Convention on Contracts for the International Sale of Goods (CISG) Joseph Lookofsky, 2022-01-21 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of contracts in Convention on Contracts for the International Sales of Goods CISG and

Wales covers every aspect of the subject definition and classification of contracts contractual liability relation to the law of property good faith burden of proof defects penalty clauses arbitration clauses remedies in case of non performance damages power of attorney and much more Lawyers who handle transnational contracts will appreciate the explanation of fundamental differences in terminology application and procedure from one legal system to another as well as the international aspects of contract law Throughout the book the treatment emphasizes drafting considerations An introduction in which contracts are defined and contrasted to torts quasi contracts and property is followed by a discussion of the concepts of consideration or cause and other underlying principles of the formation of contract Subsequent chapters cover the doctrines of relative effect termination of contract and remedies for non performance The second part of the book recognizing the need to categorize an agreement as a specific contract in order to determine the rules which apply to it describes the nature of agency sale lease building contracts and other types of contract Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for business and legal professionals alike Lawyers representing parties with interests in Convention on Contracts for the International Sales of Goods CISG and Wales will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative contract law *Forum Shopping Despite Unification of Law* Franco Ferrari, 2021-08-16 Watch the interview with Franco Ferrari on Forum Shopping Despite Unification of Law According to some commentators forum shopping is an evil that must be eradicated It has been suggested that the unification of substantive law through international conventions constitutes one way to achieve this outcome This book shows that the drafting of uniform substantive law convention cannot prevent forum shopping The reasons are classified into two main categories convention extrinsic and convention intrinsic reasons The former category comprises those reasons upon which uniform substantive law conventions do not have an impact at all These reasons range from the costs of access to justice to the bias of potential adjudicators to the enforceability of judgments The convention intrinsic reasons on the other hand are reasons that relate to the nature and design of uniform substantive law conventions and include their limited substantive and international spheres of application as well as their limited scope of application the need to provide for reservations etc This book also focuses on another reason why forum shopping cannot be overcome the impossibility of ensuring uniform applications and interpretations of the various uniform substantive law conventions **European Insolvency Regulation 2015** Ulrich Magnus, 2025-06-30 The youngest volume of the renowned series of European Commentaries edited by Ulrich Magnus and Peter Mankowski covers the European Insolvency Regulation This Regulation in its recast version of 2015 is of great practical importance It primarily regulates when courts in the EU are competent to deal with insolvency proceedings which have transborder effects which law is applicable in such proceedings the conditions under

which insolvency proceedings are to be recognized in other EU States and how courts and insolvency practitioners should cooperate in transborder situations The Commentary provides an in depth presentation and discussion of each article and pays particular attention to the insolvency decisions of the European Court of Justice but also to national case law The team of authors is as well truly European It is formed of outstanding experts from all over Europe Cambridge Compendium of International Commercial and Investment Arbitration Stefan Kröll,Andrea K. Bjorklund,Franco Ferrari,2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain distinct features particular to each *Balkan Yearbook of European and International Law 2020* Zlatan Meškić,Ivana Kunda,Dušan V.
