Uninvited Neighbors Herbert G. Ruffin, 2014-03-28 In the late 1960s African American protests and Black Power demonstrations in California's Santa Clara County including what's now called Silicon Valley took many observers by surprise. After all, as far back as the 1890s the California constitution had legally abolished most forms of racial discrimination and subsequent legal reform had surely taken care of the rest. White Americans might even have wondered where the black activists in the late sixties were coming from because beginning with the writings of Frederick Jackson Turner the most influential histories of the American West simply left out African Americans or later portrayed them as a passive and insignificant presence. *Uninvited Neighbors* puts black people back into the picture and dispels cherished myths about California's racial history. Reaching from the Spanish era to the valley's emergence as a center of the high tech industry this is the first comprehensive history of the African American experience in the Santa Clara Valley. Author Herbert G. Ruffin II's study presents the black experience in a new way with a focus on how despite their smaller numbers and obscure presence African Americans in the South Bay forged communities that had a regional and national impact disproportionate to their population. As the region industrialized and spawned suburbs during and after World War II its black citizens built institutions such as churches, social clubs, and civil rights organizations and challenged socioeconomic restrictions. Ruffin explores the quest of the area's black people for the postwar American Dream. The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950 which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose. Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate but where the white embrace of racial justice and equality was often insincere. The result offers a new view of the intersection of African American history and the history of the American West.

Science Fiction Book Review Index, 1974-1979 Halbert W. Hall, 1981 *Language and Culture in the Growth of Imperialism* Sharron Gu, 2012-09-18 Political science interpretations of international relations tend to focus on abstract terms of economic interest, domination, rights, and justice. Trapped within this limited horizon the discipline fails to explain why nations of similar economic structure would have variant ideas for their foreign policies and why nations with different economic structures and ideologies could develop a similar global posture during certain periods of their histories. This innovative study examines imperialism from a cultural and linguistic perspective, portraying the rise and fall of ancient Greek, Roman, medieval Islamic, modern British, Russian, and American empires as a part of the natural life of world civilizations. As these imperial cultures matured through centuries of literary accumulation and interaction with other cultures, they finally found their confidence on the world stage and transitioned from an aggressive policy towards others to a more tolerant one.

The Politics of Literature Carl Tighe, 1999 This study of post-war Polish intellectual history analyses the interface between politics and literature under communism. It suggests that it was not the

Catholic Church but the writers of the lay left who were the critics and opponents of Stalinism Lloyd's Register OneOcean's Guide to Port Entry 1977-1978 Nations L-K Lloyd's Register Foundation, 1977-01-01 First published in 1971 these Guides provide invaluable information on thousands of commercial ports and terminals across the globe They are compiled and published annually by LR OneOcean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success The Guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide These are fully indexed and contain detailed port plans and mooring diagrams **Russia in the Age of**

Alexander II, Tolstoy and Dostoevsky Walter G. Moss, 2002-03-01 Russia in the Age of Alexander II Tolstoy and Dostoevsky is both history and story incorporating in its analysis of Alexander II's turbulent reign the lives and ideas of the period's great writers thinkers and revolutionaries who made this the Golden Age of Russian literature and thought In his combination of considerable biographical material with the presentation of the main ideas of the era's chief writers and thinkers Walter G Moss has written a history that is of interest not only to scholars and students of the period but also to more general readers The Publishers' Trade List Annual, 1979 *From Rebellion to Riots* Jamie Seth Davidson, 2008 From Rebellion to Riots is a critical analysis of the roots of contemporary violence in one of Indonesia's most ethnically heterogeneous provinces West Kalimantan Since the late 1960s this province has suffered periodic outbreaks of ethnic violence among its Dayak Malay Madurese and ethnic Chinese populations Citing evidence from his research internal military documents and ethnographic accounts Jamie S Davidson refutes popular explanations for these flare ups The recurrent violence has less to do with a clash of cultures the ills of New Order led development or indigenous marginalization than with the ongoing politicization of ethnic and indigenous identity in the region Looking at key historical moments markedly different in their particulars Davidson reveals the important links between ethnic violence and subnational politics In one case army officers in Soeharto's recently established New Order regime encouraged anti Chinese sentiments To move against communist inspired rebellion they recruited indigenous Dayaks to expunge tens of thousands of ethnic Chinese from interior towns and villages This counter insurgent bloodshed inadvertently initiated a series of clashes between Dayaks and Madurese another migrant community Driven by an indigenous empowerment movement and efforts by local elites to control benefits provided by decentralization and democratization these low intensity riots rose to immense proportions in the late 1990s From Rebellion to Riots demonstrates that the endemic violence in this vast region is not the inevitable outcome of its ethnic diversity and reveals that the initial impetus for collective bloodshed is not necessarily the same as the forces that sustain it A comprehensive case study Essential reading for students of the West Kalimantan violence Dave McRae Indonesia

Asian American Studies Jean Yu-wen Shen Wu, Min Song, 2000 This anthology is the perfect introduction to Asian American studies as it both defines the field across disciplines and illuminates the centrality of the experience of Americans

of South Asian East Asian Southeast Asian and Filipino ancestry to the study of American culture history politics and society The reader is organized into two parts The Documented Past and Social Issues and Literature Within these broad divisions the subjects covered include Chinatown stories nativist reactions exclusionism citizenship immigration community growth Asia American ethnicities racial discourse and the Civil Rights movement transnationalism gender refugees anti Asian American violence legal battles class polarization and many more Among the contributors are such noted scholars as Gary Okihiro Michael Omi Yen Le Espiritu Lisa Lowe and Ronald Takaki writers such as Sui Sin Far Bienvenido Santos Sigrid Nunez and R Zamora Linmark as well as younger emerging scholars in the field **Cumulated Index Medicus** ,1979

Van Nostrand's Eclectic Engineering Magazine ,1886 **Solar Energy Update** ,1981 Selected Studies in Romantic and American Literature, History, and Culture Charles J. Rzepka,2016-04-01 Gathered together for the first time the essays in this volume were selected to give scholars ready access to important late twentieth and early twenty first century contributions to scholarship on the Romantic period and twentieth century literature and culture Included are Charles J Rzepka s award winning essays on Keats s Chapman s Homer sonnet and Wordsworth s Michael and his critical intervention into anachronistic new historicist readings of the circumstances surrounding the composition of Tintern Abbey Other Romantic period essays provide innovative interpretations of De Quincey s relation to theatre and the anti slavery movement Genre is highlighted in Rzepka s exploration of race and region in Charlie Chan while his interdisciplinary essay on The Wizard of Oz and the New Woman takes the reader on a journey that encompasses the Oz of L Frank Baum and Victor Fleming as well as the professional lives of Judy Garland and Liza Minnelli Taken together the essays provide not only a career retrospective of an influential scholar and teacher but also a map of the innovations and controversies that have influenced literary studies from the early 1980s to the present As Peter Manning observes in his foreword this collection shows that even in diverse essays the force of a curious and disciplined mind makes itself felt **Engineering and Design** United States. Army. Corps of Engineers,1995 The Practical Utopians Steven Bernard Leikin,2005 An exploration of the ideological conflicts and practical experiences of late nineteenth century American workers who pursued cooperation as an alternative to competitive capitalism Between 1865 and 1890 in the aftermath of the Civil War virtually every important American labor reform organization advocated cooperation over competitive capitalism and several thousand cooperatives opened for business during this era The men and women who built cooperatives were practical reformers and they established businesses to stabilize their work lives families and communities Yet they were also utopians envisioning a world free from conflict where workers would receive the full value of their labor and freely exercise democratic citizenship in the political and economic realms Their visions of cooperation though were riddled with hierarchical notions of race gender and skill that gave little specific guidance for running a cooperative The Practical Utopians closely examines the experiences of working men and women as they built their cooperatives contested the meanings of cooperation and reconciled the realities

of the marketplace with their various and often conflicting conceptions of democratic participation Steve Leikin provides new theories and examples of the failure and successes of the cooperative movement including how the Gilded Age's most powerful labor organization the Knights of Labor collapsed in the face of the expanding industrial economy Dealing with a critically important yet largely ignored aspect of working class life during the late nineteenth century The Practical Utopians brings crucial aspects of the cooperative movement to light and is a necessary study for all scholars of history labor history and political science

Isaiah Berlin and the Enlightenment Laurence Brockliss, Ritchie Robertson, 2016-10-13 Isaiah Berlin 1909-97 was recognized as Britain's most distinguished historian of ideas Many of his essays discussed thinkers of what this book calls the long Enlightenment from Vico in the eighteenth century to Marx and Mill in the nineteenth with Machiavelli as a precursor Yet he is particularly associated with the concept of the Counter Enlightenment comprising those thinkers Herder Hamann and even Kant who in Berlin's view reacted against the Enlightenment's naive rationalism scientism and progressivism its assumption that human beings were basically homogeneous and could be rendered happy by the remorseless application of scientific reason Berlin's Counter Enlightenment has received critical attention but no one has yet analysed the understanding of the Enlightenment on which it rests *Isaiah Berlin and the Enlightenment* explores the development of Berlin's conception of the Enlightenment noting its curious narrowness its ambivalence and its indebtedness to a specific German intellectual tradition Contributors to the book examine his comments on individual writers showing how they were inflected by his questionable assumptions and arguing that some of the writers he assigned to the Counter Enlightenment have closer affinities to the Enlightenment than he recognized By locating Berlin in the history of Enlightenment studies this book also makes a contribution to defining the historical place of his work and to evaluating his intellectual legacy

Picturing Chinatown Anthony W. Lee, 2001-10-02 Throughout European history Jews have been associated with commerce and the money trade rendered both visible and vulnerable like Shylock by their economic distinctiveness This is the story of Jewish perceptions of this economic difference and its effect on modern Jewish identity

Technologies of Religion Sam Han, 2016-02-05 Bringing together empirical cultural and media studies of religion and critical social theory *Technologies of Religion* Spheres of the sacred in a post secular modernity investigates powerful

entanglement of religion and new media technologies taking place today taking stock of the repercussions of digital technology and culture on various aspects of religious life and contemporary culture more broadly Making the argument that religion and new media technologies come together to create spheres environments produced by an architecture of digital technologies of all sorts from projection screens to social networking sites the book suggests that prior social scientific conceptions of religious worship participation community and membership are being recast Using the case of the strain of American Christianity called multi site an emergent and growing church model that has begun to win favor largely among Protestants in the last decade the book details and examines the way in which this new mode of religiosity bridges the realms of the technological and the physical Lastly the book situates and contextualizes these developments within the larger theoretical concerns regarding the place of religion in contemporary capitalism Technologies of Religion Spheres of the sacred in a post secular modernity offers an important contribution to the study of religion media technology and culture in a post secular world
