The Carbon Farming Solution Eric Toensmeier, 2016 Agriculture is rightly blamed as a major culprit of our climate crisis But in this groundbreaking new book Eric Toensmeier argues that agriculture specifically the subset of practices known as carbon farming can and should be a linchpin of a global climate solutions platform

The Community Food Forest Handbook Catherine Bukowski, John Munsell, 2018-08-21 Collaboration and leadership strategies for long term success Fueled by the popularity of permaculture and agroecology community food forests are capturing the imaginations of people in neighborhoods towns and cities across the United States Along with community gardens and farmers markets community food forests are an avenue toward creating access to nutritious food and promoting environmental sustainability where we live Interest in installing them in public spaces is on the rise People are the most vital component of community food forests but while we know more than ever about how to design food forests the ways in which to best organize and lead groups of people involved with these projects has received relatively little attention In The Community Food Forest Handbook Catherine Bukowski and John Munsell dive into the civic aspects of community food forests drawing on observations group meetings and interviews at over 20 projects across the country and their own experience creating and managing a food forest They combine the stories and strategies gathered during their research with concepts of community development and project management to outline steps for creating lasting public food forests that positively impact communities Rather than rehash food forest design which classic books such as Forest Gardening and Edible Forest Gardens address in great detail The Community Food Forest Handbook uses systems thinking and draws on social change theory to focus on how to work with diverse groups of people when conceiving of designing and implementing a community food forest To find practical ground the authors use management phases to highlight the ebb and flow of community capitals from a project s inception to its completion They also explore examples of positive feedbacks that are often unexpected but offer avenues for enhancing the success of a community food forest The Community Food Forest Handbook provides readers with helpful ideas for building and sustaining

momentum working with diverse public and private stakeholders integrating assorted civic interests and visions within one project creating safe and attractive sites navigating community policies positively affecting public perception and managing site evolution and adaptation Its concepts and examples showcase the complexities of community food forests highlighting the human resilience of those who learn and experience what is possible when they collaborate on a shared vision for their community A highly useful guide based on the collective wisdom of people and communities who are defining this practice as they develop it on the ground The thoughtful analysis of planning strategies and numerous case studies of active projects help us all understand what community food forests are and can be for the future Steve Gabriel author of *Silvopasture* and coauthor of *Farming the Woods* *Miraculous Abundance* Perrine Hervé-Gruyer, Charles Hervé-Gruyer, 2016 The Bec Hellouin model for growing food sequestering carbon creating jobs and increasing biodiversity without using fossil fuels When Charles and Perrine Hervé Gruyer set out to create their farm in an historic Normandy village they had no idea just how much their lives would change Neither one had ever farmed before Charles had been circumnavigating the globe by sail operating a floating school that taught students about ecology and indigenous cultures Perrine had been an international lawyer in Japan Each had returned to France to start a new life Eventually Perrine joined Charles in Normandy and Le Ferme du Bec Hellouin was born Bec Hellouin has since become a celebrated model of innovative ecological agriculture in Europe connected to national and international organizations addressing food security heralded by celebrity chefs as well as the Slow Food movement and featured in the inspiring C sar and COLCOA award winning documentary film *Demain Tomorrow* *Miraculous Abundance* is the eloquent tale of the couple s evolution from creating a farm to sustain their family to delving into an experiment in how to grow the most food possible in the most ecological way possible and create a farm model that can carry us into a post carbon future when oil is no longer moving goods and services energy is scarcer and localization is a must Today the farm produces a variety of vegetables using a mix of permaculture bio intensive four season and natural farming techniques as well as techniques gleaned from native cultures around the world It has some animals for eggs and milk horses for farming a welcome center a farm store a permaculture school a bread oven for artisan breads greenhouses a cidery and a forge It has also become the site of research focusing on how small organic farms like theirs might confront Europe s and the world s projected food crisis But in this honest and engaging account of the trials and joys of their uncompromising effort readers meet two people who are farming the future as much as they are farming their land They envision farms like theirs someday being the hub for a host of other businesses that can drive rural communities from bread makers and grain millers to animal care givers and other tradespeople Market farmers and home gardeners alike will find much in these pages but so will those who ve never picked up a hoe The couple s account of their quest to design an almost Edenlike farm hone their practices and find new ways to feed the world is an inspiring tale It is also a love letter to a future in which people increasingly live in rural communities that rely on traditional skills locally created and purveyed goods and

services renewable energy and greater local governance but are also connected to the larger world
