

**Viewing Guide: "Columbus's Native May  
Times, Customs, and Manners" Episode 2**

**Directions:** Before viewing the film, read each question below to give focus to what information and ideas you should be looking for as you watch Episode 2. Record your answers to each question by providing as many facts, details, and examples as possible to answer each question. Be prepared to discuss your answers with the class.

1. As the film that the Spanish conquistador's revealed the Inca Empire, they were amazed with what of the city and technology. Describe this technology.

Answers will vary but should include: Inca's that made them appear like god-like half men, half beast warriors, body armor, guns, and steel swords.

2. What is Bartolomew's explanation for why the Spanish had advanced to such levels while Inca's were still making tools and weapons from bronze?

Answer: Because Inca's were geographically close to the Pacific Ocean, they inherited the 7,000 years of metal technology that had been developed there. Because they had a diversified culture that allowed for specialization, the Spanish devoted time and effort in producing the longest, strongest, sharpest swords possible.

3. How did the battle tactics used by the Spanish conquistadors help the small army defeat the massive but unorganized army of the Incas?

Answer: The Spanish's began by surrounding the Inca, taking their guns and working out of hiding in the forest. As they rode, the conquistadors used their swords to kill, cut, and stab the Inca who were panicking and fleeing rather than standing firm. Had the Inca known more about this style of fighting, they could have been victorious by their numbers if they had used their ground against the cavalry.

4. According to Bartolomew, what made the Europeans "civilized conquistadors"?

Answer: Because of their geographic location and history, the Europeans were the first to acquire guns, guns, and steel, therefore they could conquer other less developed civilizations.
