- *Ultimate flexibility in head and controller configuration enables adaptation to changing print job demands – Print 2" to 16" (5.1cm to 40.6cm)*
- *Powerful yet intuitive front end for quick and accurate layout and setup*
- *Based on HP technology for high reliability and simple maintenance*

Go Beyond Just Simple Addressing

With high resolution (600 dpi) print capability and expandable printhead configurations from 2" to 16" (5.1cm to 40.6cm), the PrintMail WideArray can efficiently print out a basic 8 line address, but it can be used for so much more. Expand your shop's capabilities and take on new clients by being able to print promotional messages and coupons, include eye catching graphics, add spot color and even print complete documents and statements with the print quality your customers are demanding.

Flexibility to Meet New Challenges

Daisy chainable controller structure provides the ultimate ability to adapt to changing demands. For example, use the system as a 6" (15.2cm) printer for one job and then separate 4" (10.2cm) and 2" (5.1cm) printers for subsequent jobs. WHSiWhG job layout software is both intuitive to use and highly powerful, with features such as PDF print proofing, job preflighting, conditional bitmap handling and a variety of TrueType® fonts and built-in bar codes. The ability to natively handle all typical data formats enables no risk, and no additional work transition of your existing files.

Print System Optimization

The PrintMail WideArray performance is optimized when used with Videojet paper handling equipment which offers unmatched performance in vacuum transport and friction feed technology. The printer can also be configured to print directly on webs or to add variable data in combination with continuous form laser printers.
