Folkertsma, Bruce G. Siminoff, 1996 **A Climate of Crisis** Patrick Allitt, 2014-03-20 A provocative history of the environmental movement in America showing how this rise to political and social prominence produced a culture of alarmism that has often distorted the facts Few issues today excite more passion or alarm than the specter of climate change In A Climate of Crisis historian Patrick Allitt shows that our present climate of crisis is far from exceptional Indeed the environmental debates of the last half century are defined by exaggeration and fearmongering from all sides often at the expense of the facts In a real sense Allitt shows us collective anxiety about widespread environmental danger began with the atomic bomb As postwar suburbanization transformed the American landscape more research and better tools for measurement began to reveal the consequences of economic success A climate of anxiety became a climate of alarm often at odds with reality The sixties generation transformed environmentalism from a set of special interests into a mass movement By the first Earth Day in 1970 journalists and politicians alike were urging major initiatives to remedy environmental harm In fact the work of the new Environmental Protection Agency and a series of clean air and water acts from a responsive Congress inaugurated a largely successful cleanup Political polarization around environmental questions after 1980 had consequences that we still feel today Since then the general polarization of American politics has mirrored that of environmental politics as pro environmentalists and their critics attribute to one another the worst possible motives Environmentalists see their critics as greedy special interest groups that show no conscience as they plunder the earth while skeptics see their adversaries as enemies of economic growth whose plans stifle initiative under an avalanche of bureaucratic regulation There may be a germ of truth in both views but more than a germ of falsehood too America s worst environmental problems have proven to be manageable the regulations and cleanups of the last sixty years have often worked and science and technology have continued to improve industrial efficiency Our present situation is serious argues Allitt but it is far from hopeless Sweeping and provocative A Climate of Crisis challenges our basic assumptions about the environment no matter where we fall along the spectrum reminding us that the answers to our most pressing questions are sometimes found in understanding the past **The**

Thirteenth Commandment Bruce Marvin, 2004 Congressman Robin Andrews faces stark choices to save the world or to allow the obliteration of the human race He discovers a Russian village totally wiped out by a disease of unknown origins America also faces the destruction of a small town outside of Pittsburgh the cause also unknown Can the mindless genocide perpetrated by some unidentified agent be halted before the whole world perishes Albert Kasdan a brilliant scientist and twin brother of world famous chess grand master Anton Pomerov befriends Robin and shares his knowledge about a plague more deadly than any that had previously ravaged the world Those with the Mark of Barabbas have a natural immunity to this plague a divine judgment on the world for its sins Only the rediscovery of a sacred water supply somewhere in the Holy Land can save the rest of the world Jan Lipski a young doctor and concentration camp inmate at Auschwitz has been forced to work with Hans Hoffmann an evil Nazi doctor involved in inhuman medical experiments During the last days of the war Lipski helps a group of twin boys to escape certain death Lipski also escapes with a sacred copy of The Thirteen Commandments Hoffmann eludes capture on the last German U boat Andrews studies the Bible code and reads The Thirteen Commandments trying to make sense of the plague that has now reached Pennsylvania No one can explain what happened While searching Kasdan's computer Andrews at last receives what he believes to be a divine message He travels to the Masada in Israel where he discovers the healing waters *Victim* Bruce G. Siminoff, 1993 Summary discusses hazardous waste sites including Superfund sites in New Jersey and the penalties assessed in accordance with the New Jersey Environmental Clean Up Responsibility Act of 1983 Environmental Crime and its Victims Dr Marieke Kluin, 2014-09-28 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity These types of crime however do not always produce an immediate consequence and the harm may be diffused As such the complexity of victimization in terms of time space impact and who or what is victimized is one of the reasons why governments and the enforcement community have trouble in finding suitable and effective responses This book provides a diverse and provocative array of arguments critiques and recommendations from leading researchers and scholars in the field of green criminology The chapters are divided into three main sections the first part deals with specific characteristics of some of the major types of environmental crime and its perpetrators the second focuses explicitly on the problem of victimization in cases of environmental crime and the third addresses the question of how to tackle this problem Discussing these topics from the point of view of green criminological theory sociology law enforcement community wellbeing environmental activism and victimology this book will be of great interest to all those concerned about crime and the environment Derelict Properties Craig E. Colten, 1995 The Price of Silence Pasquale De Marco, 2025-04-13 The Price of Silence unveils a tapestry of interconnected lives where the echoes of the past reverberate through the corridors of time shaping destinies and challenging the very foundations of existence In this profound and introspective journey readers will find solace inspiration and a renewed appreciation for the power of human connection Step into a realm where whispers carry the weight of untold

stories where the unspoken words hold the power to heal or to wound The Price of Silence delves into the complexities of human relationships laying bare the vulnerabilities the yearnings and the resilience of the human spirit It challenges preconceived notions provokes thoughtful contemplation and ultimately whispers a profound truth that in the face of silence it is the courage to speak to listen and to understand that truly liberates the soul Through a kaleidoscope of poignant tales The Price of Silence explores the transformative power of forgiveness the journey of self discovery and the impact of our actions on the world around us It invites readers to reflect on the choices they make the consequences that ripple through time and the enduring legacy they leave behind With each turn of the page The Price of Silence weaves a tapestry of emotions igniting sparks of recognition and empathy within the reader s heart It is not merely a book it is an experience that will linger long after the final page is turned leaving an indelible mark on the reader s heart and mind In The Price of Silence readers will embark on a profound exploration of the human condition uncovering the hidden truths that shape our lives and the resilience of the human spirit in the face of adversity It is a journey that will resonate with readers long after they finish the last page If you like this book write a review on google books

Framing the Rape Victim Carine M. Mardorossian, 2014-05-13 In recent years members of legal law enforcement media and academic circles have portrayed rape as a special kind of crime distinct from other forms of violence In Framing the Rape Victim Carine M Mardorossian argues that this differential treatment of rape has exacerbated the ghettoizing of

sexual violence along gendered lines and has repeatedly led to women s being accused of triggering if not causing rape through immodest behavior comportment passivity or weakness Contesting the notion that rape is the result of deviant behaviors of victims or perpetrators Mardorossian argues that rape saturates our culture and defines masculinity s relation to femininity both of which are structural positions rather than biologically derived ones Using diverse examples throughout Mardorossian draws from Hollywood film and popular culture to contemporary women s fiction and hospitalized birth emphasizing that the position of dominant masculinity can be occupied by men women or institutions while structural femininity is a position that may define and subordinate men minorities and other marginalized groups just as effectively as it does women Highlighting the legacies of the politically correct debates of the 1990s and the terrorist attacks of 9 11 the book illustrates how the framing of the term victim has played a fundamental role in constructing notions of agency that valorize autonomy and support exclusionary especially masculine models of American selfhood The gendering of rape including by well meaning sometimes feminist voices that claim to have victims best interests at heart ultimately obscures its true role in our culture Both a critical analysis and a call to action Framing the Rape Victim shows that rape is not a special interest issue that pertains just to women but a pervasive one that affects our society as a whole
