Mathematical Literacy M. P. North, 2010 *Antony and Cleopatra* Yashdip S. Bains, 2013-07-04 This volume is a comprehensive overview of scholarship on this play It includes chapters on criticism sources and background textual studies bibliographies editions and translations Also covered are the stage history and major productions of the play and films music television and adaptations and synopses Rabadia Ratshatsha Mawatle Jeremiah Mojalefa, 2007-11-01 After forty years in academia P S Groenwald leaves a rich heritage which is measured not only in terms of his impressive list of publications but also in terms of those for whom he was the academic mentor His versatility as academic is reflected in the variety of specialist fields in which his former students find themselves Experts in literature and linguistics lexicographers and translators all found their niches under his tutelage In appreciation of the enormous contribution that he made towards their careers and academic schooling former students and colleagues have decided to honour him with this festschrift A Guide for the Study of British Caribbean History, 1763-1834 Lowell Joseph Ragatz, 1932 **African-Language Literatures** Innocentia Jabulisile Mhlambi, 2012-06-01 African language writing is in crisis The conditions under which African writing developed in the past only remotely similar to those of Western models resulted in an inability of Eurocentric literary models to explore the hermeneutic world of African language poetics inherited from the oral and the modern worlds Existing modes of criticism in the study of this literary tradition are often unsuited for a nuanced understanding of the intrinsic and extrinsic aspects at play in the composition production and reading of these literatures In African Language Literatures Innocentia Jabulisile Mhlambi charts new directions in the study of African language literatures generally and isiZulu fiction in particular by proposing that African popular arts and culture models be considered as a logical solution to current debates and challenges Mhlambi shows how the popular arts and culture approach brings into relationship the oral and written forms the local and the international and elitist and popular genres and locates and places the resultant emerging eclectic culture into its socio historical context She uses this theoretical approach to explore in a wide range of cultural products what matters or what is of interest to the people irrespective of social hierarchies and predispositions It is her contention that in profound ways the African language literary tradition evinces diversity complexity and fluidity and that this should be seen as an invitation to look at systems of meaning which do not hide their connections with the facts of power and material life
