Joseph Wolff Joseph Wolff,1861 *Classical Horizons* George E. McCarthy,2012-02-01 2003 CHOICE Outstanding Academic Title This work relocates the origins of nineteenth century social theory in classical Greece and focuses on three figures Karl Marx Max Weber and mile Durkheim all of whom wrote dissertations on the culture and structure of ancient society Greek philosophy art and politics inspired their ideas stirred their imaginations and defined their intellectual horizons McCarthy rediscovers the forgotten dreams and classical horizons of these European social theorists and uncovers the close connections between sociology and philosophy offering new insights into the methods theories and approaches of modern social science *Feminist Politics* Deborah Orr,2007 The essays in Feminist Politics contest some of the prevailing conceptualizations of identity and difference as well as the functions of these concepts in feminist political discourse and praxis Doing so they amply demonstrate that issues of identity and difference have a central place in contemporary feminist scholarship The authors of these essays have worked to develop new ways of understanding and living out differences which will both preserve and celebrate them while also fostering the necessary conditions for opening dialogue and forming new coalitions The intent of these efforts has been to thereby engender imaginative new strategies for the personal spiritual and sociopolitical changes that will enable human growth wellbeing and flourishing While the focus of the work represented here is understandably on women the issues that are raised are given additional urgency explicitly in some of the papers and implicitly in others by the situation of their concerns in the context of the world created by the Bush administration Because that administration has foregrounded issues of identity and difference in ways that are not only inhumane and often inaccurate but dangerous for all of us the new ways of thinking and acting that are proposed here have a much broader application Thus these papers truly invite not only feminists but all people to move in new directions Taken as a whole this volume represents cutting edge thinking from an international perspective in these important and pressing areas for feminist research and praxis **The Opal** ,1852 *The Freemason's Monthly Magazine* ,1844 *Of the Law of Nature and Nations* Samuel Freiherr von Pufendorf,2005 **The Philosophy of Law** Christopher Berry Grey,2013-07-04 From articles centering on the detailed and doctrinal exposition of the law to those which reside almost wholly within the realm of philosophical ethics this volume affords comprehensive treatment to both sides of the philosophico legal equation Systematic and sustained coverage of the many dimensions of legal thought gives ample expression to the true breadth and depth of the philosophy of law with coverage of The modes of knowing and the kinds of normativity used in the law Studies in international constitutional criminal administrative persons and property contracts and tort law including their historical
