Walter Legge Words And Music:

Walter Legge Walter Legge, 1998 Walter Legge was one of the greatest ever record producers His many other activities included founding a great orchestra the Philharmonia which he ran for eighteen years as a benevolent dictator Music formed the central core of his life but the printed word was also a vital source of inspiration and education In his writings Walter Legge reveals clearly the many facets of his own remarkable personality and from his correspondence with the great names of his day we gain rich insight into the musical world in which he played so great a part The Cambridge Companion to Recorded Music Nicholas Cook, 2009-11-26

Featuring fascinating accounts from practitioners this Companion examines how developments in recording have transformed musical culture **The Art of Record Production** Simon

Zagorski-Thomas, Katia Isakoff, Serge Lacasse, Sophie Stévanec, 2016-04-01 The playback of recordings is the primary means of experiencing music in contemporary society and in recent years classical musicologists and popular music theorists have begun to examine the ways in which the production of recordings affects not just the sound of the final product but also musical aesthetics more generally Record production can indeed be treated as part of the creative process of composition At the same time training in the use of these forms of technology has moved from an apprentice based system into university education Musical education and music research are thus intersecting to produce a new academic field the history and analysis of the production of recorded music This book is designed as a general introductory reader a text book for undergraduate degree courses studying the creative processes involved in the production of recorded music The aim is to introduce students to the variety of approaches and methodologies that are currently being employed by scholars in this field The book is divided into three sections covering historical approaches theoretical approaches and case studies and practice There are also three interludes of commentary on the academic contributions from leading record producers and other industry professionals This collection gives students and scholars a broad overview of the way in which academics from the analytical and practice based areas of the university system can be brought together with industry professionals to explore the ways in which this new academic field should progress **Singing in the Age of Anxiety** Laura Tunbridge, 2018-07-11

In New York and London during World War I the performance of lieder German art songs was roundly prohibited representing as they did the music and language of the enemy But as German musicians returned to the transatlantic circuit in the 1920s so too did the songs of Franz Schubert Hugo Wolf and Richard Strauss Lieder were encountered in a variety of venues and media at luxury hotels and on ocean liners in vaudeville productions and at Carnegie Hall and on gramophone recordings radio broadcasts and films Laura Tunbridge explores the renewed vitality of this refugee musical form between the world wars offering a fresh perspective on a period that was pervaded by anxieties of displacement Through richly varied case studies *Singing in the Age of Anxiety* traces how lieder were circulated presented and consumed in metropolitan contexts shedding new light on how music facilitated unlikely crossings of nationalist and internationalist ideologies during
