Malevich and Interwar Modernism Éva Forgács, 2022-01-13 This book examines the legacy of international interwar modernism as a case of cultural transfer through the travels of a central motif the square The square was the most emblematic and widely known form motif of the international avant garde in the interwar years It originated from the Russian artist Kazimir Malevich who painted The Black Square on White Ground in 1915 and was then picked up by another Russian artist El Lissitzky and the Dutch artist Theo van Doesburg It came to be understood as a symbol of a new internationalism and modernity and while Forgács uses it as part of her overall narrative she focuses on it and its journey across borders to follow its significance how it was used by the above key artists and how its meaning became modified in Western Europe It is unusual to discuss interwar modernism and its postwar survival but this book's chapters work together to argue that the interwar developments signified a turning point in twentieth century art that led to much creativity and innovation Forgács supports her theory with newly found and newly interpreted documents that prove how this exciting legacy was shaped by three major agents Malevich Lissitzky and van Doesburg She offers a wider interpretation of modernism that examines its postwar significance reception and history up until the emergence of the New Left in 1956 and the seismic events of 1968

Faith in Art Joseph Masheck, 2023-06-15 Metaphysical thought has been excluded from much of the discourse on modern art especially abstract painting By connecting ideas about faith with the initiators of abstract painting Joseph Masheck reveals how an underlying religiosity informed some of our most important abstract painters Covering Wassily Kandinsky Kazimir Malevich Piet Mondrian and El Lissitzky Masheck shows how revealed religion has been an underlying but fundamental determinant of the thinking and practice of abstract painting from its very originators He contextualizes their art within some of the historical moments of the early 20th century including the Russian revolution and the Stalinist period and explores the appeal of certain themes such as the Passion of Christ A radical new theorization of the influence of religion over visual art Faith in Art asks why metaphysics has been eliminated from the discussion where it might have something to say This is a new way of thinking about a hundred years of abstract painting

St Petersburg Solomon Volkov, 2010-06-15 The definitive cultural biography of the Venice of the North and its transcendent artistic and spiritual legacy written by Russian emerge and acclaimed cultural historian Solomon Volkov Long considered to be the mad dream of an imperious autocrat the Venice of the North conceived in a setting of malarial swamps St Petersburg was built in 1703 by Peter the Great as Russia's gateway to the West For almost 300 years this splendid city has survived the most extreme attempts of man and nature to extinguish it from flood famine and disease to civil war

Stalinist purges and the epic 900 day siege by Hitler's armies It has even been renamed twice and became St Petersburg again only in 1991 Yet not only has it retained its special almost mystical identity as the schizophrenic soul of modern Russia but it remains one of the most beautiful and alluring cities in the world Now Solomon Volkov a Russian emigre and acclaimed cultural historian has written the definitive cultural biography of this city and its transcendent artistic and spiritual legacy For Pushkin Gogol and Dostoyevsky Petersburg was a spectral city that symbolized the near apocalyptic conflicts of imperial Russia As the monarchy declined allowing intellectuals and artists to flourish Petersburg became a center of avant garde experiment and flamboyant bohemian challenge to the dominating power of the state first czarist and then communist The names of the Russian modern masters who found expression in St Petersburg still resonate powerfully in every field of art in music Stravinsky Prokofiev and Shostakovich in literature Akhmatova Blok Mandelstam Nabokov and Brodsky in dance Diaghilev Nijinsky and Balanchine in theater Meyerhold in painting Chagall and Malevich and many others whose works are now part of the permanent fabric of Western civilization Yet no comprehensive portrait of this thriving distinctive and highly influential cosmopolitan culture and the city that inspired it has previously been attempted
