Psycho-social Explorations of Trauma, Exclusion and Violence Christopher Scanlon, John Adlam, 2022-01-06 The central theme of this book is the operation of intersecting discourses of power privilege and positioning as they are revealed in fraught encounters between in groups and out groups in our deeply fractured world The authors offer a unique perspective on inter group dynamics and structural violence at local societal cultural and global levels dissecting processes of toxic othering and psychosocial re traumatisation The book offers the Diogenes Paradigm as a unique conceptual tool with which to analyse the ways in which those of us who come to be located outside or on the margins of dominant social structures are in one way or another the inheritors of the legacies of centuries of oppression and exclusion This analysis offers a distinctive psycho social redefinition of trauma that foregrounds the relationship between the inhospitable environments we generate and the experiences of unhousedness that we thereby perpetuate Written in an engaging and accessible style *Psycho social Explorations of Trauma Exclusion and Violence* directly addresses pressing

global issues of racial trauma human mobility and climate disaster and offers a manifesto for the creative re imagining of the places and spaces in which conversations about restructuring and reparation can become sustainable This is an essential and compelling book for anyone committed to social justice especially for all practitioners working in health social care and community justice settings and researchers and academics across the behavioural and social sciences Social Work Practice and End-of-Life Care Heather Richardson, Gillian Chowns, 2019-07-09 This book draws together the learning of a wide range of social workers and other professionals engaged in end of life care who recognise that dying is essentially a social experience and want to tailor a personal professional and societal response accordingly Through a systemic lens the book explores the nature and experience of living and dying in the UK today then considers ways in which social workers and others may want to work with people who are affected by a diagnosis of a life threatening condition The contributors offer rich and contemporary perspectives on death dying and loss reflective of their different approaches and interests The insights of the book are timely given the growing levels and changing nature of needs for people who are coming to the end of their life in the UK and beyond and the related requirements for compassionate personalised and holistic care within the increasingly professionalised arena of health and social care This book will be of interest to social work practitioners students and others committed to psychosocial support of people who are dying or bereaved and who want to consider how to provide this support most effectively Professionals who are interested in working alongside social workers to deliver high quality end of life care will also find this publication useful This book was originally published as a special issue of the Journal of Social Work Practice **Towards a Socioanalysis of Money, Finance and Capitalism** Susan Long, Burkard Sievers, 2013-06-17 The current global financial crisis has raised awareness of the impact the world of finance has on the economy and the future of democracy Following the crisis this book aims at a deep understanding of the human psycho social dynamics beneath the surface of the financial industry its markets and institutions It seeks to understand why the seemingly rational world of economic behavior with its calculated models and predictions at times goes horribly wrong This book uses the discipline of socio analysis to explore the meaning of money markets and the broad financial world that so strongly affects our daily lives Socio analysis contributes to an awareness and understanding of underlying unconscious desires fantasies and illusions that bring about the irrational inflation of faith and trust in the world of money finance and capital ism The insight that the financial crisis was essentially psychological in origin Robert Shiller and that the world of finance is broadly shaped if not determined by irrational often unconscious factors is not yet broadly shared This book appears to be one of the first if not the first contribution that explicitly focuses on what is beneath the surface of money finance and capital It invites the reader to explore the financial world in depth The aim of this book is to provide businesses organizational consultants students researchers and interested persons more broadly with a detailed exploration of the psycho social dynamics of the financial industry as it exists currently within the capitalist system The contributors to this book come from
