-Slocum, 2013-06-28 Focusing on mid century Milwaukee Eric Fure Slocum charts the remaking of political culture in the industrial city Professor Fure Slocum shows how two contending visions of the 1940s city working class politics and growth politics fit together uneasily and were transformed amid a series of social and policy clashes Contests that pitted the principles of democratic access and distribution against efficiency and productivity included the hard fought politics of housing and redevelopment controversies over petty gambling questions about the role of organized labor in urban life and battles over municipal fiscal policy and autonomy These episodes occurred during a time of rapid change in the city's working class as African American workers arrived to seek jobs women temporarily advanced in workplaces and labor unions grew At the same time businesses and property owners sought to re establish legitimacy in the changing landscape This study examines these local conflicts showing how they forged the postwar city and laid a foundation for the neoliberal city

The Routledge Handbook of the History of Race and the American Military Geoffrey Jensen, 2016-04-20 The Routledge Handbook of the History of Race and the American Military provides an important overview of the main themes surrounding race in the American military establishment from the French
