Treating Explosive Kids The Collaborative Problem Solving Approach:

Treating Explosive Kids Ross W. Greene, J. Stuart Ablon, 2005-10-18 The first comprehensive presentation for clinicians of the groundbreaking approach popularized in Ross Greene's acclaimed parenting guide *The Explosive Child* this book provides a detailed framework for effective individualized intervention with highly oppositional children and their families. Many vivid examples and Q & A sections show how to identify the specific cognitive factors that contribute to explosive and noncompliant behavior, remediate these factors, and teach children and their adult caregivers how to solve problems collaboratively. The book also describes challenges that may arise in implementing the model and provides clear and practical solutions. Two special chapters focus on intervention in schools and in therapeutic restrictive facilities. **Treating**

Alisha R. Pollastri, J. Stuart Ablon, Michael J.G. Hone, 2019-06-06 This book is the first to systematically describe the key components necessary to ensure successful implementation of Collaborative Problem Solving (CPS) across mental health settings and non-mental health settings that require behavioral management. This resource is designed by the leading experts in CPS and is focused on the clinical and implementation strategies that have proved most successful within various private and institutional agencies. The book begins by defining the approach before delving into the neurobiological components that are key to understanding this concept. Next, the book covers the best practices for implementation and evaluating outcomes both in the long and short term. The book concludes with a summary of the concept and recommendations for additional resources, making it an excellent concise guide to this cutting-edge approach. Collaborative Problem Solving is an excellent resource for psychiatrists, psychologists, social workers, and all medical professionals working to manage troubling behaviors. The text is also valuable for readers interested in public health, education, improved law enforcement strategies, and all stakeholders seeking to implement this approach within their program, organization, and/or system of care.

Using Trauma-Focused Therapy Stories Pat Pernicano,2021-08-29 Using Trauma Focused Therapy Stories is a groundbreaking treatment resource for trauma informed therapists who work with abused and neglected children ages nine years and older as well as their caregivers The classic edition includes a new

preface from the author reflecting on changes in the field since the book's initial publication. The therapy stories are perfect accompaniments to evidence-based treatment approaches and provide the foundation for psychoeducation and intervention with the older elementary-aged child or early pre-teen. Therapists will also benefit from the inclusion of thorough guides for children and caregivers which illustrate trauma and developmental concepts in easy-to-understand terms. The psychoeducational material in the guides, written at a third to fourth grade reading level, may be used within any trauma-informed therapy model in the therapy office or sent home for follow-up. Each therapy story illustrates trauma concepts, guides trauma narrative and cognitive restructuring work, and illuminates caregiver blind spots. The caregiver stories target issues that often become barriers to family trauma recovery. No therapist who works with young trauma survivors will want to be without this book, and school-based professionals, social workers, psychologists, and others committed to working with traumatized children will find the book chock-full of game-changing ideas for their practice.

Deaf Mental Health Care Neil S. Glickman, 2013-01-04. This volume presents a state-of-the-art account of the clinical specialty of mental health care of deaf people. Drawing upon some of the leading clinicians, teachers, administrators, and researchers in this field from the United States and Great Britain, it addresses critical issues from this specialty such as Deaf hearing cross-cultural dynamics as they impact treatment organizations, clinical and interpreting work with deaf persons with widely varying language abilities, adaptations of best practices in inpatient residential trauma and substance abuse treatment for deaf persons, overcoming administrative barriers to establishing statewide continua of care, university training of clinical specialists, the interplay of clinical and forensic responses to deaf people who commit crimes, an agenda of priorities for Deaf mental health research. Each chapter contains numerous clinical case studies and places a heavy emphasis on providing practical intervention strategies in an interesting, easy-to-read style. All mental health professionals who work with deaf individuals will find this to be an invaluable resource for creating and maintaining culturally affirmative treatment with this population.

Parenting for a Happier Home Stuart Passmore, 2016-03-21. Being a parent can be tough, and there are times when you just don't have all the answers. For parents who find themselves faced with a seemingly endless spiral of conflict, poor behaviour, and ineffective discipline, this is the evidence-based parenting program they've been waiting for. Divided into 12 sessions, it first focuses on developing a strong relationship between parent and child. Once a firm foundation of parenting strategies has been developed, the program then moves onto effective discipline. The discipline program is designed so that it is self-sustaining and allows the parent to step back from what is often an emotionally charged situation and instead use predetermined consequences. It also emphasises teaching children ownership of their behaviour. The beauty of this program is that the principles can be used in each of the child's environments: at home, at school, with grandparents, etc. While it has also been designed so that any parent can use it, as well as those with children who have been diagnosed with behavioural disorders such as ADHD, Oppositional Defiance Disorder, or explosive and non-compliant behaviour, it's a commonsense practical guide to getting your

kids back on track and creating a happier home
