Unpopular Catholic Truths Oswald Sobrino, 2003-08. The beliefs of the Catholic Church are under constant attack. This book boldly asserts the reasonableness of several unpopular Catholic truths in the teeth of these attacks. The author presents an intelligent and assertive case for Catholic teaching on abortion, sexuality and contraception. This book does not shy away from presenting the reasons why Catholics limit the priesthood to males in an age that sees any exclusivity as unjust discrimination. In a time when many question the historical origins of the papacy, this book dares to present the New Testament evidence showing that Peter was indeed the first bishop of Rome from whom papal authority derives.

Catholic Schools and the Future of the Church Kathleen Engebretson, 2014-02-27. During the first decade of the 21st century, the Catholic Church in the developed world has faced a decline in its moral authority, increasing accusations of irrelevance to a secular age, and a steep and steady decline in commitment among successive generations from the 1960s on. Despite this, Catholic schools have multiplied and grown in popularity and educational achievement. The book sets out a programme for the contribution of Catholic schools to the future of the Church, covering such topics as the religious education curriculum in its cognitive and affective aspects, the sacramental life of the school, selection of staff, the issue of staff and Catholic witness, and many other topics. Engebretson argues that Catholic schools are a powerful key to the future of the Church and shows how, within their diversity, Catholic schools can be ecclesial communities which have at their heart the building up of the Church.

Priestly Identity Thomas J. McGovern, 2010-04-01. It is generally accepted that since the end of Vatican II there has been a crisis in the Catholic priesthood. This is reflected in two areas in particular: defections from the priesthood and a serious decline in vocations, primarily in the developed countries of the West. John Paul II has addressed this situation many times during his pontificate, especially in *Pastores dabo vobis*, where he offers a clear theological vision and a program of formation to overcome the current crisis of priestly identity. In his new book, McGovern offers a deep analysis of the Pope's theology of priesthood, drawing not only from *Pastores dabo vobis* but also from his Holy Thursday Letters and other important writings on this topic. In this study, the author deals with core aspects of priestly identity under three main headings: theological, spiritual, and pastoral, in the context of service to the lay faithful and the evangelization required of the Church in the new millennium.
