,1870 *Ethnography as Christian Theology and Ethics* Christian Scharen,Aana Marie Vigen,2011-04-28 This book is a
primary resource in the new and growing field of Christian Ethnography In response to a variety of critical intellectual
currents post colonial post modern and post liberal scholars in Christian theology and ethics are increasingly taking up the
tools of ethnography as a means to ask fundamental moral questions and to make more compelling and credible moral claims
Privileging particularity rather than the more traditional effort to achieve universal or at least generalizable norms in making
claims regarding the Christian life echoes the most fundamental insight of the Christian tradition that God is known most
fully in Jesus of Nazareth Echoing this scandal of particularity at the heart of the Christian tradition theologians and ethicists
involved in ethnographic research draw on the particular to seek out answers to core questions of their discipline who God is
and how we become the people we are how to conceptualize moral agency in relation to God and the world and how to flesh
out the content of conceptual categories such as justice that help direct us in our daily decisions and guiding institutions
