Why Voice Matters Culture And Politics After Neoliberalism:

Why Voice Matters Nick Couldry, 2010-06-14 One of the best books I have read in years about what it means to engage neoliberalism through a critical framework that highlights those narratives and stories that affirm both our humanity and our longing for justice It should be read by everyone concerned with what it might mean to not only dream about democracy but to engage it as a lived experience and political possibility Henry Giroux McMaster University An important and original book that offers a fresh critique of neoliberalism and its contribution to the contemporary crisis of voice Couldry's own voice is clear and impassioned an urgent must read Rosalind Gill King's College London For more than thirty years neoliberalism has declared that market functioning trumps all other social political and economic values In this book Nick Couldry passionately argues for voice the effective opportunity for people to speak and be heard on what affects their lives as the only value that can truly challenge neoliberal politics But having voice is not enough we need to know our voice matters Insisting that the answer goes much deeper than simply calling for more voices whether on the streets or in the media Couldry presents a dazzling range of analysis from the real world of Blair and Obama to the social theory of Judith Butler and Amartya Sen **Why Voice Matters** breaks open the contradictions in neoliberal thought and shows how the mainstream media not only fails to provide the means for people to give an account of themselves but also reinforces neoliberal values Moving beyond the despair common to much of today's analysis Couldry shows us a vision of a democracy based on social cooperation and offers the resources we need to build a new post neoliberal politics

Why Voice Matters Nick Couldry, 2010-07-14 In this book Nick Couldry passionately argues for voice the effective opportunity for people to speak and be heard on what affects their lives as the only value that can truly challenge neoliberal politics But having voice is not enough we need to know our voice matters Insisting that the answer goes much deeper than simply calling for more voices whether on the streets or in the media Couldry presents a dazzling range of analysis from the real world of Blair and Obama to the social theory of Judith Butler and Amartya Sen This book breaks open the contradictions in neoliberal thought and shows how the mainstream media not only fails to provide the means for people to give an account of themselves but also reinforces neoliberal values

Authentic™ Sarah Banet-Weiser, 2012-11-26 A stimulating smart book on what it means to live in a brand culture Brands are everywhere Branding is central to political campaigns and political protest movements the alchemy of social media and self branding creates overnight celebrities the self proclaimed greening of institutions and merchant goods is nearly universal But while the practice of branding is typically understood as a tool of marketing a method of attaching social meaning to a commodity as a way to make it more personally resonant with consumers Sarah Banet Weiser argues that in the contemporary era brands are about culture as much as they are about economics That in fact we live in a brand culture ***Authentic™*** maintains that branding has extended beyond a business model to become both reliant on and reflective of our most basic social and cultural relations Further these types of brand relationships have become cultural contexts for

everyday living individual identity and personal relationships what Banet Weiser refers to as brand cultures Distinct brand cultures that at times overlap and compete with each other are taken up in each chapter the normalization of a feminized self brand in social media the brand culture of street art in urban spaces religious brand cultures such as New Age Spirituality and Prosperity Christianity and the culture of green branding and shopping for change In a culture where graffiti artists loan their visions to both subway walls and department stores buying a cup of fair trade coffee is a political statement and religion is mass marketed on t shirts Banet Weiser questions the distinction between what we understand as the authentic and branding practices But brand cultures are also contradictory and potentially rife with unexpected possibilities leading Authentic™ to articulate a politics of ambivalence creating a lens through which we can see potential political possibilities within the new consumerism

Believability Sarah Banet-Weiser, Kathryn Claire Higgins, 2023-04-05 The MeToo movement created more opportunities for women to speak up about sexual assault But we are also living in a time when fake news and alternative facts call into question the very nature of truth This troubling paradox is at the heart of this compelling book The convergence of MeToo and the crisis of post truth is used to explore the experiences of women and people of color whose claims around issues of sexual violence are often held in doubt Banet Weiser and Higgins investigate how the gendered and racialized logics of believability are defined and contested within media culture proposing that a mediated economy of believability is the context in which public bids for truth about sexual violence are made negotiated and authorized today

Speaking Up and Talking Back? Thomas Tufte, Norbert Wildermuth, Anne Sofie Hansen-Skovmoes, W. V. Mitullah, 2013 The theme echoes some of the claims made by disenchanted and frustrated youth and other citizens in the streets of North Africa's cities in 2011 and 2012

Being a Young Citizen in Estonia Anne Kaun, 2013 The book gives an intriguing insight into how young people in Estonia twenty years after the establishment of democracy perceive their own role as citizens It does so in a theoretical framework that stresses the embeddedness of the civic experiences in a media dominated environment thus closely linking civic and media experiences Based on the analysis of both qualitative interview data and a relatively new method of using the internet as a complementary tool for engaging with open ended diaries the study explores the extent to which young citizens experience the media as being interwoven with their everyday lives and in fact constitutive of their social reality as citizens With its particular focus on young Estonians i.e. on a generation that has been brought up in a context of rapid political economic and social change and that is well known for its fascination with new communication technologies the book is a valuable contribution to the growing international research on media and civic experiences

Föreställda Finlandssvenskheter Sven-Erik Klinkmann,Blanka Henriksson,Andreas Häger,2017 Listening Beyond the Echoes Nick Couldry,2015-12-03 In this book Nick Couldry media and cultural theorist from the London School of Economics asks what are the priorities for media and cultural research today at a time of the intensified mediation of all fields of social life threats to democratic legitimacy and serious instability on the global political stage The book calls for a decentered media research that rejects easy assumptions about media s role in holding societies together and instead looks more critically at the difference media make on the ground to the material conditions of our lives In what detailed ways do media transform knowledge and agency in daily life How do media contribute to the culture of democratic politics And most difficult of all how can we live ethically with and through media Couldry s previous work is well known for its breadth ranging across media sociology media theory and cultural theory Here he draws also on political theory and ethics to develop a tightly argued account of how media and cultural research must now reorient itself if it is to remain relevant and critical Nick Couldry is Reader in Media Communications and Culture at the London School of Economics and Political Science He is the author or editor of five books including Media Rituals A Critical Approach Routledge 2003 The Place of Media Power Routledge 2000 and coedited with James Curran Contesting Media Power Rowman and Littlefield 2003 Capitalisme mondial, gouvernance et communauté International Political Science Association.
