Lessons from Laodicea Ross A. Lockhart, 2016-04-08 I'm rich and I don't need a thing bragged the early Christians in the big city of Laodicea. The Apostle John however saw their affluence and arrogance through a theological lens. He declared them to be bankrupt lukewarm Christians whom God would gladly gargle and spit out. Today the mainline church in the West finds itself in a dominant culture of Laodicean affluence where even faith is a commodity to be consumed. While the gospel spreads and thrives in the global South and East the Western mainline church looks longingly back at Christendom and forward in fear. As Christians living in a North American culture that highly prizes the unholy Trinity of individualism, consumerism and secularism we require a new kind of missional leadership to pray attention to what God is doing in the world around us. This book names the challenges and promises inherent in partnering with the Holy Spirit in order to offer missional leadership in a culture of affluence. It is about both living in Laodicea and leaving it behind. We are no longer in a Babylonian captivity but a Laodicean one. This work helps chart a course for Christians who long to let go of country club religion and instead belong to a community that helps equip missionary disciples resistant to the dominant culture and resplendent in the love of our triune God.

One Generation from Extinction Mark Griffiths, 2012-09-12 When Robert Raikes started his first Sunday School in 1780 he saw his idea grow to reach 300,000 unchurched children within five years. This in a nation widely ignorant of Christian ideas and values. Mark Griffiths has used Raikes' pioneering work in examining child evangelism in the UK. Working from extensive local and national research leading to a PhD he considers how children tick, what basic theology is at work in Christian outreach and what constitutes best practice in child evangelism. His text is studded with insights and observations and brings together the author's passion for his subject with the rigour of careful research. This is an unparalleled resource laying the foundations of future growth.
