Verzameld Werk Iv Critische Proza:

Avant-Garde and Criticism ,2015-06-29 Avant Garde and Criticism sheds new light on the complex aims functions practices and contexts of art criticism in relation to the European avant garde Although many avant garde works and the avant gardes of various countries have been analyzed considerably less attention has been given to the reviews in newspapers and journals on avant garde literature art architecture and film This volume of Avant Garde Critical Studies will look at how art critics operated in a strategic way The strategies of avant garde criticism are diverse Art critics especially when they are artists themselves attempt to manipulate the cultural climate in their favour They use their position to legitimize avant garde concepts and to conquer a place in the cultural field But they are also markedly influenced by the context in which they operate The position of fellow critics and the ideological bias of the papers in which they publish can be as important as the political climate in which their criticism flourishes The analysis of avant garde art criticism can also make clear how strategies sometimes fail and involuntarily display non avant garde characteristics On the other hand traditionalist criticism on the avant garde offers new insights into its status and reception in a given time and place This volume is of interest for scholars teachers and students who are interested in the avant garde of the interbellum period and work in the field of literature art film and architecture **Contemporary Explorations in the Culture of the Low Countries** William Z. Shetter,1996 An all inclusive study of Netherlandic culture Neue Sachlichkeit and Avant-Garde Ralf Grüttemeier,Klaus Beekman,Ben Rebel,2013 One of the aims of the book is to shed more light on the notion Neue Sachlichkeit in its appearance in a variety of fields as painting architecture music photography and literature in order to get a clearer idea of its scope Several contributions will do so by analysing the heterogeneity in the use of the term concerning its function in the fight for recognition in the art fields around 1930 in other words Neue Sachlichkeit will be analysed as a positioning strategy Especially its participation in the broader discourse on modernity as well as its international and intermedial dimension will be highlighted often using the historical avant garde as point of reference From this perspective the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant garde and Neue Sachlichkeit *Ontmoetingen* ,1963 **Nieuwe Zakelijkheid** Jaap Goedegebuure,2024-06-11 Tussen 1923 en 1935 tekent zich in de beeldende kunst en de literatuur een stroming af die Nieuwe Zakelijkheid wordt genoemd De schilders en schrijvers die men onder deze noemer samenbrengt zijn uit op een zo getrouw en objectief mogelijke weergave van de eigentijdse werkelijkheid Ze putten hun stof bij voorkeur uit de wereld van de techniek industrie sport en de moderne massamedia en streven in hun vormgeving naar effici ntie en doelmatigheid In dit boek wordt ingegaan op vragen als Was de Nieuwe Zakelijkheid wel zo zakelijk objectief en realistisch Hoe staat het met het engagement en de metafysica van deze stroming Het zwaartepunt van deze monografie ligt bij de Nederlandse literatuur van het interbellum Naast literaire aspecten komen ook de internationale sociale en politieke context en de raakvlakken met film beeldende kunst architectuur
