Yurugu Marimba Ani,1994 Cultural Thought and Behavior Removes the mask from the European facade and thereby reveals the inner workings of global white supremacy *The Osaro Theory* Efosa Osaro,2019-07-11 The Osaro Theory suggests that there is a variation between those who evolved in tropical conditions and those who evolved in a colder climate It is the author s belief that these environmental differences have altered not only the physiology but are also responsible for the biological and the behavioral differences between blacks whites and Asians The Emotional Reservoir is a phrase he coined based on the study of the enormous effect of the sun on the earth and how it affects human biology physiology and behavior According to his theory these environmental differences have numerous effects on human beings also on how the environment can dictate human intelligence This theory also suggests that the people who evolved out of sub Saharan Africa tend to possess more Emotional Reservoir than the Europeans and Asians who evolved in a colder environment and who tend to have a lesser Emotional Reservoir Furthermore this higher Emotional Reservoir is also responsible for certain behaviors that are detrimental to the growth and the stability of these groups which in turn cause behavioral pathologies and poor decision making Pan-Africanism in Modern Times Olayiwola Abegunrin,Sabella Ogbobode Abidde,2016-06-15 For about one hundred years Pan Africanism as a social cultural economic political and philosophical idea thrived Towards the tail end of the twentieth century however it waned But in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in Africa s landscape and consciousness In an increasingly interdependent and interrelated world this book also suggests that Pan Africanism will undergo a metamorphosis problems and challenges will be seen and tackled from the globalization and global common perspective Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory **Afrocentric**
