m sure it can Tom Swift looked over at his father who was seated in an easy chair in the library The elderly gentleman his hair was quite white now slowly shook his head as he murmured again It can t be done Tom It can t be done I admit that you ve made a lot of wonderful things things I never dreamed of but this is too much To transmit pictures over a telephone wire so that persons cannot only see to whom they are talking as well as hear them well to be frank with you Tom I should be sorry to see you waste your time trying to invent such a thing I don t agree with you Not only do I think it can be done but I m going to do it In fact I ve already started on it As for wasting my time well I haven t anything in particular to do now that my giant cannon has been perfected so I might as well be working on my new photo telephone instead of sitting around idle Yes Tom I agree with you there said Mr Swift Sitting around idle isn t good for anyone man or boy young or old So don t think I m finding fault because you re busy It s only that I don t want to see you throw away your efforts only to be disappointed in the end It can t be done Tom it can t be done and the aged inventor shook his head in pitying doubt Tom only smiled confidently and went on Well Dad all you ll have to do will be to wait and see It isn t going to be easy I grant that In fact I ve run up against more snags the little way I ve gone so far than I like to admit But I m going to stick at it and before this year is out I ll guarantee Father that you can be at one end of the telephone wire talking to me at the other and I ll see you and you ll see me if not as plainly as we see each other now at least plainly enough to make sure of each other Mr Swift chuckled silently gradually breaking into a louder laugh Instead of being angry Tom only regarded his father with an indulgent smile and continued All right Dad Go ahead laugh Well Tom I m not exactly laughing at you it s more at the idea than anything else The idea of talking over a wire and at the same time having light waves as well as electrical waves passing on the same conductor All right Dad go ahead and laugh I don t mind said Tom good naturedly Folks laughed at Bell when he said he could send a human voice over a copper spring but Bell went ahead and to day we can talk over a thousand miles by wire That was the telephone Folks laughed at Morse when he said he could send a message over the wire He let em laugh but we have the telegraph Folks laughed at Edison when he said he could take the human voice or any other sound and fix it on a wax cylinder or a hard rubber plate but he did it and we have the phonograph And folks laughed at Santos Dumont at the Wrights and at all the other fellows who said they could take a heavier than air machine and skim above the clouds like a bird but we do it I ve done it you ve done it Hold on Tom protested Mr
