Wal-Mart World Beata K. Smarzynska Javorcik, Wolfgang Keller, James R. Tybout, 2006 This paper uses a case study approach to explore the effects of NAFTA and GATT membership on innovation and trade in the Mexican soaps detergents and surfactants SDS industry Several basic findings emerge First the most fundamental effect of the NAFTA and the GATT on the SDS industry was to help induce Wal Mart to enter Mexico Once there Walmex fundamentally changed the retail sector forcing SDS firms to cut their profit margins and innovate Those unable to respond to this new environment tended to lose market share and in some cases disappear altogether Second partly in response to Walmex many Mexican producers logged impressive efficiency gains during the previous decade These gains came both from labor shedding and from innovation which in turn was fueled by innovative input suppliers and by multinationals bringing new products and processes from their headquarters to Mexico Finally although Mexican detergent exports captured an increasing share of the U S detergent market over the past decade Mexican sales in the U S were inhibited by a combination of excessive shipping delays at the border and artificially high input prices due to Mexican protection of domestic caustic soda suppliers They were also held back by the major retooling costs that Mexican producers would have had to incur to establish brand recognition among non Latin consumers and to comply with zero phosphate laws in many regions of the U S **The Wal-Mart Success Story**
