Game Worn Stephen Wong, Dave Grob, 2016-10-25 Game Worn Baseball Treasures from the Game's Greatest Heroes and Moments is a richly illustrated exploration and first of its kind compendium study of the world's most coveted and precious baseball uniforms worn by Major League ballplayers during the twentieth century. This coffee table book features many of the most historically significant uniforms, jackets, hats, as well as other treasured baseball collectibles that tell us as much about the history and soul of America as they do about the game and the players. Some of the extraordinary highlights featured in this book include Babe Ruth's road jersey from his first season with the New York Yankees 1920, the sole surviving uniform from the infamous 1919 World Series; Joe DiMaggio's rookie uniform from 1936; the Boston Red Sox road uniform Ted Williams wore during his epic 1941 season; Jackie Robinson's Brooklyn Dodgers home jersey from the 1952 season; Bill Mazeroski's Pittsburgh Pirates home uniform worn to hit the game-winning home run in game 7 of the 1960 World Series; and a visual feast of rare uniform styles. Each of the 71 entries includes sumptuous photography of the uniform and associated memorabilia, as well as a poignant and lively narrative highlighting its significance. The book also features a first of its kind illustrated compendium with elaborate definitions of relevant terms that every baseball fan and collector needs to know, ranging from the All Star Game Uniform to the Zig Zag Stitch. This book is an absolute must-have for anyone who has ever loved the game of baseball.

Photography, Music and Memory Michael Pickering, Emily Keightley, 2015-10-12 This book explores how photography and recorded music act as vehicles or catalysts in processes of remembering and how they are regarded, treated, valued, and drawn upon as resources connecting past and present in everyday life. It does so via two key concepts: vernacular memory and the mnemonic imagination.

Mirror Facts Amelia Khatri, 2025-02-18 Mirror Facts explores the surprising intersection of science, history, and culture found in the everyday object of the mirror. It examines not only the physics of how mirrors reflect light based on principles of optics and material science but also how mirror technology has evolved from early polished stones found in archaeological findings to the high-tech reflective surfaces we use today. Did you know that the development of silvering techniques was a pivotal moment in creating clearer, more effective mirrors? The book traces a logical progression starting with the fundamental laws of reflection and then moving through a chronological history of mirrors across civilizations. It shows how these reflective surfaces have been imbued with cultural symbolism, appearing in art, literature, and even mythology. Exploring this cultural symbolism highlights the fascinating ways different societies view mirrors, from tools for self-reflection to portals in folklore. Mirror Facts takes a unique approach by blending scientific accuracy with historical context and cultural insights. By connecting optics, material science, and art history, the book offers a comprehensive view that will appeal to anyone curious about the hidden stories behind common objects.

Slang and Its Analogues Past and Present John Stephen Farmer, 1902 **Perdition's Storm** Brian Trent, 2025-11-04

ZOMBIES MEET THE MAFIA IN JOHN RINGO'S BLACK TIDE RISING UNIVERSE AUTHORED BY A RISING STAR IN SCIENCE FICTION BRIAN TRENT

Before the world fell, Silvio Cipriano was a contract killer for the Italian Mafia. When the H7D3 virus came to Italy, Silvio worked to forget his past to build a different future. Fighting to protect his loved ones from the zombie hordes, he organized the survivors, raised them up from the ashes, and gave them hope. Now a new enemy has arisen. Worse than the zombies and bent on conquering the planet, one nation at a time, they've set their sights on Italy with no idea what's awaiting them. At the publisher's request, this title is sold without DRM. Digital Rights Management. Praise for Brian Trent: Brian Trent is one of our very best new writers, and now's the time to start reading him. Robert J. Sawyer, bestselling and Hugo Award-winning author. Once begun, *Redspace Rising* will grip you by the throat like its soldier protagonist grips his many enemies and compel you to read it all the way to its jubilant, battered conclusion. And you'll be very grateful. Locus. Gritty action packed and relentless. *Redspace Rising* shows us a dark future in which battles are won but the war is never truly over. Trent's follow-up to *Ten Thousand Thunders* surpasses it in every way. Andrea Stewart, best-selling author of *The Bone Shard Daughter*. *Ten Thousand Thunders* is a remarkable book showcasing many of Brian Trent's talents. He has created a believable and fascinating future, visited it with a plot any science fiction writer would be proud to have created, and most important, populated it with believable, motivated characters. Hats off to the new kid on the science fiction block. Mike Resnick, 5-time Hugo Award winner. Brian Trent has crafted an ingenious masterpiece of military sci-fi. With its fast-paced action, double-crossing characters, and focus on personal identity and memory, *Redspace Rising* is like a literary sci-fi version of the Jason Bourne movie franchise, with Brian Trent serving as the virtuoso cameraman documenting the gripping adventures of our proficient but broken hero. *Grimdark Magazine*. Praise for *Black Tide Rising*: This anthology broadens Ringo's *Black Tide* world, serving up doses of humanity amid the ravenous afflicted. Comedy has a place in this harsh reality, and these stories stir adventure and emotion at a frantic clip throughout. *Zombie fiction fans will be thrilled*. Library Journal. Praise for the *Black Tide Rising Series*: Not only has Ringo found a mostly unexplored corner of the zombie landscape, he's using the zombie frame to tackle a broader theme: the collapse and rebirth of civilization. The zombie scenes are exciting, sure, but it's the human story that keeps us involved. A fine series. Booklist.
