VIEW OF MEDIEVAL BHUTAN Samuel Davis, Michael Aris, 1982-05-17 *VIEW OF MEDIEVAL BHUTAN* Samuel Davis, 1982-05-17 Making Sense of Tantric Buddhism Christian K. Wedemeyer, 2014-05-06 Making Sense of Tantric Buddhism fundamentally rethinks the nature of the transgressive theories and practices of the Buddhist Tantric traditions challenging the notion that the Tantras were marginal or primitive and situating them instead both ideologically and institutionally within larger trends in mainstream Buddhist and Indian culture Critically surveying prior scholarship Wedemeyer exposes the fallacies of attributing Tantric transgression to either the passions of lusty monks primitive tribal rites or slavish imitation of Saiva traditions Through comparative analysis of modern historical narratives that depict Tantrism as a degenerate form of Buddhism a primal religious undercurrent or medieval ritualism he likewise demonstrates these to be stock patterns in the European historical imagination Through close analysis of primary sources Wedemeyer reveals the lived world of Tantric Buddhism as largely continuous with the Indian religious mainstream and deploys contemporary methods of semiotic and structural analysis to make sense of its seemingly repellent and immoral injunctions Innovative semiological readings of the influential Guhyasamaja Tantra underscore the text's overriding concern with purity pollution and transcendent insight issues shared by all Indic religions and a large scale quantitative study of Tantric literature shows its radical antinomianism to be a highly managed ritual observance restricted to a sacerdotal elite These insights into Tantric scripture and ritual clarify the continuities between South Asian Tantrism and broader currents in Indian religion illustrating how thoroughly these radical communities were integrated into the intellectual institutional and social structures of South Asian Buddhism Empires of the Imagination Holger Hock, 2010-07-09 Between the mid 18th and mid 19th centuries Britain evolved from a substantial international power yet relative artistic backwater into a global superpower and a leading cultural force in Europe In this original and wide ranging book Hock illuminates the manifold ways in which the culture of power and the power of culture were interwoven in this period of dramatic change Britons invested artistic and imaginative effort to come to terms with the loss of the American colonies to sustain the generation long fight against Revolutionary and Napoleonic France and to assert and legitimate their growing empire in India Demonstrating how Britain fought international culture wars over prize antiquities from the Mediterranean and Near East the book explores how Britons appropriated ancient cultures from the Mediterranean the Near East and India and casts a fresh eye on iconic objects such as the Rosetta Stone and the Parthenon Marbles **Animalia** Antoinette Burton, Renisa Mawani, 2020-10-09 From yaks and vultures to whales and platypuses animals have played central roles in the history of British imperial control The contributors to *Animalia* analyze twenty six animals domestic feral predatory and mythical whose relationship to imperial authorities and settler colonists reveals how the presumed racial supremacy of Europeans underwrote the history of Western imperialism Victorian imperial authorities adventurers and colonists used animals as companions military transportation

Menagerie Caroline Grigson, 2016-01-29 *Menagerie* is the story of the panoply of exotic animals that were brought into Britain from time immemorial until the foundation of the London Zoo a tale replete with the extravagant the eccentric and on occasion the downright bizarre From Henry III s elephant at the Tower to George IV s love affair with Britain s first giraffe and Lady Castlereagh s recalcitrant ostriches Caroline Grigson s tour through the centuries amounts to the first detailed history of exotic animals in Britain On the way we encounter a host of fascinating and outlandish creatures including the first peacocks and popinjays Thomas More s monkey James I s cassowaries in St James s Park and Lord Clive s zebra which refused to mate with a donkey until the donkey was painted with stripes But this is not just the story of the animals themselves It also the story of all those who came into contact with them the people who owned them the merchants who bought and sold them the seamen who carried them to our shores the naturalists who wrote about them the artists who painted them the itinerant showmen who worked with them the collectors who collected them And last but not least it is about all those who simply came to see and wonder at them from kings queens and nobles to ordinary men women and children often impelled by no more than simple curiosity and a craving for novelty

Epistolary Selves Rebecca Earle, 2016-12-05 This volume of ten essays discusses the pivotal role that letters have played in social economic and political history from the seventeenth to the twentieth century The recent scholarly interest in the history of reading has as yet yielded few studies which consider letters as a category of readable material The contributors to this book seek to redress this oversight viewing letters as texts which can reveal information not only about their writers and readers but about the wider historical context in which they were written Topics covered include the mercantile letter diplomatic correspondence and what these epistolary forms suggest about the rise of a polite literate culture in the eighteenth century the experience of immigration from Europe to America during the nineteenth and twentieth centuries the relationship through the letter and the working of gender in the epistolary form Rebecca Earle provides an overview of how the study of letter writing can open up new avenues of historical as well as literary investigation This together with contributions from leading international scholars makes

British Art and the East India Company Geoff Quilley,2020 Examines the role of the East India Company in the production and development of British art demonstrating how art and related forms of culture were closely tied to commerce and the rise of the commercial state This book examines the role of the East India Company in the production and development of British art during the eighteenth and early nineteenth centuries when a new school of British art was in its formative stages with the foundation of exhibiting societies and the Royal Academy in 1768 It focuses on the Company s patronage promotion and uses of art both in Britain and in India and the Far East and how the Company and its trade with the East were represented visually through maritime imagery landscape genre painting and print making It also considers how for artists such as William Hodges and Arthur William Devis the East India Company and its provision of a wealthy market in British India provided opportunities for career advancement through alignment with Company commercial principles In this light the book s main concern is to address the conflicted and ambiguous nature of art produced in the service of a corporation that was the scandal of empire for most of its existence and how this has shaped and distorted our understanding of the history of British art in relation to the concomitant

rise of Britain as a self consciously commercial and maritime nation whose prosperity relied upon global expansion increasing colonialism and the development of mercantile organisations

Routledge Handbook of Highland Asia Jelle J.P. Wouters, Michael T. Heneise, 2022-08-09

The Routledge Handbook of Highland Asia is the first comprehensive and critical overview of the ethnographic and anthropological work in Highland Asia over the past half a century. Opening up a grand new space for critical engagement, the handbook presents Highland Asia as a world region that cuts across the traditional divides inherited from colonial and Cold War area divisions: the Indian Subcontinent, South Asia, Southeast Asia, China, East Asia, and Central Asia. Thirty-two chapters assess the history of research, identify ethnographic trends, and evaluate a range of analytical themes that developed in particular settings of Highland Asia. They cover varied landscapes and communities from Kyrgyzstan to India, from Bhutan to Vietnam, and bring local voices and narratives relating trade and tribute, ritual and resistance, pilgrimage and prophecy, modernity and marginalization, capital and cosmos to the fore. The handbook shows that for millennia Highland Asians have connected far-flung regions through movements of peoples, goods, and ideas, and at all times have been the enactors, repositories, and mediators of world historical processes. Taken together, the contributors and chapters subvert dominant lowland narratives by privileging primarily highland vantages that reveal Highland Asia as an ecumene and prism that refracts and generates global history, social theory, and human imagination. In the currently unfolding Asian Century, this compels us to reorient and re-envision Highland Asia in ethnography, in theory, and in the connections between this world region, made of hills, highlands, and mountains, and a planetary context. The handbook reveals both regional commonalities and diversities, generalities and specificities, and a broad orientation to key themes in the region. An indispensable reference work, this handbook fills a significant gap in the literature and will be of interest to academics, researchers, and students interested in Highland Asia, Zomia Studies, Anthropology, Comparative Politics, Conceptual History, and Sociology, Southeast Asian Studies, Central Asian Studies, and South Asian Studies, as well as Asian Studies in general.
