Waarom Die Groot Trek Geslaag Het:

The Rise of Afrikanerdom T. Dunbar Moodie, 1975-01-01 The Cambridge History of Africa J. D. Fage, Roland Anthony Oliver, 1976 The period covered in this volume is one which begins with the emergence of anti slave trade attitudes in Europe and ends on the eve of European colonial conquest But except for white conquests in Algeria and South Africa and colonies of free Blacks on the west coast the theme is that of African independence initiative and adaptation in the last phase of its pre colonial history Under greater external pressures than ever before from European trade exploration missionary and political activity African history in this period moved with greater momentum and larger scale than in past ages with rapid changes in economic and political life In general the approach in this volume is through chapters focusing on regions of Africa each written by an established authority in his field Concluding chapters survey the activities of Europeans in Africa and those of Africans and their descendants overseas Colonial South Africa: Origins Racial Order Tim Keegan, 1997-01-01 It is a story that is strong in notable events slave emancipation the arrival of the 1820 British settlers a series of frontier wars the Great Trek of Boer emigrants as well as in striking personalities among them Dr John Philip Andries Stockenström John Fairbairn Moshoeshoe and Sir Harry Smith In Keegan's pages these familiar historical landmarks and characters emerge in entirely novel ways the subject of fresh interpretations and original insights A History of South Africa to 1870 Monica Wilson, Leonard Thompson, 2022-10-05 Originally published in 1982 and based on the 1969 Oxford History of South Africa this book discusses some of the trends in the historiography of South Africa before the beginning of large scale mining operations in Kimberley in 1870 A deliberate attempt was made to look at the roots of South African society and to take due account of all its peoples The book includes a survey of archaeological data emphasizing the links between South Africa and the rest of the continent and between the more remote and more recent past in South Africa The lives of the hunting herding and cultivating peoples who lived in South Africa before the advent of the Europeans The foundation of a colonial society is described and the expansion of that society until the 1770s The final chapters review the relations between the peoples of the Cape Colony and the Nguni cultivators from their first meetings until about 1870 and the growth of the plural society in the Cape Colony until 1970 A Social History of the University Presses in Apartheid South Africa Elizabeth Le Roux, 2015-10-14 In A History of the University Presses in Apartheid South Africa Elizabeth le Roux examines scholarly publishing history academic freedom and knowledge production during the apartheid era Using archival materials comprehensive bibliographies and political sociology theory this work analyses the origins publishing lists and philosophies of the university presses The university presses are often associated with anti apartheid publishing and the promotion of academic freedom but this work reveals both greater complicity and complexity Elizabeth le Roux demonstrates that the university presses cannot be considered oppositional because they did not resist censorship and because they operated within the constraints of the higher education system but their publishing strategies became more liberal over time **Die**
