Victorian Targeting Handwriting Tricia Dearborn, Jo Ryan, Stephen Michael King, 2004 Targeting Handwriting Victoria Year 6 Student Book focuses on developing students' own styles while emphasising fluency and legibility. The book includes mature real world applications e.g. developing a signature and tips for note taking. Teaching pages with two sets of copying lines for reinforcement and extra practice. A section on calligraphy. The Targeting Handwriting Years 3-6 Student Books have been designed to make learning cursive handwriting as easy as possible for students. New skills are introduced sequentially so that students build on skills one by one and aren't called on to use skills that haven't been introduced yet. Wherever possible students copy words underneath models so that left handers aren't disadvantaged and practice of numerals and punctuation is integrated into the writing activities. The books also encourage and support student self assessment.

The book shows how changing educational policies, economic forces and inevitable technological advance have combined to alter the priorities and form of handwriting. This long and sometimes sorry story tells also of the sheer pain and hard work of children forced to follow the style of the day and of the reformers who have sought to simplify the teaching and learning of handwriting over the years. Illustrated throughout with examples from copybooks and personal handwriting from across the world, the book is a compelling historical record of techniques, styles and methods.
