contemporary culture at the turn of the twenty first century has been fascinated with teenage identity and the presence of magic and the occult. Alongside this profusion of products and representations a global network of teenage Witches has emerged on the margins of adult neopagan Witchcraft communities identifying themselves through various spiritual practices, consumption patterns and lifestyle choices. *The New Generation Witches* is the first published anthology to investigate the recent rise of the teenage Witchcraft phenomenon in both Britain and North America. Scholars from Theology, Cultural Studies, Sociology, History and Media Studies along with neopagan commentators outside of the academy come together to investigate the experiences of thousands of adolescents constructing an enabling magical identity through a distinctive practice of Witchcraft. The contributors discuss key areas of interest: inspiration and development within the teen Witch communities from the mid 1990s onward; including teenage Witches' magical practices and beliefs, gender politics, the formation and identification of communities, forums and modes of expression, media representation and new media outlets. Demonstrating the diversification and expansion of neopaganism in the twenty first century, this anthology makes an exciting contribution to the field of Neopagan Studies and contemporary youth cultures.

Religion, Attire, and Adornment in North America Marie W. Dallam, Benjamin E. Zeller, 2023-05-23. Clothing, dress and ornamentation are crucial parts of individual and communal religious life and practice yet they are too often overlooked. This book convenes leading scholars to explore the roles of attire and adornment in the creation and communication of religious meaning, identity and community. Contributors investigate aspects of religious dress in North America in the nineteenth, twentieth and twenty first centuries, considering adornment practices in a wide range of religious traditions and among individuals who straddle religious boundaries. The collection is organized around four frameworks for understanding the material culture of religion: theological interpretation, identity formation, negotiation of tradition and activism. *Religion, Attire and Adornment in North America* features essays on topics such as Black Israelites' use of African fabrics, Christian religious tattoos, Wiccan ritual nudity, Amish plain dress, Mormon sacred garments, Hare Krishna robes and the Church of Body Modification. Spanning the diversity of religious practice and expression, this book is suitable for a range of undergraduate courses and offers new insights for scholars in many disciplines.
