, The Muslim Conception of International Law and the Western Approach Mohammad Talaat Ghunaimi, 2012-12-06
The traditional doctrine of Islamic law in regard to international relations is well known. The Shari'a includes many excellent provisions about declarations of war, treaties of peace, armistices, diplomatic envoys, negotiations, and guarantees of safe conduct. But the fact remains that it divides the world broadly speaking into the Abode of Islam and the Abode of War, and that it envisages the continuance of intermittent war between them until the latter is absorbed in the former. In the course of such fighting and in the intervals in between many civilities were to be meticulously observed but prisoners of war could be killed, sold, or enslaved at the discretion of the Muslim authorities, and the women of those who resisted the advance of Islam could be taken as slave concubines regardless of whether they were single or married. The Abode of Islam did not indeed consist exclusively of Muslims for those whose religion was based on a book accepted by Islam as originally inspired, and in practice indeed those other religions too were not forced to embrace Islam but only to accept Muslim rule. They were granted the status of dhimmis, were protected in their persons, and their property was allowed to follow their own religion in an unobtrusive fashion and were accorded the position of essentially second class citizens. They were also of course perfectly free to embrace Islam, but for a Muslim to be converted to another faith involved the death penalty. *Jerusalem Pilgrims Before the Crusades*, 2002-04-01
Hundreds of pilgrims set out from Europe to the Holy Land between 385 and 1099 AD, but of these only eighteen wrote descriptions which have survived. They provide essential background material for the history of Christianity in the Holy Land as well as for all archaeologists and geographers of the Byzantine and Early Arab period.
