Annuaire de l'economie politique et de la statistique ,1849 **The Wine Revolution in France** Leo A.

Loubère,2014-07-14 During the past eight decades French vineyards wineries and wine marketing efforts have undergone such profound changes from technological scientific economic and commercial standpoints that the transformation is revolutionary for an industry dating back thousands of years Here Leo Loubre examines how the modernization of Western society has brought about new conditions in well established markets making the introduction of novel techniques and processes a matter of survival for winegrowers Not only does Loubre explain how altered environmental conditions have enabled pioneering enologists to create styles of wine more suited to contemporary tastes and living arrangements but he also discusses the social impact of the wine revolution on the employees in the industry The third generation of this new viticultural regime has encountered working and living conditions drastically different from those of its predecessors while witnessing the near disappearance of the working class and the decline of small and medium growers of ordinary wines Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Contemporary France** Jill Forbes,Nicholas LAST

Bakhtin Between East and West Karine Zbinden, 2006 Mikhail Bakhtin 1895 1975 has had an enormous influence on literary studies and cultural theory Bakhtin between East and West Cross Cultural Transmission looks beyond the concepts of carnival and dialogue and traces for the first time the transformation of the Bakhtin Circle's thought from its introduction to the West in Julia Kristeva's seminal late 1960s theory of intertextuality through Tzvetan Todorov's landmark study and on to contemporary interpretations The notion of sociality in all its problematic complexity provides the red thread guiding us through this historical and thematic examination of Western and Russian Bakhtin studies As a critical evaluation of Bakhtin scholarship across various cultures and a celebration of the vigour of the Circle's legacy this is an invaluable resource for scholars and students with an interest in Bakhtin and critical theory **France, Germany, and the New Europe, 1945-1963** Frank Roy Willis, 1965 *Japan and the European Periphery* James Darby, 2016-07-27 The book describes Japanese economic links with peripheral regions in Europe Focusing particularly on manufacturing investment the impact of Japanese firms is assessed against a background of increasing European economic integration The uneven distribution of Japan's economic presence in Europe is emphasised as is the importance of core economic regions for future investment activity The growing importance of core regions is then linked to emerging patterns in the growth of science based industries as well as efforts by national and regional agencies to attract inward investment *The Nature of Space* Milton

Santos,2021-07-21 In *The Nature of Space* pioneering Afro Brazilian geographer Milton Santos attends to globalization writ large and how local and global orders intersect in the construction of space Santos offers a theory of human space based on relationships between time and ontology He argues that when geographers consider the inseparability of time and space they can then transcend fragmented realities and partial truths without trying to theorize their way around them Based on these premises Santos examines the role of space which he defines as indissoluble systems of objects and systems of actions in social processes while providing a geographic contribution to the production of a critical social theory **Illicit Antiquities**

Neil Brodie,Kathryn Walker Tubb,2003-08-27 The exploitation of archaeological sites for commercial gain is a serious problem worldwide In peace and during wartime archaeological sites and cultural institutions both on land and underwater are attacked and their contents robbed for sale on an international antiquities market Objects are excavated without record smuggled across borders and sold for exorbitant prices in the salesrooms of Europe and North America In some countries this looting has now reached such a scale as to threaten the very survival of their archaeological and cultural heritage This volume highlights the deleterious effects of the trade on cultural heritage but in particular it focuses upon questions of legal and local responses How can people become involved in the preservation of their past and what in economic terms are the costs and benefits Are international conventions or export restrictions effective in diminishing the volume of the trade and the scale of its associated destruction **French Industrial Relations in the New World Economy** Nick

Parsons,2007-05-07 Examining the traditionally predominant role of the state in shaping employment patterns and social policy in France *French Industrial Relations in the New World Economy* analyzes the impact of globalization on French industrial relations Looking at the changing economic context of industrial relations this important text places particular emphasis on the notion of a shift from a national Fordist form of employment regulation to an international post Fordist form examining in detail the impact of this shift on the role of the French state and on the balance of power between employer and trade union organizations Including chapters on employer organizations collective bargaining the role of the state and workplace representation *French Industrial Relations in the New World Economy* explores this fascinating topic in detail and provides a detailed resource for postgraduates studying trade unions industrial and employee relations and industrial studies in general *Historical Dictionary of Djibouti* Daoud Aboubaker Alwan,Yohanis Mibrathu,2000 Established as a country a

little more than a century ago born as an independent republic in June 1977 Djibouti is among the youngest as well as the smallest states in Africa Yet its strategic location at the crossroads of the maritime trade routes between Africa Asia and Europe turned this tiny spot on the world map into a vital player in twentieth century geopolitics This historical dictionary has been conceived not as a history book but as a reading grid for the major historical items that are still molding the country's social political and economic life *From Fascism to Libertarian Communism* Allen Douglas,2023-04-28 Georges Valois is the enigma who stands at the center of French fascism Writer publisher economic and political organizer Valois went from

adolescent anarchism to fascism and finally to libertarian socialism His career has mystified scholars as it did his contemporaries From *Fascism to Libertarian Communism* is the first study of Valois to take his entire life and work as its focus explaining how certain basic assumptions and patterns of thought took form in strikingly different ideological options Douglas's work based on a thorough examination of sources from police archives to personal papers and interviews provides a convincing explanation of this quixotic figure a man who founded French fascism only to turn to the radical left and eventually die as a resister in Bergen Belsen At a time when radical socialism is in decline and neofascist movements are gaining renewed support in France and elsewhere this original interpretation of Georges Valois's life and thought could not be more timely This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 Georges Valois is the enigma who stands at the center of French fascism Writer publisher economic and political organizer Valois went from adolescent anarchism to fascism and finally to libertarian socialism His career has mystified scholars as it did L'Economie belge en ... ,1991 **Finances publiques et performance des entreprises** International Institute of Public Finance. Congress,1989 The topic of the 43rd Congress of the International Institute of Public Finance was Public Finance and the Performance of Enterprises The title reflected profound changes in the thinking and approaches of economists traced back to economic developments such as the worldwide slowing down of economic growth dwindling of productivity increases growing unemployment and rampant increase in public debt experienced during the 1970s and 80s The Congress was not primarily concerned therefore with the economic efficiency of particular enterprises but with the interface of Public Finance and the behavior of enterprises The intent was to detect how fiscal policy decisions effect the behavior of enterprises and how this in turn influences the overall performance of an economy to seek microeconomic foundations for macroeconomic relationships This volume presents the proceedings of the 43rd Congress with papers from numerous international contributors
