Tobacco Use By Native North Americans Tobacco Use By Native North Americans:

Tobacco Use by Native North Americans Joseph C. Winter, 2000 Recently identified as a killer tobacco has been the focus of health warnings lawsuits and political controversy Yet many Native Americans continue to view tobacco when used properly as a life affirming and sacramental substance that plays a significant role in Native creation myths and religious ceremonies This definitive work presents the origins history and contemporary use and misuse of tobacco by Native Americans It describes wild and domesticated tobacco species and how their cultivation and use may have led to the domestication of corn potatoes beans and other food plants It also analyzes many North American Indian practices and beliefs including the concept that Tobacco is so powerful and sacred that the spirits themselves are addicted to it The book presents medical data revealing the increasing rates of commercial tobacco use by Native youth and the rising rates of death among Native American elders from lung cancer heart disease and other tobacco related illnesses Finally this volume argues for the preservation of traditional tobacco use in a limited sacramental manner while criticizing the use of commercial tobacco Contributors are Mary J Adair Karen R Adams Carol B Brandt Linda Scott Cummings Glenna Dean Patricia Diaz Romo Jannifer W Gish Julia E Hammett Robert F Hill Richard G Holloway Christina M Pego Samuel Salinas Alvarez Lawrence A Shorty Glenn W Solomon Mollie Toll Suzanne E Victoria Alexander von Garnet Jonathan M Samet and Gail E Wagner

Native Intoxicants of North America Sean Rafferty, 2023-08-18 Though scholarship on intoxicants in regions like Asia Africa Mesoamerica and South America is plentiful Native Intoxicants of North America represents the first foray into a study of prehistoric intoxicants throughout North America specifically In this study Sean Rafferty fills significant gaps in existing research with a focus on native cultures of North America and holistic coverage of intoxicants by type Importantly Rafferty anchors his investigation in an easily overlooked question why did early humans use intoxicants in the first place Rafferty begins by discussing the origins of intoxicants and their role in rituals medicine and recreation Subsequent chapters turn to specific intoxicants hallucinogens stimulants alcohol and tobacco making ample use of illustrations across disciplines weaving a tapestry of culture ritual medicine botany artifact and history All the while Rafferty explores the societal significance of narcotics stimulants and hallucinogens on prehistoric North American cultures While Native Intoxicants of North America focuses specifically on Native cultures the author's analysis provides the foundation for a valuable broader discussion that in a world where few human behaviors are universal experiencing altered states of consciousness is one that transcends culture and time

States, American Indian Nations, and Intergovernmental Politics Anne F. Boxberger Flaherty, 2017-10-04 American Indian nations are sovereign political entities within the United States They have complex relationships with the federal government and increasingly with state governments Regulatory conflict between Native nations and states has increased as Native nations have developed their own independent economies and some states have sought to assert their control over reservation territory This book explores the intergovernmental conflict between Native

nations and states with a focus on the tension over the enforcement of state cigarette taxes for on reservation sales Anne F Boxberger Flaherty asks when do states and Native nations come to agreement when do they disagree and why are states sometimes willing to extend great efforts to assert their taxes on reservations Flaherty uses a multi method approach with a historical review of expanding state involvement on reservations a quantitative analysis of state enforcement of cigarette taxes on reservations and a qualitative analysis of several specific case studies including the potential for intergovernmental conflict over marijuana cultivation and sales on reservations to answer these questions This book will be interest to scholars and researchers of Indigenous Politics Native American Indian Politics State Politics and Intergovernmental Politics **Fort Union Trading Post National Historic Site (32WI17) Material Culture Reports** Steven Leroy De Vore,William J. Hunt (Jr.),1993 The Indianization of Lewis and Clark William R. Swagerty,2012-10-29 Although some have attributed the success of the Lewis and Clark expedition primarily to gunpowder and gumption historian William R Swagerty demonstrates in this two volume set that adopting Indian ways of procuring processing and transporting food and gear was crucial to the survival of the Corps of Discovery The Indianization of Lewis and Clark retraces the well known trail of America s most famous explorers as a journey into the heart of Native America a case study of successful material adaptation and cultural borrowing Beginning with a broad examination of regional demographics and folkways Swagerty describes the cultural baggage and material preferences the expedition carried west in 1804 Detailing this baseline reveals which Indian influences were already part of Jeffersonian American culture and which were progressive adaptations the Corpsmen made of Indian ways in the course of their journey Swagerty s exhaustive research offers detailed information on both Indian and Euro American science medicine cartography and cuisine and on a wide range of technologies and material culture Readers learn what the Corpsmen wore what they ate how they traveled and where they slept and with whom before during and after the return Indianization is as old as contact experiences between Native Americans and Europeans Lewis and Clark took the process to a new level accepting the hospitality of dozens of Native groups as they sought a navigable water route to the Pacific This richly illustrated interdisciplinary study provides a unique and complex portrait of the material and cultural legacy of Indian America offering readers perspective on lessons learned but largely forgotten in the aftermath of the epic journey Handbook of Cognitive Archaeology Tracy B. Henley,Matt J. Rossano,Edward P. Kardas,2019-07-24 The remains that archaeologists uncover reveal ancient minds at work as much as ancient hands and for decades many have sought a better way of understanding those minds This understanding is at the forefront of cognitive archaeology a discipline that believes that a greater application of psychological theory to archaeology will further our understanding of the evolution of the human mind Bringing together a diverse range of experts including archaeologists psychologists anthropologists biologists psychiatrists neuroscientists historians and philosophers in one comprehensive volume this accessible and illuminating book is an important resource for students and researchers exploring how the application of cognitive

archaeology can significantly and meaningfully deepen their knowledge of early and ancient humans This seminal volume opens the field of cognitive archaeology to scholars across the behavioral sciences Landscapes of Ritual Performance in Eastern North America Cheryl Claassen, 2023-02-23 In the long history of documenting the material culture of the archaeological record meaning and actions of makers and users of these items is often overlooked The authors in this book focus on rituals exploring the natural and made landscape stages the ritual directors including their progression from shaman to priesthood and meaning of the rites They also provide comments on the end or failure of rites and cults from Paleoindian into post DeSoto years Chapters examine the archaeological records of Cahokia the lower Ohio Valley Aztalan Wisconsin Vermont Florida and Georgia and others scan the Eastern US investigating tobacco datura color symbolism deer symbolism mound stratigraphy flintknapping stone caching cults and their organization and red ochre These authors collectively query the beliefs that can be gleaned from mortuary practices and their variation from mound construction from imagery from the choice of landscape setting While some rituals were short lived others can be shown to span millennia as the ritual specialists modified their interpretations and introduced innovations *A History of Early Modern Women's Writing* Patricia Phillippy, 2018-01-18 A History of Early Modern Women's Writing is essential reading for students and scholars working in the field of early modern British literature and history This collaborative book of twenty two chapters offers an expansive multifaceted narrative of British women's literary and textual production in the period stretching from the English Reformation to the Restoration Chapters work together to trace the contours of a diverse body of early modern women's writing aligning women's texts with the major literary political and cultural currents with which they engage Contributors examine and take account of developments in critical theory feminism and gender studies that have influenced the reception reading and interpretation of early modern women's writing This book explicates and interrogates significant methodological and critical developments in the past four decades guiding and testing scholarship in this period of intense activity in the recovery dissemination and interpretation of women's writing *Perspectives on the Archaeology of Pipes, Tobacco and other Smoke Plants in the Ancient Americas* Elizabeth Anne Bollwerk, Shannon Tushingham, 2015-12-20 This volume presents the most recent archaeological historical and ethnographic research that challenges simplistic perceptions of Native smoking and explores a wide variety of questions regarding smoking plants and pipe forms from throughout North America and parts of South America By broadening research questions utilizing new analytical methods and applying interdisciplinary interpretative frameworks this volume offers new insights into a diverse array of perspectives on smoke plants and pipes **Believers: Faith in Human Nature** Melvin Konner, 2019-09-10 An anthropologist examines the nature of religiosity and how it shapes and benefits humankind Believers is a scientist's answer to attacks on faith by some well meaning scientists and philosophers It is a firm rebuke of the Four Horsemen Richard Dawkins Daniel Dennett Sam Harris and Christopher Hitchens known for writing about religion as something irrational and ultimately harmful Anthropologist

Melvin Konner who was raised as an Orthodox Jew but has lived his adult life without such faith explores the psychology development brain science evolution and even genetics of the varied religious impulses we experience as a species Conceding that faith is not for everyone he views religious people with a sympathetic eye his own upbringing his apprenticeship in the trance dance religion of the African Bushmen and his friends and explorations in Christian Buddhist Hindu Muslim and other faiths have all shaped his perspective Faith has always manifested itself in different ways some revelatory and comforting some kind and good some ecumenical and cosmopolitan some bigoted coercive and violent But the future Konner argues will both produce more nonbelievers and incline the religious among us holding their own by having larger families to increasingly reject prejudice and aggression A colorful weave of personal stories of religious and irreligious encounters as well as new scientific research Believers shows us that religion does much good as well as undoubted harm and that for at least a large minority of humanity the belief in things unseen neither can nor should go away
