Vignelli From A To Z:

Vignelli Massimo Vignelli, 2007 This superbly presented volume is a treasure trove of the thoughts of internationally acclaimed designers Lella and Massimo Vignelli For the past ten years Massimo Vignelli has taught a summer course at the School of Design and Architecture at Harvard on subjects that were initially alphabetized for convenience but now

Religion and Art in the Heart of Modern Manhattan Aaron Rosen, 2017-07-28 When you're in New York the sculptor Louise Nevelson once said you're in perpetual resurrection She might have said the same thing about St Peter's Lutheran Church set in the heart of midtown Manhattan In the 1970s the church made a radical move scrapping its neo gothic building for a sleek modern structure in the shadow of a skyscraper The transformation was not just architectural Inside Nevelson created a shimmering chapel while over the years artists and designers such as Willem de Kooning Kiki Smith and Massimo and Lella Vignelli produced works for the sanctuary This fusion of modern art architecture and design was complemented by an innovative jazz ministry including funerals for Billy Strayhorn and John Coltrane and performances by Duke Ellington and other jazz legends For the first time this volume examines the astounding cultural output of this single church Just as importantly the story of St Peter's serves as a springboard for wider reflections on the challenges and possibilities which arise when religion and art intersect in the modern city Working from a wide range of disciplines including art history theology musicology and cultural studies a distinguished group of scholars demonstrate that this church at the center of New York City deserves an equally central place in contemporary scholarship

The Moderns Steven Heller, Greg D'Onofrio, 2017-09-19 In *The Moderns* we meet the men and women who invented and shaped Midcentury Modern graphic design in America The book is made up of generously illustrated profiles many based on interviews of more than 60 designers whose magazine book and record covers advertisements and package designs posters and other projects created the visual aesthetics of postwar modernity Some were migrants from Europe others were homegrown all were intoxicated by elemental typography primary colors photography and geometric or biomorphic forms Some are well known others are honored in this volume for the first time and together they comprised a movement that changed our design world

Art and Design in 1960s New York Amanda Gluibizzi, 2021-02-26 *Art and Design in 1960s New York* explores the mutual influence between fine art and graphic design in New York City during the long decade of the 1960s Beginning with advertising's creative revolution and its relationship to pop artists the book traces design and art's developing interest in responses to civic problems such as the proliferation of billboards navigation through the city's streets and subways and issues of deteriorating infrastructure The strategies exploited by these artists and designers resulted in similar approaches to visual imagery and shared techniques for thinking about and responding to the city in which they lived

Forms of Rockin' Anssi Arte, 2015-09-23 The idea of style and competing for the best style is the key to all forms of rockin' *Style Wars* 1983 Are subcultures like graffiti floating free in their own space or are they connected to the rest of society In *Forms of Rockin'* graffiti styles are connected to

graphic design and other popular culture expressions such as music fashion photography industrial design and movies for the first time Anssi Arte analyses some of the most powerful visual symbols of the 1970s 80s and 90s and compares design typography and graffiti styles The visual styles of James Brown Blade Runner the Memphis group and grunge music all appear together with classic fonts and graffiti writers The clear yet analytical narrative and carefully crafted visualizations make it appealing to both graphic design aficionados as well as graffiti enthusiasts But Forms of Rockin is more than that This is a must for everybody interested in contemporary popular culture and design history Forms of Rockin traces and defines the stylistic conventions in graffiti letterforms that have become iconic and globally acknowledged ideals From the early New York tags to the mid 1990s ugly fresh styles of Scandinavia Forms of Rockin tells the story of how popular culture and graffiti styles influences each other *Literature of Travel and Exploration: R to Z, index* Jennifer Speake,2003
