between the medieval and the modern Spain's colonial adventures began inauspiciously Columbus's meagerly funded expedition cost less than a Spanish princess's recent wedding. In spite of its small scale it was a mission of astounding scope to claim for Spain all the wealth of the Indies. The gold alone thought Columbus would fund a grand Crusade to reunite Christendom with its holy city Jerusalem. The lofty aspirations of the first explorers died hard as the pursuit of wealth and glory competed with the pursuit of pious impulses. The adventurers from Spain were also of course curious about geographical mysteries and they had a remarkable loyalty to their country. But rather than bridging earth and heaven Spain's many conquests bore a bitter fruit. In their search for gold Spaniards enslaved Indians from the Bahamas and the South American mainland. The eloquent protests of Bartolom de las Casas here much discussed began almost immediately. Columbus and other Spanish explorers Cort's Ponce de Le'n and Magellan among them created an empire for Spain of unsurpassed size and scope. But the door was soon open for other powers enemies of Spain to stake their claims. Great men and women dominate these pages cardinals and bishops priors and sailors landowners and warriors princes and priests noblemen and their determined wives. *Rivers of Gold* is a great story brilliantly told. More significant it is an engrossing history with many profound often disturbing echoes in the present. *Old Spain and New Spain* David Henn, 2004. This is the first book length study of the six travel narratives published by the 1989 winner of the Nobel Prize for Literature's Preliminary chapters focus on technical and thematic aspects of travel writing and on the author's approach to the genre. Cela's travel works which appeared between 1948 and 1986 are examined in turn with a focus on the construction of the narratives and also on the themes that are developed in each of them. There is an assessment of the author's treatment of topographical cultural historical and social material in his accounts of the journeys he made through various areas and regions of Spain as well as a consideration of the way in which these narratives reflect changes taking place in Spain during the Franco regime and in the decade following the dictator's death. David Henn teaches modern Spanish fiction drama and travel literature at University College London. **Verdi y España** VICTOR SANCHEZ SANCHEZ, 2014-10-01 *América* Robert Goodwin, 2019-03-05. An epic history of the Spanish empire in North America from 1493 to 1898 by Robert Goodwin author of *Spain The Centre of the World*. At the conclusion of the American Revolution half the modern United States was part of the vast Spanish Empire. The year after Columbus's great voyage of discovery in 1492 he claimed Puerto Rico and the Virgin Islands for Spain. For the next three hundred years thousands of proud Spanish conquistadors and their largely forgotten Mexican allies went in search of glory and riches from Florida to California. Many died few triumphed. Some were cruel some were curious some were kind. Missionaries and priests yearned to harvest Indian souls for God through baptism and Christian teaching. Theirs was a frontier world which Spain struggled to control in the face of Indian resistance and competition from France Britain and finally the United States. In the 1800s Spain lost it all. Goodwin tells this history through the lives of the people who made it happen and the literature and art with which they celebrated their successes and

mourned their failures He weaves an epic tapestry from these intimate biographies of explorers and conquerors like Columbus and Coronado but also lesser known characters like the powerful G lvez family who gave invaluable and largely forgotten support to the American Patriots during the Revolutionary War the great Pueblo leader Popay and Esteban the first documented African American Like characters in a great play or a novel Goodwin s protagonists walk the stage of history with heroism and brio and much tragedy The Mirror of Spain, 1500-1700 J. N. Hillgarth,2000 Spanish national character imposed and exposed Catalog of Copyright Entries. Third Series Library of Congress.
