preconceptions about modern urban life Many artists and writers produced work that questioned and undermined oppositions between city and country interior spaces and panoramic views masculinity and femininity Issues of gender and the representation of the body were particularly important in establishing professional identities for some of Vienna's most prominent figures including the Secessionist painters Gustav Klimt and Carl Moll designers such as Adolf Loos and Emilie Flöge as well as the poet and feuilletonist Peter Altenberg Intellectual life in turn of the century Vienna has often been characterised as a retreat from the public sphere This book demonstrates how even in its ostensibly most private manifestations Viennese Modernism involved a highly performative set of practices aimed at an international audience
