Youth Unemployment and State Intervention Paul Atkinson,Teresa L. Rees,2022-08-19 In the early 1980s against the background of chronic unemployment in Britain the particular plight of young people had come to be identified as a subject for special concern Anxieties were expressed as they were in the 1930s as a twin concern for a waste of the nation s resources and for the demoralization of youth leading potentially to anti social behaviour Originally published in 1982 this volume of essays identifies a number of key issues in the pattern of state response to youth unemployment which had evolved in the inter war and post war periods The contributors discuss a number of related themes such as how the problem has been defined and created as a kind of moral panic and how contemporary measures recapitulate the rhetoric and policies of pre war interventions They examine the relationship between youth unemployment measures and the education sector the responses of the trade unions and also consider how young people themselves respond to special programmes A critical assessment is made of the further education elements in the special measures in particular the question is asked do these young people need social and life skills training The book charts the changing nature of the state response to youth unemployment since 1974 and stresses throughout the inappropriate nature of temporary amelioration of a long term even permanent problem *Growing Up With Unemployment* Anthony H. Winefield,2005-08-18 The transition from school to work is a major developmental stage for young people Yet in recent years this rite of passage has been hindered by the lack

of jobs for school leavers *Growing Up with Unemployment* describes a major long term study of the psychological impact of unemployment It broadly surveys the theories and methods of studying the problem and will have key implications for policy Importantly the authors show how leaving school rather than getting a job is the more significant event for young people *Growing Up with Unemployment* will be of interest to students of psychology and social policy as well as all those who deal with young people
