Vertical Mind:

Vertical Mind Don McGrath, Jeff Elison, 2014-04-05 In *Vertical Mind* Don McGrath and Jeff Elison teach rock climbers how to improve their mental game so they can climb better and have more fun They teach how the latest research in brain science and psychology can help you retrain your mind and body for higher levels of rock climbing performance while also demonstrating how to train and overcome fears and anxiety that hold you back Finally they teach climbing partners how to engage in co creative coaching and help each other improve as climbers With numerous and practical step by step drills and exercises in a simple to follow training framework your path to harder climbing has never been clearer If you are a climber who wants to climb harder and have more fun climbing then *Vertical Mind* is required reading Well what s stopping you Pick it up and get training today

Shamanic Secrets for Spiritual Mastery Robert Shapiro, 2006 Shamanism **Absolute Tao** Osho, 2012-03-13 Moving beyond the usual interpretations of this classic Chinese text that of using it as an indicator of what to do next or attempting to predict the future Osho is using the *Tao Te Ching* as Lao Tzu intended to ignite the flame of individual awareness and insight His commentaries on these seven verses burn through every idea we may hold about ourselves until we can see with the same crystal clear light as Lao Tzu

Adult Development Michael L. Commons, Cheryl Armon, Lawrence Kohlberg, Francis A. Richards, Tina A. Grotzer, Jan D. Sinnott, 1990-05-23 In recent years researchers have begun to focus attention on postformal thought the development of thought in late adolescence and adulthood questioning Piaget s early terminus of structural development in adolescence This volume brings together the works of distinguished authors in the field of postformal operational cognitive social and perceptual development to examine the models and methodology used to investigate postformal thought The contributors represent the variety of approaches that characterize this body of research while at the same time seeking to unify this diverse literature with a common language An ideal text for advanced courses in adult development this volume is also a primary reference for developmental and educational psychologists and students working in the fields of cognitive development adolescent and adult development and lifespan development Divided into four parts the volume begins by examining both Piagetian and nonstructural models of adult cognitive development considering them in light of current research developments Individual papers address models of equilibrium knowledge reflective judgment ego development and consciousness In Part II the contributors discuss the measurement and comparison of cognitive development in adults exploring such topics as construct validity and theories of adult development the structural and developmental relations between formal and postformal capacities and the relationship between Piagetian and Kohlbergian stages The third section assesses the research and theory of adult reasoning in the moral domain while the concluding chapter investigates critical evaluations of postformal research Numerous tables and figures enhance the discussions

Understanding and Teaching the Intuitive Mind Bruce Torff, Robert J. Sternberg, 2001-01-01 The intuitive mind is a powerful force in the classroom and often an undetected one Intuitive conceptions knowledge or

knowledge structures that individuals acquire and use largely without conscious reflection or explicit instruction sometimes work to facilitate learning in the classroom and other contexts But learning may also be impeded by intuitive conceptions and they can be difficult to dislodge as needed The literatures in psychology and education include a large and diverse body of theory and research on intuitive conceptions but this work is limited in some respects This volume contributes in four ways to overcome these limitations Understanding and Teaching the Intuitive Mind Student and Teacher Learning pulls together diverse theoretical and methodological approaches to the origin structure function and development of intuitive conceptions explores a diversity of academic disciplines paying equal attention not only to mathematics and science the fields in which intuitive concepts have been studied most extensively but also to the social sciences arts and humanities explicitly links theory and research to educational implications and classroom applications and focuses not only on students intuitive conceptions but also on teachers intuitive beliefs about learning and teaching Although the viewpoints of the contributors are diverse they share the belief that educational practices have much to gain by systematic studies of the intuitive learner and teacher This volume offers state of the art research based information and support for psychologists teacher educators educational administrators teachers prospective teachers and others who seek to develop educational practices that are cognizant of and responsive to the intuitive conceptions of students and teachers

Our Human Herds Stephen Martin Fritz, 2020-09-04 *Our Human Herds* presents a new theory in moral and political philosophy called dual morality The theory proposes that just as the physical senses of sight smell taste touch and hearing evolved to help us navigate our physical environment two independent moral senses evolved to guide us to success in our social world One prioritizes cooperation the other competition The first bases moral justification on the egalitarianism that emphasizes our equal worth the other finds moral justification in the inequalities that allow us to distinguish better from worse Liberal and conservative are merely the names given to the political manifestations of these two forms of moral expression just as socialist and capitalist describe their economic manifestations and personality and character their psychological ones *Our Human Herds* addresses what it means to be a human being why we fight about the things that divide us and why we unite behind the ideas that draw us together The book examines all aspects of human social behavior revealing how and why we often disagree in our approaches to education history war crime pleasure happiness politics science and religion This is a learned thoroughly researched study and dazzlingly bright The effervescent approach to writing makes its pages fly by Studies as brilliant as this one deserve a far wider audience An engrossing and mind expanding examination of morality Kirkus Reviews Book Review A vast philosophical study charts the shifting moral landscape while tackling the weightiest question of human existence what is the meaning of life Humanity's moral framework remains in a constant state of reconstruction As the author points out in his opening chapter Two hundred years ago if a woman was raped and became pregnant we'd kill the rapist and spare the baby Today we spare rapist and kill the baby Centuries ago many cultures condoned polygamy today we put people in jail for it Over the

course of this weighty tome which is just shy of 1 000 pages the author ponders what morality is with an emphasis on humans as grouping or herding creatures and the causes of its flux and reflux Furthermore there is an attempt to reconcile opposing philosophical theories by introducing a new conceptual model called Dual Morality proposed as an all encompassing blueprint of human morality The study is logically structured divided into four sections The Theory of Dual Moralism The Explanation including investigations of the group and the self The Derivations which considers family country religion and science nature technology and finally The Extrapolations a far reaching look at everything from pleasure and happiness to suicide murder and abortion The author possesses the rare skill of being able to explore himself with an enviable ease drawing on palatable references to popular culture For example Comedian Woody Allen said he laughs at his own jokes when they first come to him because humor originates in the unconscious When his conscious mind hears them for the first time it is as if they came from another place and so we are in a way an audience to our own humor This approach applied throughout makes complex ideas not only accessible but entertaining and enjoyable as well The result is far from the predictable dry academic thesis This is a learned thoroughly researched study and dazzlingly bright The effervescent approach to writing makes its 951 pages fly by Fritz s dedication is to that miniscule fragment of humanity who read books like this Studies as brilliant as this one deserve a far wider audience An engrossing and mind expanding examination of morality Kirkus Indie Kirkus Media LLC 6411 Burleson Rd Austin TX 78744 indie kirkusreviews *Shamanic Secrets for Physical Mastery* Robert Shapiro,2004-06-01 Learn to heal the planet and the planet will heal you The purpose of this book is to allow you to understand the sacred nature of your own physical body and some of the magnificent gifts it offers you When you work with your physical body in these new ways you will discover not only its sacredness but how it is compatible with Mother Earth the animals the plants and even the nearby planets all of which you now recognize as being sacred in nature It is important to feel the value of yourself physically before you can have a lasting impact on the world The less you think of yourself physically the less likely your physical impact on the world will be sustained by Mother Earth If a physical energy does not feel good about itself it will usually be resolved other physical or spiritual energies will dissolve it because it is unnatural The better you feel about your physical self when you do the work in the previous book *Shamanic Secrets for Material Mastery* A as well as in this one and the one to follow the greater and more lasting the benevolent effect on your life will be on the lives of those around you and ultimately on your planet and universe Clearing techniques and other topics are included [A Way to Freedom](#) Simon Linton Sancto,2018-12-07 This is a book that has all the wisdom needed to set you free It combines all world religions together and from it a truth is revealed that sets a person free All of us wish to experience total freedom As Jesus said nothing but the truth can set you free It is a guidebook to not only find God but also to become one with him and experience peace love and true happiness [Ask the Awakened](#) Wei Wu Wei,2025-09-12 Between the years 1958 and 1974 a series of books appeared that were attributed to the mysterious Wei Wu Wei Perhaps the most

important of these works Ask The Awakened is now available in a new edition This work draws on a variety of sources including Taoism specifically the texts attributed to Lao Tzu and Chuang Tzu Buddhism especially the Heart Diamond and Lankavatara sutras and Chan Buddhism as taught by Hui Neng Huang Po Hui Hai etc as well as the teachings of Padmasambhava and Sri Ramana Maharshi among others Wei Wu Wei joins Paul Reps Alan Watts and Philip Kapleau as one of the earliest and most profound interpreters of Zen Buddhism and Taoist philosophies The depth of understanding evidenced in Ask the Awakened places it in the top tier of modern spiritual classics This classic gem of Eastern spirituality is especially timely in the current climate of interest in Buddhism Wei Wu Wei s unique and fresh interpretation of the ancient teachings opens the reader s eyes Why are you unhappy Because 99.9 per cent of everything you think and of everything you do is for yourself and there isn t one This powerful book rewards by exposing illusions and takes the reader beyond logic to the inexpressible truth of existence

Spirit Means Business Alan Cohen, 2019-02-19 Beloved author and teacher Alan Cohen A Course in Miracles Made Easy uses his insightful spin on spiritual wisdom to show that we can enjoy significant career and financial success and be true to our passion and soul s calling Can you create material success and keep your spirit alive Is it possible to combine prosperity with purpose and passion Can you sell your product without losing your soul Expert coach and beloved teacher Alan Cohen demonstrates the answer is yes In Spirit Means Business he identifies and then dismantles the 10 primary illusions that keep us from connecting spirituality and prosperity To name a few If you want to succeed you have to suffer first There s only so much to go around Competition is healthy and necessary To do well in your work you must give up your life In each case Alan shows us how to replace the illusion with a higher truth using principles that always work when we apply them consciously You ll learn from down to earth examples of individuals who have combined soul and success and you ll find crisp clear formulas to bridge the gaps and surmount the hurdles along the way Drawing on wisdom sources from the Tao Te Ching to A Course in Miracles as well as stories from Alan s clients and his own life this book will help you navigate a spiritually sound path to the success you desire
