Vietnam In Iraq Tactics Lessons Legacies And Ghosts Contemporary Security Studies:

Vietnam in Iraq David Ryan, John Dumbrell, 2007-01-24 The essays in this book offer a series of perspectives on connections and parallels between the Vietnam War and the 2003 invasion of and current conflict in Iraq **Vietnam in Iraq** David Ryan, John Dumbrell, 2007-01-24 More than most post 1970 conflicts involving US forces the conflict in Iraq has been fought out against a background of frequently invoked memories from the era of the Vietnam War The essays in this book offer a series of perspectives on connections and parallels between the Vietnam War and the 2003 invasion of and conflict in Iraq The contributors particularly examine the impact of the Vietnam analogy on the War in Iraq assessing the military tactical lessons learned from the Vietnam War and exploring the influence and persistence of its legacy in US politics culture and diplomacy The volume holds up to original interrogation some commonly held assumptions about historical analogy and several distinguished authorities on the Vietnam War era in particular offer their thoughts on the value and applicability of Vietnam Iraq parallels If most contributions point out some obvious dissimilarities between the two eras notably the transformed post Cold War international environment the similarities particularly those relating to the problems of cultural misunderstanding are also apparent Vietnam in Iraq will be of great interest for all students and researchers of the Iraq War strategic studies international relations and American politics **Security Studies** Associate Professor Elliott School of International Affairs Paul D Williams, Dr, Paul D. Williams, 2008-06-03 Security Studies is the most comprehensive textbook available on security studies It gives students a detailed overview of the major theoretical approaches key themes and most significant issues within security studies Part 1 explores the main theoretical approaches currently used within the field from realism to international political sociology Part 2 explains the central concepts underpinning contemporary debates from the security dilemma to terrorism Part 3 presents an overview of the institutional security architecture currently influencing world politics using international regional and global levels of analysis Part 4 examines some of the key contemporary challenges to global security from the arms trade to energy security Part 5 discusses the future of security Security Studies provides a valuable teaching tool for undergraduates and MA students by collecting these related strands of the field together into a single coherent textbook *War, Torture and Terrorism* Anthony F. Lang, Jr., Amanda Russell Beattie, 2008-10-27 This book seeks to demonstrate how rules not only guide a variety of practices within international politics but also contribute to the chaos and tension on the part of agents in light of the structures they sustain Four central themes practice legitimacy regulation and responsibility reflect different dimensions of a rule governed political order The volume does not provide a single new set of rules for governing an increasingly chaotic international system Instead it provides reflections upon the way in which rules can and cannot deal with practices of violence While many assume that obeying the rules will bring more peaceful outcomes the chapters in this volume demonstrate that this may occur in some cases but more often than not the very nature of a rule governed order will create tensions and stresses that require a

constant attention to underlying political dynamics This wide ranging volume will be of great interest to students of International Law International Security and IR theory *Causes and Consequences of International Conflict* Glenn Palmer,2009-10-16 Investigation into the causes of international conflict has in many ways formed the central locus of the early work in the scientific investigation of world politics This edited volume contains the most recent quantitative work in this area reflecting the current state of the field in the topics addressed the data utilized and the methods employed The book is divided into three parts presenting first some recent contributions to the work on the causes of international conflict set in the context of realist theories The second part addresses issues relating to data methods and cases used to analyze international conflict while the third part presents some examples of the use of a variety of different methods to answer questions relating to issues which engage international relations scholars today The chapters focus on a variety of pertinent topics and include discussions of important innovations in our ability to analyze conflict such as the introduction of the Militarized Interstate Dispute MID data *Trump's America* Kennedy Liam Kennedy,2020-09-09 Explores the cultural and political significance of the election of President TrumpDonald J Trump s presidency has delivered a seismic shock to the American political system its public sphere and to our political culture worldwide Written by leading scholars across a range of disciplines as well as professionals in the field of political journalism this collection of essays offers a deeper understanding of Trump and the impact that his rise to power has had both domestically and worldwide The first section provides varied perspectives on the realignments of political culture in the United States that signify a paradigm shift a radical disruption of fundamental beliefs and values about the political process and national identity The second section of the book focuses on US foreign policy and diplomacy taking stock of how the Trump presidency has disturbed the international system and US primacy within it The third section of the book addresses the dynamics and consequences of what has come to be called the post truth politics where conviction surpasses facts and the norms of political communication have been profoundly disrupted Liam Kennedy is Professor of American Studies and Director of the Clinton Institute for American Studies at University College Dublin **Afghanistan, Arms and Conflict** Michael Vinay Bhatia,Mark Sedra,2008-05-05 This book provides a comprehensive assessment of small arms and security related issues in post 9 11 Afghanistan **Global Biosecurity** Peter Katona,John P. Sullivan,Michael D. Intriligator,2010-01-21 This book explores a range of biohealth and biosecurity threats places them in context and offers responses and solutions from global and local networked and pyramidal as well as specialized and interdisciplinary perspectives Specifically covering bioterrorism emerging infectious diseases pandemic disease preparedness and remediation agroterrorism food safety and environmental issues the contributors demonstrate that to counter terrorism of any kind a global networked and multidisciplinary approach is essential To be successful in biosecurity this book argues it is necessary to extend partnerships cooperation and coordination between public health clinical medicine private business law enforcement and other agencies locally nationally

and internationally Internationally a clear understanding is needed of what has happened in past epidemics and what was accomplished in past bioprograms in Britain South Africa Russia for example This book also assesses how with the right technology and motivation both a state and a non state actor could initiate an extremely credible biothreat to security at both local and national levels This book will be of much interest to students researchers and practitioners of security studies public health public policy and IR in general Peter Katona is Associate Professor of Clinical Medicine at the David Geffen School of Medicine at UCLA in Infectious Diseases He is co founder of Biological Threat Mitigation a bioterror consulting firm John P Sullivan is a lieutenant with the Los Angeles Sheriff s Department He is also a researcher focusing on terrorism conflict disaster intelligence studies and urban operations He is co founder of the Los Angeles Terrorism Early Warning TEW Group Michael D Intriligator is Professor of Economics at the University of California Los Angeles UCLA He is also Professor of Political Science Professor of Public Policy in the School of Public Policy and Social Research and Co Director of the Jacob Marschak Interdisciplinary Colloquium on Mathematics in the Behavioral Sciences all at UCLA

Reconstructing Afghanistan William Maley, Susanne Schmeidl, 2014-11-27 This book identifies some of the main lessons for civil military interactions that can be derived from the experiences of Provincial Reconstruction Teams PRTs in Afghanistan The book has three main themes Firstly the volume analyses why the ways in which civil and military actors interact in theatres of operations such as Afghanistan matter for both those categories of actors and for the ordinary people who their interactions serve Second the book highlights that these interactions are invariably complex The third theme which arises specifically from the PRT experience in Afghanistan is that such teams vary significantly in their roles resourcing and operational environments Consequently to appraise the value of the PRT experience it is necessary to unpack the experiences of different PRTs which the use of case studies allows one to do The volume comprises an introduction identifying some key questions to which the PRT experience gives rise and case studies of the experiences of the United States United Kingdom New Zealand Canada The Netherlands Australia Germany and France chapters dealing with the roles played by NGOs and the UN system and a discussion from an Afghan perspective of the implications of civilian casualties It is the combination of the diverse cases discussed in this book with a focus on the broad challenges of optimising civil military interactions that makes this book distinctive This book will be of much interest to students of the Afghan War civil military relations statebuilding Central Asian politics and IR in general

Ethics and the Laws of War Antony Lamb, 2013-05-29 This book is an examination of the permissions prohibitions and obligations found in just war theory and the moral grounds for laws concerning war Pronouncing an action or course of actions to be prohibited permitted or obligatory by just war theory does not thereby establish the moral grounds of that prohibition permission or obligation nor does such a pronouncement have sufficient persuasive force to govern actions in the public arena So what are the moral grounds of laws concerning war and what ought these laws to be Adopting the distinction between jus ad bellum and jus in bello the author argues that rules governing

conduct in war can be morally grounded in a form of rule consequentialism of negative duties Looking towards the public rules the book argues for a new interpretation of existing laws and in some cases the implementation of completely new laws These include recognising rights of encompassing groups to necessary self defence recognising a duty to rescue and considering all persons neither in uniform nor bearing arms as civilians and therefore fully immune from attack thus ruling out targeted or named killings This book will be of much interest to students of just war theory ethics of war international law peace and conflict studies and Security Studies IR in general

Territory, War, and Peace John A. Vasquez, Marie T. Henahan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress An International Relations Perspective* and co editor of *The Scientific Study of Peace and War*

European Homeland Security Christian Kaunert, Sarah Léonard, Patryk Pawlak, 2012 This book examines the processes and factors shaping the development of homeland security policies in the European Union EU within the wider context of European integration The EU functions in a complex security environment with perceived security threats from Islamist terrorists migration and border security issues and environmental problems In order to deal with these the EU has undertaken a number of actions including the adoption of the European Security Strategy in 2003 the Information Management Strategy of 2009 and the Internal Security Strategy of 2010 However despite such efforts to achieve a more concerted European action in the field of security there are still many questions to be answered about whether the European approach is really a strategic one *European Homeland Security* addresses two major debates in relation to the development of homeland security in Europe First it reflects on the absence of homeland security in European political debate and its potential consequences Second it examines the significant policy developments in the EU that suggest the influence of homeland security ideas notably through policy transfer from the United States The book will be of great interest to students

of European security and EU politics terrorism and counter terrorism security studies and IR **US Presidential Elections and Foreign Policy** Andrew Johnstone, Andrew Priest, 2017-05-05 While domestic issues loom large in voters minds during American presidential elections matters of foreign policy have consistently shaped candidates and their campaigns From the start of World War II through the collapse of the Soviet Union presidential hopefuls needed to be perceived as credible global leaders in order to win elections regardless of the situation at home and voter behavior depended heavily on whether the nation was at war or peace Yet there is little written about the importance of foreign policy in US presidential elections or the impact of electoral issues on the formation of foreign policy In **US Presidential Elections and Foreign Policy** a team of international scholars examines how the relationship between foreign policy and electoral politics evolved through the latter half of the twentieth century Covering all presidential elections from 1940 to 1992 from debates over American entry into World War II to the aftermath of the Cold War the contributors correct the conventional wisdom that domestic issues and the economy are always definitive Together they demonstrate that while international concerns were more important in some campaigns than others foreign policy always matters and is often decisive This illuminating commentary fills a significant gap in the literature on presidential and electoral politics emphasizing that candidates positions on global issues have a palpable impact on American foreign policy **Understanding NATO in the 21st Century** Graeme P. Herd, John

Kriendler, 2013-02-15 **Understanding NATO in the 21st Century** enhances existing strategic debates and clarifies thinking as to the direction and scope of NATO s potential evolution in the 21st century The book seeks to identify the possible contours and trade offs embedded within a potential third Transatlantic Bargain in the context of a U S strategic pivot in a Pacific Century To that end it explores the internal adaptation of the Alliance evaluates the assimilation of NATO s erstwhile adversaries and provides a focus on NATO s operational future and insights into the new threats NATO faces and its responses Each contribution follows a similar broad tripartite structure an examination of the historical context in which the given issue or topic has evolved an identification and characterization of key contemporary policy debates and drivers that shape current thinking and on that basis a presentation of possible future strategic pathways or scenarios relating to the topic area This book will appeal to students of NATO international security and international relations in general **The EU, the UN and Collective Security** Joachim Krause, Natalino Ronzitti, 2012 This book examines the effectiveness of multilateralism in ensuring collective security and in particular the EU s role in this process In 1992 shortly after the end of the Cold War a Security Council Summit in New York reaffirmed the salience of the system of collective security and stated the determination of the Heads of State to maintain it as the prime international instrument for preserving peace Twenty years later however the record of collective security as well as of multilateralism has not been very encouraging The system of collective security as enshrined in the United Nations UN Charter failed repeatedly to accomplish its mandate in the 1990s and has led to controversial debates in the United States and Europe that reached a climax during the Iraq crisis in 2002 03

The volume draws upon both theoretical and empirical research to answer the following core questions What are the reasons that have made multilateralism either effective or ineffective in the field of peacekeeping peace preservation and peacebuilding How can multilateralism be made more effective How can attempts made by Europe to render UN multilateralism in the security area more efficient be assessed This book will be of much interest to students of peacebuilding peacekeeping EU policy the UN security studies and IR in general

Churchill and the Anglo-American Special Relationship Alan P. Dobson, Steve Marsh, 2017-02-24 This book examines Winston Churchill's role in the creation and development of the Anglo American special relationship Drawing together world leading and emergent scholars this volume offers a critical celebration of Churchill's contribution to establishing the Anglo American special relationship Marking the seventieth anniversary of Churchill's pronouncement in 1946 of that special relationship in his famous Iron Curtain speech the book provides new insights into old debates by drawing upon approaches and disciplines that have hitherto been marginalised or neglected The book foregrounds agency culture values ideas and the construction and representation of special Anglo American relations past and present The volume covers two main themes Firstly it identifies key influences upon Churchill as he developed his political career especially processes and patterns of Anglo American convergence prior to and during World War Two Second it provides insights into how Churchill sought to promote a post war Anglo American special relationship how he discursively constructed it and how he has remained central to that narrative to the present day From this analysis emerges new understanding of the raw material from which Churchill conjured special UK US relations and of how his conceptualisation of that special relationship has been shaped and re shaped in the decades after 1946 This book will be of much interest to students of Anglo American relations Cold War Studies foreign policy international history and IR in general

Understanding Emerging Security Challenges Ashok Swain, 2013 This book offers an overview of emerging security challenges in the global environment in the post Cold War era After the fall of the Berlin Wall and the subsequent shifting of international political environment a new broader concept of security began to gain acceptance This concept encompassed socio economic environmental challenges such as resource scarcity and climate change water sharing issues deforestation and forest protection measures food and health security and large population migration The book examines the causes and consequences of these emerging security threats and retains a critical focus on evolving approaches to address these issues The author attempts to develop a framework for sustainable security in a rapidly changing global political landscape which seeks to bring states and societies together in a way that addresses weaknesses of the evolving international system Moreover through a detailed analysis of the emerging security issues and their pathways the book further argues that the evolving processes not only pose critical challenges but also provide remarkable opportunity for cooperation and collaboration among and within various stakeholders This book will be of much interest to students of global security war and conflict studies peace studies and IR in general

Militancy and Violence in West Africa James

Gow, Funmi Olonisakin, Ernst Dijkhoorn, 2013-07-18 This volume provides a systematic and cross regional analysis of radicalisation militancy and violence in West Africa Concern about terrorism in or from West Africa has been recognised in academic research and the adoption of militarised approaches to addressing it questioned However the basis for that questioning the need to investigate factors such as the historical and socio economic roots of militancy is not developed nor is it substantiated in existing studies The significant impact of religiously motivated radicalisation and violence in West Africa upon international security makes it essential to understand the issues of militancy and violence in the region In this volume the authors draw upon empirical research in West Africa to develop understanding in these areas Over the course of several chapters written by leading experts in the field the book successfully blends historical and conceptual analysis with new empirical research gathered from focus group discussions and research interviews Each of these core studies is structured around five interrelated issues tracing the antecedents of radicalisation monitoring trends identifying actors anticipating possibilities and analysing the strength of existing preventive mechanisms This book will be of much interest to students of African security African politics radicalisation political Islam war and conflict studies and security studies in general

Strategic Narratives, Public Opinion and War Beatrice De Graaf, George Dimitriu, Jens Ringsmose, 2015-02-11 This volume explores the way governments endeavoured to build and maintain public support for the war in Afghanistan combining new insights on the effects of strategic narratives with an exhaustive series of case studies In contemporary wars with public opinion impacting heavily on outcomes strategic narratives provide a grid for interpreting the why what and how of the conflict This book asks how public support for the deployment of military troops to Afghanistan was garnered sustained or lost in thirteen contributing nations Public attitudes in the US Canada Australia and Europe towards the use of military force were greatly shaped by the cohesiveness and content of the strategic narratives employed by national policy makers Assessing the ability of countries to craft a successful strategic narrative the book addresses the following key areas 1 how governments employ strategic narratives to gain public support 2 how strategic narratives develop during the course of the conflict 3 how these narratives are disseminated framed and perceived through various media outlets 4 how domestic audiences respond to strategic narratives 5 how this interplay is conditioned by both events on the ground in Afghanistan and by structural elements of the domestic political systems This book will be of much interest to students of international intervention foreign policy political communication international security strategic studies and IR in general

Prosecuting War Crimes James Gow, Rachel Kerr, Zoran Pajic, 2013-09-23 This volume examines the legacy of the International Criminal Tribunal for the former Yugoslavia ICTY which was created under Chapter VII of the UN Charter as a mechanism explicitly aimed at the restoration and maintenance of international peace and security As the ICTY has now entered its twentieth year this volume reflects on the record and practices of the Tribunal Since it was established it has had enormous impact on the procedural jurisprudential and institutional development of international criminal law as well as the international criminal

justice project This will be its international legacy but its legacy in the region where the crimes under its jurisdiction took place is less clear research has shown that reactions to the ICTY have been mixed among the communities most affected by its work Bringing together a range of key thinkers in the field Prosecuting War Crimes explores these findings and discusses why many feel that the ICTY has failed to fully engage with people s experiences and meet their expectations This book will be of much interest to students of war crimes international criminal law Central and East European politics human rights and peace and conflict studies
