Hieronymus Bosch Nils Büttner, 2023-09-24 An accessible biography of the celebrated early Netherlandish painter now in paperback In his lifetime the early Netherlandish painter Hieronymus Bosch was famous for his phantasmagoric images and today his name is synonymous with the infernal The creator of expansive tableaux of fantastic and hellish scenes where any devil not dancing is too busy eating human souls he has been as equally misunderstood by history as his paintings have In this book Nils Büttner draws on a wealth of historical documents not to mention Bosch's paintings to offer a fresh and insightful look at one of history's most peculiar artists on the five hundredth anniversary of his death Bosch's paintings have elicited a number of responses over the centuries Some have tried to explain them as alchemical symbolism others as coded messages of a secret cult and still others have tried to psychoanalyze them Some have placed Bosch among the Adamites others among the Cathars and others among the Brethren of the Free Spirit seeing in his paintings an occult life of free love strange rituals mysterious drugs and witchcraft As Büttner shows Bosch was if anything a hardworking painter commissioned by aristocrats and courtesans as all painters of his time were Analyzing his life and paintings against the backdrop of contemporary Dutch culture and society Büttner offers one of the clearest biographical sketches to date alongside beautiful reproductions of some of Bosch's most important work The result is a smart but accessible introduction to a unique artist whose work transcends genre

Sin in Medieval and Early Modern Culture Richard Newhauser, Susan Janet Ridyard, 2012 This volume offers a fresh consideration of role played by the enduring tradition of the seven deadly sins in Western culture showing its continuing post mediaeval influence even after the supposed turning point of the Protestant Reformation It enhances our understanding of the multiple uses and meanings of the sins tradition

Sodomy in Reformation Germany and Switzerland, 1400-1600 Helmut Puff, 2003-06 During the late Middle Ages a considerable number of men in Germany and Switzerland were executed for committing sodomy Even in the seventeenth century simply speaking of the act was cause for censorship Here in the first history of sodomy in these countries Helmut Puff argues that accusations of sodomy during this era were actually crucial to the success of the Protestant Reformation Drawing on both literary and historical evidence Puff shows that speakers of German associated sodomy with Italy and increasingly Catholicism As the Reformation gained momentum the formerly unspeakable crime of sodomy gained a voice as Martin Luther and others deployed accusations of sodomy to discredit the upper ranks of the Church and to create a sense of community among Protestant believers During the sixteenth century reactions against this defamatory rhetoric and fear that mere mention of sodomy would incite sinful acts combined to repress even court cases of sodomy Written with precision and meticulously researched this revealing study will interest historians of gender sexuality and religion as well as scholars of

medieval and early modern history and culture **The Many Faces of Job** Choon-Leong Seow, 2023-05-08 This handbook analyses in a comparative method and on an interdisciplinary level how the biblical figure of Job and his texts were interpreted from premodern times until today highlighting continuities and discontinuities The first volume addresses the premodern period and includes chapters on Second Temple Judaism Jewish Interpretations Christian Interpretations Islam Literature Visual Arts and Music Sound Theology, a Reader Randall Dean Engle, 2025-03-18 Sound Theology A Reader brings to life in English for the first time primary curated sources associated with the pipe organ controversy in the Netherlands during the Reformation Chief among the entries is Gisbertus Voetius's essay on Organ and Church Music from his magnum opus *Politicae Ecclesiasticae* In addition other translations include professors preachers and laypeople's voices from archival manuscripts and first edition monographs Together Sound Theology's two volumes tell a little known but colorful and foundational story that shaped Reformed worship for centuries to come The Oxford Encyclopedia of the Reformation Hans J. Hillerbrand, 1996 A critical chapter in the history of Christian thought the Reformation provoked political social and cultural transformations that profoundly changed the Western world This is the first major reference to cover the immense subject of the Reformation in its entirety It is a unique compendium of contemporary scholarship focusing on the complete range of religious and social changes wrought by the Reformation including not only issues of church polity and theology but also related developments in politics economics demographics art and literature It is an unparalleled source of information on the personalities and events of the era with broad coverage ranging from biographies to extensive treatments of topics such as Lutheranism women law music the Holy Roman Empire peasants the Bible persecution and literacy *Religion in the History of the Medieval West* John Van Engen, 2023-05-31 These ten essays by John Van Engen situate religion in the history of medieval Western Europe as an unavoidable presence in everyday life as a conceptual framework for social and political life as a force integral to its historical dynamics Four of the essays are bibliographical and retrospective in nature reviewing the field broadly but also pointing toward a more dialectical approach to understanding the interaction of religion and society in the European middle ages Other studies deal with large topics usually subsumed under the abstract term Christianization They grapple with learned sources as well as those associated with popular religion and show what can be gained from an imaginative use of all that lawyers and theologians said about religion in their society The essays finally look for the quality and dynamic of change even inventiveness released by religious action and conviction in medieval European society Sin and Confession on the Eve of the Reformation Thomas N. Tentler, 2015-03-08 Although John Calvin often likened sacramental confession to butchery the Council of Trent declared that for those who approached it worthily it was made easy by its great benefits and consolations Thomas Tentler describes and evaluates the effectiveness of sacramental confession as a functioning institution designed to cause guilt as well as cure guilt seeing it in its proper place as a part of the social fabric of the Middle Ages The author examines the institution of confession in practice as well as in

theory providing an analysis of a practical literature whose authors wanted to explain as clearly as they safely could what confessors and penitents had to believe do feel say and intend if sacramental confession were to forgive sins In so doing he recreates the mentality and experience that the Reformers attacked and the Counter Reformers defended Central to his thesis is the contention that Luther Calvin and the Fathers of Trent regarded religious institutions as the solution to certain social and psychological problems and that an awareness of this attitude is important for an assessment of the significance of confession in late medieval and Reformation Europe Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
