Troia Fr H Mitte Stratigraphie Chronologie:

Brill's Companion to Warfare in the Bronze Age Aegean, 2023-12-11 Aegean prehistory was born out of the search for the Trojan War Since the time of Heinrich Schliemann new forms of evidence have come to light and innovative questions have arisen including examinations of warfare as a concept This volume interrogates the nature of warfare in the Bronze Age Aegean for scholars and teachers with knowledge of the ancient Mediterranean who wish to access the state of the field when it comes to the ways that specialists approach warfare in the prehistoric Aegean Authors review evidence consider the social and cultural place of war and revisit longstanding questions **Beyond Thalassocracies** Evi Gorogianni, Peter Pavuk, Luca Girella, 2016-08-31 *Beyond Thalassocracies* aims to evaluate and rethink the manner in which archaeologists approach understand and analyze the various processes associated with culture change connected to interregional contact using as a test case the world of the Aegean during the Late Bronze Age c 1600 1100 BC The 14 chapters compare and contrast various aspects of the phenomena of Minoanisation and Mycenaeanisation both of which share the basic underlying defining feature of material culture change in communities around the Aegean This change was driven by trends manifesting themselves in the dominant palatial communities of each period of the Bronze Age Over the past decade our understanding of how these processes developed and functioned has changed considerably Whereas current discussions on Minoanisation have already been informed by more recent theoretical trends especially in material culture studies and post colonial theory the process of Mycenaeanisation is still very much conceptualized along traditional lines of explanation Since these phenomena occurred in chronological sequence it makes sense that any reappraisal of their nature and significance should target those regions of the Aegean basin that were affected by both processes highlighting their similarities and differences Thus in the present volume we focus on the southern and eastern Aegean in particular the Cyclades Dodecanese and the north eastern Aegean islands *Ancient Methone, 2003-2013* Sarah P. Morris, John K Papadopoulos, 2023-12-31 Excavations at ancient Methone since 2003 by the Greek Ministry of Culture have uncovered remains from the Late Neolithic period through the fourth century B C destruction by Philip II of Macedon These discoveries extend the history of the city a colony of Eretria Euboea since the late eighth century B C by nearly three thousand years into Greek prehistory This volume presents results of the project in selected artefacts burials and structures representing the chief phases of the city in chronological order An introduction covers historical sources excavations from 2003 to 2013 and the unique location of Methone Part I details the prehistoric settlement at Methone from the fourth millennium to 1000 B C and the Bronze Age burials Part II focuses on the copious artifacts and ecofacts from the Early Iron Age Hypogeion shaft Part III presents artifacts and architecture from the Archaic and Classical periods through the final days of the siege of the city in 354 B C The significance of this work lies in its interdisciplinary methods combining stylistic analysis of artifacts and source critical philology with natural history bioarchaeology materials analysis and geochemistry whose results reveal the long term history

of a site crucial to the economic and political history of Classical Greece and the north Aegean Aegaeum ,1987 *Troia*
