You Are Not Human Simon Lancaster, 2018-09-11 In Nazi Germany Hitler portrayed the Jews as vermin and six million people were killed Metaphors can make the unreasonable seem reasonable the illegitimate appear legitimate and good people turn evil Top speechwriter Simon Lancaster goes on a mission to explore how metaphors are used and abused today From Washington to Westminster Silicon Valley to Syria Glastonbury to Grenfell he discovers the same images being used repeatedly Scum Bitch Vegetable Whilst vulnerable groups are dehumanised the powerful are hailed as stars angels or even gods Prepare to take a journey into the surreal This book raises profound questions about the power of language and the language of power You will never think about words in the same way again **Robert and John Pitcairn** William R. Huber, 2025-04-04 Scottish immigrants John and Robert Pitcairn following their friend Andrew Carnegie worked for the Pennsylvania Railroad transporting troops and supplies for the Union army during the Civil War John co founded the Pittsburgh Plate Glass Company eventually a key player in the U S glass industry while Robert managed the Pittsburgh Division of the Pennsylvania Railroad through the aftermath of the 1889 Johnstown flood The history of the Pitcairn brothers parallels the evolution of American industry and transportation during and after the Civil War This book provides a historical perspective on the 1877 railroad strike and other events that shaped the transportation industry and American industrialization It also examines the spiritual and philanthropic impact of the Pitcairn brothers Robert at the Shadyside Presbyterian Church near Pittsburgh and John at the Bryn Athyn religious community near Philadelphia Today the legacy of the Pitcairn brothers remains woven into the fabric of American industrialization revealing the intricate connections among industry transportation and philanthropy during the late 19th and early 20th centuries Mind Cure Wakoh Shannon Hickey, 2019-02-01 Mindfulness and yoga are widely said to improve mental and physical health and booming industries have emerged to teach them as secular techniques This movement is typically traced to the 1970s but it actually began a century earlier Wakoh Shannon Hickey shows that most of those who first advocated meditation for healing were women leaders of the Mind Cure movement which emerged during the late nineteenth and early twentieth centuries Instructed by Buddhist and Hindu missionaries many of these women believed that by transforming consciousness they could also transform oppressive conditions in which they lived For women and many African American men Mind Cure meant not just happiness but liberation in concrete political economic and legal terms In response to the perceived threat posed by this movement white male doctors and clergy with elite academic credentials began to channel key Mind Cure methods into scientific psychology and medicine As mental therapeutics became medicalized and commodified the religious roots of meditation like the social justice agendas of early Mind Curers fell by the wayside Although characterized as universal mindfulness has very specific historical and cultural roots and is now largely marketed by and accessible to affluent white people Hickey examines religious dimensions of the Mindfulness movement and clinical research about its effectiveness By treating stress related

illness individualistically she argues the contemporary movement obscures the roles religious communities can play in fostering civil society and personal wellbeing and diverts attention from systemic factors fueling stress related illness including racism sexism and poverty

Manfred Macmillan Carleton Bulkin, Brian James Baer, Jirí Karásek ze Lvovic, 2024-10-16 Decadence meets gothic in Manfred Macmillan 1907 a carefully constructed tale of doppelgangers magical intrigue and the rootless scion of a noble house This annotated first ever English translation presents an early queer novel long unavailable except in the original Czech Author Ji Kar sek ze Lvovic 1871 1951 was a major cultural figure in his native Bohemia and cultivated ties with fellow artists from across Central Europe In their extensive scholarly introduction translator Carleton Bulkin and translation scholar Brian James Baer situate the novel within longer histories of gay literature fascinations with the occult and the cultural and linguistic politics of so called peripheral European nations They persuasively frame Kar sek as a queer author and cultural disruptor in the fin de si cle Habsburg space Karas k rejected Czech translations of ancient Greek writers that bowdlerized gay themes and he personally and vigorously defended Oscar Wilde in print both on the grounds of artistic freedom and of private morality He also published a cycle of homoerotic poems under the title Sodom confiscated by the Austrian authorities but republished in 1905 and repeatedly afterward A colonized subject a literary decadent and a sexual outlaw Karas k s complex responses to his own marginalization can be traced through his fantastically strange novel trilogy Three Magicians As the first volume in that series Manfred Macmillan is a gorgeous compelling and important addition to expanding canons of LGBTQI literature

Reimagining God and Resacralisation Alexa Blonner, 2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion

Beyond Catherine Wolff, 2022-05-24 Beautifully written expertly researched and masterfully presented this tour of how heaven has been understood throughout history is absolutely

fascinating James Martin SJ author of *Jesus A Pilgrimage* A smart and thought provoking cultural history of heaven What do we think of when we think about heaven What might it look like Who or what might be there Since humans began to huddle together for protection thousands of years ago these questions have been part of how civilizations and cultures define heaven the good place beyond this one From Christianity to Islam to Hinduism and beyond from the brush of Michelangelo to the pen of Dante people across millennia have tried to explain and describe heaven in ways that are distinctive and analogous unique and universal In this engrossing cultural history of heaven Catherine Wolff delves into how people and cultures have defined heaven over the centuries She describes how different faiths and religions have framed it how the sense of heaven has evolved and how nonreligious influences have affected it from the Enlightenment to the increasingly nonreligious views of heaven today Wolff looks deep into the accounts of heaven to discover what's common among them and what makes each conception distinct and memorable The result is *Beyond* an engaging thoughtful exploration of an idea that is central to our humanity and our desire to define an existence beyond death

Mattering Spiritualities Silvia Battista, David Mason, 2025-03-31 *Mattering Spiritualities* brings together an array of international scholars and practitioners to explore spirituality in embodiment through the lens of performance performative writing and performance studies The book concerns spirituality and takes the body as the site of whatever it is we call spirituality The methodological assumption is that the opposition of body and spirit is a false binary that calls for re examination and revision It stems from the argument that people can deliberately shift their boundaries of perception and knowing through practice technologies and performative techniques that can alter the way in which they perceive the ecologies in which they are embedded This approach understands that careful attention to which bodies are performing in any given scenario is crucial as is a sensitivity to the ramifications of any body's race gender class and biological ability Performance can therefore be regarded as anything through which individuals and collectives experiment with bodies as technologies Each chapter engages with such experiments to explore how bodies experience and relate to other bodies human and other than human but also how by mobilizing bodies and changing relationships between them practitioners can transform people spaces and places objects ecologies large and small and shift the borders of the known Such experiments can also reveal intersectional dynamics within given social political and biological borders offering new perspectives and angles of analysis This collection intends to serve transdisciplinary studies and to support varied learning and teaching environments for undergraduate postgraduate and PhD students
