The Whisky Tasting Guide Graham Moore,2014-06-12 Why should you buy this book Easy I ve written a straightforward and easy to follow guide to malt whiskies which will point you straight in the direction of malts which will be to your taste based

on whiskies you'll probably be familiar with and which are readily available to try out in many pubs. Based on those malts I'll show you which are similar in character so you'll know that if you like such and such a whisky then you'll probably like these also. The tasting notes give an overall guide to each malt and I've concentrated on the distillers' standard readily available bottlings without trying to confuse you with details of other variants. If you find a malt which invites further investigation you'll probably find a number of bottlings and knowing it's to your taste your explorations will be well founded. Many people stick to the same brands or don't know what else to look for. There are hundreds of malts out there all crying out to be tried and this guide will point you in the direction of malts to try based on your established tastes. I'm sure you won't be disappointed.
