Zen Ritual Studies Of Zen Buddhist Theory In Practice:

Zen Ritual Steven Heine, Dale S. Wright, 2007-11-14 When books about Zen Buddhism began appearing in Western languages just over a half century ago there was no interest whatsoever in the role of ritual in Zen. Indeed, what attracted Western readers' interest was the Zen rejection of ritual. The famous Beat Zen writers were delighted by the Zen emphasis on spontaneity as opposed to planned repetitious action and wrote inspirationally about the demythologized, anti-ritualized spirit of Zen. Quotes from the great Zen masters supported this understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West. Once Western practitioners in these centers began to practice Zen seriously, however, they discovered that zazen (Zen meditation) is a ritualized practice supported by centuries-old ritual practices of East Asia. Although initially in tension with the popular anti-ritual image of ancient Zen masters, interest in Zen ritual has increased along with awareness of its fundamental role in the spirit of Zen. Eventually, Zen practitioners would form the idea of no-mind or the open and awakened state of mind in which ingrained habits of thinking give way to more receptive, direct forms of experience. This notion provides a perspective from which ritual could gain enormous respect as a vehicle to spiritual awakening, and thus this volume seeks to emphasize the significance of ritual in Zen practice. Containing 9 articles by prominent scholars about a variety of topics including Zen rituals, *kinhin* and *zazen*, this volume covers rituals from the early Chan period to modern Japan. Each chapter covers key developments that occurred in the Linji, Rinzai, and Caodong Soto schools of China and Japan, describing how Zen rituals mold the lives and characters of its practitioners, shaping them in accordance with the ideal of Zen awakening. This volume is a significant step towards placing these practices in a larger historical and analytical perspective.

Zen Ritual Steven Heine, Dale Stuart Wright, 2008 Written by prominent scholars, this text covers rituals from the early Chan period to modern Japan and key developments that occurred in the Linji, Rinzai, and Caodong Soto schools. It describes how rituals mould the lives of its practitioners in accordance with the ideal of Zen awakening.

The Theory and Practice of Zen Buddhism Charles S. Prebish, On-cho Ng, 2022-02-15 This book brings together an impressive group of scholars to critically engage with a wide-ranging and broad perspective on the historical and contemporary phenomenon of Zen. The structure of the work is organized to reflect the root and branches of Zen, with the root referring to important episodes in Chan/Zen history within the Asian context and the branches referring to more recent development in the West. In collating what has transpired in the last several decades of Chan/Zen scholarship, the collection recognizes and honors the scholarly accomplishments and influences of Steven Heine, arguably the most important Zen scholar in the past three decades. As it looks back at the intellectual horizons that this towering figure in Zen/Chan studies has pioneered and developed, it seeks to build on the grounds that were broken and subsequently established by Heine, thereby engendering new works within this enormously important religious/cultural scholarly tradition. This curated *Festschrift* is a tribute both retrospective and prospective, acknowledging the foundational work that Heine has forged and generates.

research that is both complementary and highly original This academic ritual of assembling a liber amicorum is based on the presumption that sterling scholarship should be honored by conscientious scholarship In the festive spirit of a Festschrift this anthology consists of the resounding voices of Heine and his colleagues It is an indispensable collection for students and scholars interested in Japanese religion and Chinese culture and for those researching Zen Buddhist history and philosophy
