Victorian Christianity Fin Sile Religion:

Victorian Christianity at the Fin de Siècle Frances Knight, 2015-10-23 The period known as the fin de siècle defined in this groundbreaking book as chiefly the period between 1885 and 1901 was a fluid and unsettling epoch of optimism and pessimism endings and beginnings as well as of new forms of creativity and anxiety The end of the century has attracted much interest from scholars of literary and cultural studies who regard it as a critical moment in the history of their disciplines but it has been relatively ignored by religious historians Frances Knight here sets right that neglect She shows how late Victorian society often said to be one of the most intensely Christian cultures the world has ever seen reacted to the bold agendas being set by the thinkers of the fin de siècle and how prominent Church figures during the era first identified many of the concerns that have preoccupied Christians latterly These include an active interest in social justice and the creation of new types of communities increasingly open discussion of the sexual exploitation of children debates about society's decadence new ideas about the role of women and the belief in the redemptive powers of art pioneered by figures as diverse as P T Forsyth Percy Dearmer and Samuel and Henrietta Barnett Examining in particular the Christian world of fin de siècle London the author offers penetrating insights into a society in which the ritual and culture of Christianity sometimes permeated the aesthetic movement and where devotees of the aesthetic movement like Walter Pater Oscar Wilde and their disciples often revealed a fascination with Christianity She argues that the long 1890s was a decisive decade in which various sections of Christian opinion both on the progressive and the more conservative wings of the faith began to express views which set the tone for attitudes which would become commonplace in the twentieth century Victorian Christianity at the Fin de Siècle is the focussed treatment of religion and culture at the end of the nineteenth century that the field has long needed It will be welcomed by scholars of church history social and cultural history and the history of ideas Same-Sex Desire in

in regard to sex Gowan Dawson contends that the fashioning of such respectability was by no means straightforward or unproblematic with Darwin and his principal supporters facing surprisingly numerous and enduring accusations of encouraging sexual impropriety Integrating contextual approaches to the history of science with work in literary studies Dawson sheds light on the well known debates over evolution by examining them in relation to the murky underworlds of Victorian pornography sexual innuendo unrespectable freethought and artistic sensualism Such disreputable and generally overlooked aspects of nineteenth century culture were actually remarkably central to many of these controversies Focusing particularly on aesthetic literature and legal definitions of obscenity Dawson reveals the underlying tensions between Darwin's theories and conventional notions of Victorian respectability
